NON-DRUGS DAY

Today is about june 26 non drugs day. By resolution 42/112 of 7 december 1987 the general assembly decided to observe 26 june as the international day against drug abuse and illicit. Trafficking as an expression of its determination to strengthen action and co-operation to achieve the goal of an international society free of drug abuse since presindent richard nickson beganthe war drugs. Countless people have claimed to have solute america's drug problem however from formation of the DEA to nancy regains just say no compain nothing has been partially helpful.

SAVE TREES

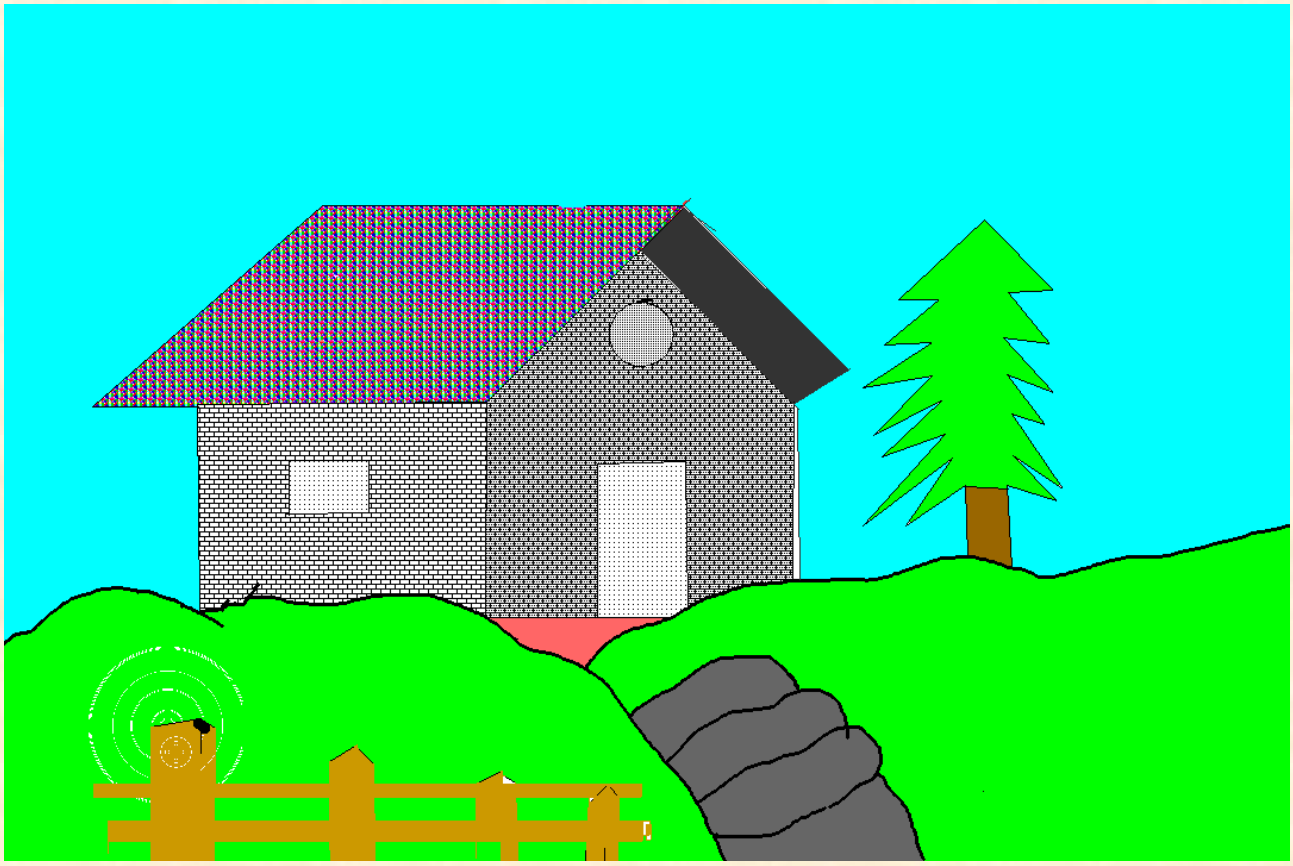
***SAVE EARTH, SAVE LIFE.**

***NO EARTH, NO LIFE.**

***NO EARTH, NO BIRTH.**

***SAVE EARTH TO CONTINUE LIFE HERE.**

***IF YOU WANT A HAPPY LIFE, SAVE EARTH.**



RAIN

The rain was like a little mouse
Quiet, small and grey.
It pattered all around the house
And then it went away.

