

Power of words in moulding a man's life

We are all familiar with the proverb "Words we say and the stones we throw could never be taken back". It is true in every aspects. We always judge a man at the first sight ~~is~~ from his words. The mode of speech of any man tell us who he is. This is how an anonymous quotation goes "Success is through our deeds, our deeds are our attitude, our attitude are our thoughts and our thoughts are our words. So be careful before we speak."

We all know the great play of William Shakespeare, "Julius Caesar". There we can see a great orator who turned the situation upside down

just with his words. That is the true power
power
of words. Mark Antony ~~didn't~~ had any
other options even had no freedom to express
his true feelings to the people. But being an
honest and intelligent man with heart touching
words he took hold of every citizen of Rome.
It was his words that cause the destruction
of Caesar's murderers. If words can do that
much it is even unimaginable what else
words would do.

Another great example of ~~no~~ words leading
to success, is our father of the Nation,
Mahatma Gandhi. He too was a good orator.
He succeeded to bring independence to our
Nation through his words, something that
cannot be achieved through swords, guns
and massive violence. Indians believed in
Gandhi from his words. Indians stood with
Gandhi as his words ~~were~~ made him more
close to them.

In all these examples, we saw the power of words to lead a man to success. The success through words is not only ^{the ultimate} success in life but ^{is} in each and every field of small aspects of life. Taking the example of a businessman, his business will only succeed if he can catch the attention of his clients. He can only do this through his words. We still remember many great personalities just because of their great words. Words not only help oneself to reach the peaks of ~~or~~ success but will also inspire others to ~~see~~ climb the mountain of success.

"A man who lives well is a man who talks well." We may have heard the ^{Arabian} story of ~~1000~~ 'Thousand and one night'. These stories originate because of the cruel

decision of a Navab to kill all the girls of Arabia. He killed nine hundred and ninety nine girls. It was the chance of Shehan to be the thousand one.

But she escaped from the ~~no~~ blade through her words and not only that it was her words that changed the mind of that Navab. words are revolutionary they can light up anything.

It is words that make a man successful, especially in this 21st century. While going for an interview, there may be hundreds of applicants for a few vacancies. Everyone may know a lot of things on various subjects. But those who are able to strike the mind of the interview board can only succeed there. That will be through his/her words.

There are a lot of great personalities who flew in this seamless world ~~in~~ with

words. As wings, when we look closely to the life of any persons who succeed in their lives we can see good narrators in them. A man cannot reach anywhere if his words are not good even though his deeds are. We always judge a book first with its cover. Words are this 'cover' for a man. It is often said that friends are the one among the significant factors that leads someone to success. Good friends are made through good words. Because those who talk alike also think alike.

Dr. A.P.J. Abdul Kalam is known as 'The man of words'. His words are even taught to children. It was his inspiring words that gave a place for him in everyone's heart. The words of great Brazilian writer Paulo Coelho "when you really want something the whole universe conspires you to achieve it". It was these words that

made him world famous. Words not only
can make a man successful but
also can help him to possess what-
ever he needs. This is what we saw
in the folktales like that of 'Thennali
Raman'. This power of words not only
hide inside these stories but come out
to the world through the life man of
many like that we said ⁱⁿ above lines. We
~~love~~ love Sachin Tendulkar not only because
of his talent in cricket, if it was his
talent there are many other cricketers
who are equally talented as Sachin, it
is his sweet and heart touching words
that make ~~us~~ us love him.

As ^{good} words can lead a man to
success, bad words can lead a man
to failure. So think twice before we
speak a single word as ^{each} words ~~the~~
word we speak determines where we will
reach and what we will become.
