ESSAY WRITING ENGLISH — HSS

'A Vignette on what words play in Our lives'

'Success is not final, failure is not fatal, its the courage to continue that counts'....
— Winston Churchill

Seldom people think on how we can manifest the inner feelings that is furtively concealed in our minds. The camaraderie, rapport and amity still exist in the universe merely because we impact each other, we communicate and that is how gradually, relationships germinate. Truly, 'words make a man successful'. As commented by Thomas Monson,

'Success is the ~~worth~~ progressive realization of a worthy ideal'...

Thus that progressive realization should spontaneously come out from a bloke, merely then he

will gain a position in the society. For this, zilch has to be done, but just communicate the world through spitting out words, expressions, gestures etc. Its commonly known to all that,

'Actions speak better than words'.

but then too, you can express myriads of feelings through words, either by speaking or by writing. Indeed, every non and often people vividly use the art of writing.

'Writing is an act of faith, not a trick of grammar'

— E.B White

When you take all your thoughts enmasse, there will be enormous ideas which are impressionistically ~~and~~ indelibly, inextricably ~~and~~ imprinted and interwoven in your minds which burst out abruptly as words! Through your language skills, its a true fact that you can subtly flummox the whole world.

'If you've ignorance and confidence, then success is sure'...

— Mark Twain

KALOLSAVAM-2017 PROGRAMME COMMITTEE

and obviously,

'Success is stumbling from failure to failure, with no loss of enthusiasm'

— Churchill

Unless you utilise the chances to vaunt before the world with words, it will result in a catastrophe and predicament. Inorder to satiate the splayed wants of humans, they converse each other with the succour of words, because merely words, along with gestures explicitly brings out the lucid thoughts in them. Some of the words may seem onerous and complicated but its necessary to pulverise them into tiny ones. Moreover, its very essential to strike while the iron is hot. i.e; whenever you find opportunities to swant off before people through exhibiting your writing skills, you must be pregnant with words!

As we all know,

'Child is the father of man'

Thus having incredible vocabulary right from the initial stages of childhood will put you on cloud nine and will make you an enraptuering successful man later.

A person who remains tranquil ~~and~~ calm and insipid throughout his life will be encumbered with ennui everywhere he goes. So, people should interact with the public, they should come out to the political ~~arena~~ arena and must involve in the quidonlic activities taking place there. This will lead them on-route to success, absolute success.

If you wish to put a kibosh on the chaos of the menace in the society, you've to convey your objection and raise your voice infront of the mass through words. What people think and envisage about you is not at all a matter to bemoan of.

All the great personalities, for enstance, Barack Obama, Tim Ronne, A.P.J Kalam were excellent and popular through their way of speaking. Its their determination and willpower that helped and propped them to the zenith of success.

"If you don't succeed at the first attempt..., then destroy all the evidence you've tried"...

PROGRAMME COMMITTEE

~~prop~~ probably, sometimes our words may not concur with our thoughts... in such a situation people feel that they've failed to convey what the really wanted to. but this isn't a problem to cease your work. Instead, ignite and set ablaze your feelings to this played world, fully of enthly and vitality.

Flushing out inner feelings earlier were done through imprinting words onto manuscripts and pamphlets. But these days, we're endowed with almost all the facilities to put off the words out of you... and its high time to realise that the great words of you will be imprinted on your stone in you grave exclusively! Thus words will surely rejuvenate and invigorate the inner zeal and valour in a person.

~~the~~ Hence through expressing words, fidelity, righteousness and consistency in verity (truth) is ensued to the world. Thus in the present scenario I remain robustly optimistic that the hope is still not packed up and you've ample time to burgeon

the enquisitely woven feelings and thoughts of yours into words because,

'Failure is the condiment that gives success its flavour'...

& Ergo, in the present scenario, to encapsulate the phrase 'Words make a successful man' and to put enmasse in a nutshell,

'Nothing is damnable and apal, unless you lay out what it is'...

So innovate the ideas in you through words and may the whole world stoop before you and applaud you for the words you've contributed...! Because 'words' make and mould a successful man... and gradually too many successful men will make way for nothing but a successful 'WORLD' indeed!

'Be rapacious for words'