It did not come. I understand
Indoors at all, until,
It found an open window and
Left tracks across the hill

Soil Conservation

"conservation of nature" relates to not just conserving one or two elements – water, soil,forest,flora andfauna,oceans,air,plants,insect ,birds etc which together constitude nature or our natural habitat.
In the preciding essay we have gone through some of the method for conserving nature,which indeed will help us in achieving the goal of nature conservation

SAVE TREE

Save trees is a slogan used to motivate people
to save trees and plants more trees in the surroundings area by. Spreading the importance
of trees among people as well as reduce deforestation and cuts down of trees. Trees are as
much importances to our food and water

POLLUTION

There are many catogeries in drugs and there are so many dieseases. Catogeries are :- smoking,drinking,pan masala etc.

When we drink and eat pan masala
there is no pollution and not harmful
to nature. But by smoking there is an
pollution and it is called air pollution
when we fire cigeratte, the smoke from cigeratte will reach to air and when we inhail it, reaches to our lungs the smoke from the cigeratteis more dangerous our lungs.

So We should not smoke again
and do not harm our nature and body

Song of the dream

Sarojini Naidu

Once in the dream of a night I stood
lone in the light of a magical wood
soul-deep in vision that poppy-like sprang;
and spirits of truth were the birds that sang
and spirits of love were the stars that glowed
and spirits of peace were the stream that flowed
in that magical wood in the land of sleep

lone in the light of magical grove,
I felt the stars of the spirit of love
Gather and gleam round my dedicate youth
And i heard the songs of the spirit of truth
to quench my longing i bent me low
By the streams of the spirits of peace that flow
In that magical wood in the land of sleep

SAVE A TREE
SAVE 0NE
DROP OF TEAR
IN FUTURE
DRUGS AND AIR

THE LITTLE BOY LOST

father father were are you going

o do not walk so fast

speak father,speak to your little boy

or else I shall be lost

The night was dark

No father was there

The child was wet with dew

The mire was deep and the

child did deep

And away the vapour flew

HYDROSPHERE

Two *thirds of the surface of the earth is water. Water, in liquid state , is found in oceans, rivers, lakes and streams, on the earth surface and below it as well . Water is found in solid state in polar region and a top high mountains it exists as water vapour and droplets in atmosphere .water found on the earth in the solid forms is called hydrosphere*

THE ROAD NOT TAKEN

Two roads diverged in a yellow wood,
And sorry i could not travel both
And be one traveller ,long i stood
And looked down one as far as i could
To where it bent in the undergrowth,
Then look the order, as just as fair,
And having perhaps the better claim,
Because it was grassy and wanted wear;
Though as for that the passing there
Had worn them really about the same,
And both that morning equally lay
In leaves no step had trodden black
Oh, i kept the first for another day!
Yet knowing how way leads on to way,
I doubted if i should ever come back.
I shall be telling this with a sigh
Somewhere ages and ages hence:
Two roads diverged in a wood, and i
Took the one less travelled by,
And that has made all the difference

-ROBERT FROST

EARTH
SAVE TREES
Save nature
SAVE TREES AND NATURE

ATMOSPHERE

ATMOSPHERE IS A LAYER OF AIR WHICH PROTECTS THE EARTH LIKE A BLANKET.

ATMOSPHERE IS ESSENTIAL FOR THE EXISTENCE OF LIFE ON EARTH.

ATMOSPHERE CONTAINS GASES LIKE NITROGEN, OXYGEN, AND CARBON DIOXIDE. IT ALSO CONTAINS DUST PARTICLES AND WATER VAPOUR.

BY WHICH WAYS THE ATMOSPHERE IS USEFUL TO US;

** OXYGEN*

** CARBON DIOXIDE REQUIRED FOR PLANTS*

** REASONS FOR CLIMATE PHENOMENA LIKE RAIN AND SNOW*

** PROTECTS FROM HARMFUL ULTRAVIOLET AND GAMMA RAYS.*

AIR POLLUTION

In earlier the air we breathe in was pure and fresh, but due to industrialization and concentration of poison of gases from factories and vehicles pollute our air and environment . The is getting more and more toxic day by day. Also these gases are the cause of many respiratory and other diseases more over the repeat increasing human activities like burning of fossil fuels, deforestation is the major cause of air pollution. how air get polluted the fossil fuel,fire wood and other things that we burn produce oxides of carbon which gets released into the atmosphere earlier there were a number of trees which can easily filter the air we breathe in and out with the increase in demand for land.

