Why gender equality?

Gender equality is an important social issue which is raised by the former generation and continue by the present. The interesting thing about gender equality is that many of the people do not know what it really means. People often think that gender equality means women above men or women need a life of this world. Many of them are not willing to understand the situation and they are standing against without thinking about the aftereffect. So it is really important that we should know what is gender equality and what we are expecting through it.

Gender equality is the state which access to right and opportunity is unaffected by gender which means men and women should have equal opportunity in all sectors is a vital thing.

A woman who can maintain several tasks with different emotions at single time can also handle crisis. But realising the strength of ourselves is really important. A person who does not know her strength is equivalent to a passion which is weak so first of all we should have thought that we can do it and prove it to the world. Then only there will be difference of this this will continue as a struggle without development. So know your strength to stand and bring a beautiful world of equality.

IMPORTANCE OF TREES

Trees are the best friends of man. Trees play a very important role in our life. They give us fruits, flowers, medicine, paper, firewood etc. Trees absorb carbon dioxide and release oxygen which is very important to maintain the underground water level. They prevent soil erosion, deluge and droughts. Trees are natural home for creatures. They offer cool shade during summer and during rainy season we often take shelter under trees. They are known as natural air and water filters. They guard us against pollution, add beauty to nature and keep up ecological balance. Felling of trees affect our ecosystem, these green gold' on earth should be preserved and protected.

A big yellow ball

I see a big mango,
Its colour is yellow,
There fell down from a tree
Its rolling like a small yellow ball.....
I pick the mango to see the worm.....
They peer at my eyes
mango is the house of the worm.....
Their food store in the fruit
At last it tells its story
which is as sweet as the mango.....

MY JOURNEY

In the last year I went on a tour programme. I and my family members had been to Mysore. We were off in a tourist bus. I enjoyed very much that journey. I had been on a long trip for the first time . That tour was two day programme. That tour was arranged by Yuva Chethana Club of Kulikkilyad.

We started the journey at night. The next day at 8 o'clock, we arrived in Mysore. On the way,I saw many wild animals like bear,deer,elephant etc.That day we visited Tippu tomb,Vrindavan gardens ,I saw music fountain and flowers. On the next day we visited Mysore palace . When I entered the palace I was surprised seeing the huge structure of it. Later we visited Chamundi hills and Flomina church. In the evening we came back.We really enjoyed that journey.
