

THE LINE BETWEEN US

I am born in a tarnished silver cage
Where the glimmers of hopes vanished away.
I am the word between silence and annotation
Where the fences surrounded are sharpened to poke.

Me and my dreams are near but still apart.
When I strive to feel its warmth, the line pierced through my heart
Wrecking my muscles, bleeding the veins,
Erupting my faith to suck its nectar.

I yearn to know what that feeling
to understand how to make wisteria flowers in my mind.
I want to cross that bridge of suffering
Which lines us as a red thread of fate.

I worked to pursue my destination
stumbled by the stones of life
Yet gripping on the brink of that stone
My heart thrust to beat again and again
Just to feel its true exquisite paradise

Still the line repels me and throw away
Just to bleed in vain, inserting bruises in my skin
Wandering through different paths and lifelines
I was just wading by splashing the blood of youth

Line make us eternal ~~real~~ true lovers
by separating us from linking our souls together
wanting to ~~overcome~~ all the limitations
Just to feel the exilir of happiness

I voyaged around the skies, wandering through clouds
conquered stars, just to lay on my moon
But the line of fate pinches me from behind
making more and more suffering by freezing the blood

I thrive to fly across the paradise
Beyond every boundaries of universe
In the trance of all my thoughts
Just to know what triumphs feel like

But in all sacrifice, in torned clothes
Even in the verge of shabbiness and stubbornness
Shredding the last drop of hope
My mind moves forward confronting me in the enthusiasm

The mountains, rocks, thars every obstacles
batting with me to check my life's will
Whether I deserve to cross the line
To meet my divine soulmate behind the line

staining
staining all my cheek with tears
my mind mumbled about the taste of win

I am in a dilemma having no assurance
I fought like a soldier, bleed like Jesus Christ
Still my heart flutters to answer my question

(Note: This page will be scanned to publish the article in schoolwiki. So, Write neatly. Don't fold paper. Don't write overleaf).

I lost the tranquility to meek in silence
Hiding like a feared culprit of fate
I stepped through that thorn paths
Just to seize my moment

Even in the sticking darkness, through that path
Arrows wrapping around my pale skin
I searched for the way to see the beam of light
Which ~~shows~~^{will} cling to my hand to cut the rope

Grasping heavily, breath struck in ^{the} throat
I want to see the sea of bioluminescence across the line
Where my life blossomed to be a worthy soul tree
Where the fireflies of delightful light the fire of my desire

The line is harder than any metal, longer than the universe
In the stream of ~~adventure~~^{adventure} inside my heart
My heart ached to drink the liberty of crossing all the lines
Reaching the farthest point of fervent abuses

How can I reach my destination of my dream?
I couldn't concede my failure, lose to a line
which may be could cut by the determination of my will
By the mightiest chisel which sculptured the lines:

The magic aura can't be destroyed by a mere line.
It was to be perish across new horizons,
Where the threads of fascinations sews
Without knowing the size of the clothes.

Like living dead souls like us are not to be deceased.
It meant to fly by conquering the burning sun.
If the line can't be cut, by nothing would be broken
But if it does, the whole universe bows down

Lines are not obstructions, if you are the bravest warrior
It is just a line that can be erased by hands
Only if you burn your innermind to crack it.
The way in front is not vulnerable than the pass crossed

Just sharpen your blade of wrath of confidence
which could set ablaze like your ignited minds
wait for the day when the lines fade away
You will even be able to conquer the gods

Just fire your breath, breathe the fire
The tained dreams will bloom again
like the sweetness of spring season
Just to trained you as a strong warrior

Trust in the mind blowing eyes of yourself
without despising the ~~be~~ harming vectors of pains
Used every weapons of sweat, blood, brain and tongue
the line ~~could~~ ^{could} ~~by~~ vanish away from your world

use the weapon of your potential absorbing every energy
when axes are
cut down the shackles of all distractions
when axes are surrounded you
to us down and gulp like a snake
make your venom of desire more poisonous
That line would even vapourises

At last when that line cuts down
You are the invincible one
who ~~are~~ going to live an eternal life
And who is going to fire the light of other's dreams
By achieving immortality by savouring the exhilar of life