AIR POLLUTION IS A MOST

Serious problem of the current time all over the world especially in the large cities because of the huge level of industrialization.
the release of such air pollutants in heavy consentrations
such as smog, paritculates ,solid materials,etc are getting
settled over the city,causing air pollution and health hazards
to the people .lots of dirty wastes prodused by people on daily basis
Especially in the big cities polluting the whole atmospheric air to a great extent. The release of gaseous pollutants from burning fuel of motor vechils,industrial processes buring of garbage etc are contributing to the air pollution some natural pollutants like pollen,dust,soil particles natural gases,etc are also the source of air pollution.

THE MAGIC POT

In pataliputra, there lived a poor woodcutter called subhadatta. One day, when subhatta was cutting wood in the forest , he saw four yakshas, dressed in a beautiful silk clothes

and shinning jewellery

;If they get angry with me , they will curse me; subhadatta thought,his legs trembling with fear.

However, these yakshas were kind people. 'who are you' they asked subhadatta gentley.I am subhadatta ,awoodcutter,my masters he replied.

The yakshas looked at his torn clothes and thin body, and he decided to help him. They said to him, work for us for one month .we will reward you well and you will never be hungry again.,

But what about my family?

Subhadatta asked.

Tonight we will send you to your wife in a dream, said the yakshas ,

bhhYou will tell her that yoy are saafe and you will return afte,r a month .In the morning whe she wakes up she find money and clothes by here side. Said subhadatta happly

'There is no food,my masters ; he said , the yakshas.

One of them smiled and said ; we know that .Take this pot and he gave subhadatta a beautiful pot .put your hand inside and make wish. Whatever you want will come out of it.

Subhadatta thought of delicious rice pulao and put his hand in pot.lo and behold!he had rice in his hand then he thought of meat and other tasty food the dishes appeared before him. He put the food on the gold plates

and set them before the yakshas. “what a wonderful pot!” he said after the meal

subhadatta worked with the yakshas for a month. Then one day they said to him

“you have served us well. We will give you anything you ask for.”

“I will take the magic pot; my

masters,’’ said subhadatta “if you break the pot, it will return to us ask for something else “said yakshas but i want to the pot and nothing else said

subhadatta then take it said the yakshas and gave him the pot

subhadatta took the pot and went home. His wife and children were very happy to see him back. He showed them the magic pot hr drew out beautiful clothes and shinning jewels from it.....

Air pollution

Air pollution is one of the virtual problem nowadays. There are many reasons of it but mostly it is caused by cars, growing cities, development of economy and industrialization.

Clean air consist of several gases. When some other gases or dangerous elements get in to the clean air, pollution is inevitable. Ozone layer is affected too much by pollution and it will cause serious disturbances on the environment.

People are the main cause of pollution because the thing that we use contain dangerous chemicals and they make atmosphere dirtier. Further more climate changes because of pollution.

Many substances involved in the things that people use, pollute the air seriously. For instance, cigarettes contain carbon monoxide. It occurs when wood or petrol are burned. Another one is carbon dioxide and it emerges when we burn coal or wood. When this gases contact with atmosphere, ozone layer is destroyed.

MY AMBITION

* KEEP AWAY FROM MORE WHO TRY TO BE LITTLE AMBITIONS

*INTELLIGENCE WITHOUT AMBITION IS A BIRD WITHOUT WINGS

*THE MAN WHO STARTS OUT SIMPLY WITH THE IDEA OF GETTING RICH WON'T SUCCEED,YOU MUST I HAVE A LARGE AMBITION

*GREAT AMBITION THE PASSION OF A GREAT CHARACTER

*AMBITION IS ENTHUSIASM WITH A PURPOSE

*IT IS A GRAND THING TO RISE IN THE WORLD.THE AMBITION

TO DO IS VERY SATT OF THE EARTH. IT IS THE PARENT OF ALL

Thanks.....
