TRUE FRIEND

A true friend cares like a mother
scolds like a father ,tease like a brother,
irritates like a sister and
finally loves more than a lover.
Even if we are at a great distance from them,
our mind will always be near them.....
A true friends can understand our problems
much better than us.....
and keeps us cool and comfortable
while they take all the necessary precautions
and responsibility
even when they have more than
enough already.....

SCHOOL LIFE

When you go to school
your heart feel so cool
till you leave
There is joy up sleeve
Life in school is memorable
Though you may find your classes horrible
you will always remember the first and the
last days of your school
the love you got and the joy you felt
the fights the sharing and the daring
now all you do is to stand and star
Sometimes you were naughty and did not
please your teacher
Sometimes you aped their features
School life is full of pleasure
which you must treasure
Like the journey of sun from the
East to West
our school life begins in one day and
Ends in the other..

If I could be.....

If I could be an Astronaut
I would like to go
To a planet full of colours
With flowers in the snow

I wouldn't go to Venus
I wouldn't go to Mars
I would find a special planet
Somewhere in the stars

A place where fish have feathers
A place where trees can talk
That's where I'll land my spaceship
And take a weightless walk

Environment

We tend to take our life for granted and think that the survival of living beings on earth depends exclusively on the availability of fresh air , food and drinking water.

The environment around us preserves life as a mother's womb protects the child with in .Environment is formed by whatever surroundings we live in. the case of earth , all the physical surroundings present our planet are called environment.

Hydrosphere, as the name suggests consist of water bodies. the oceans and other bodies of water on earth such as river and lakes make up the hydrosphere.

Our existence and survival depends entirely on atmosphere . All animals and plants and other living beings rely on the non living aspect of the environment to survive .

A SIGHT FOR SORE EYES

It was a bright Sunday. I was sitting on the chair staring at the almost deserted view outside. As usual, it was just another boring, lazy day. I was almost hoping something very unnatural or paranormal would happen to make this day more exciting.

My father was outside, probably watering the plants or talking to our neighbours, my sister Eleanor was in her room and mom was in the kitchen frequently calling out my name just to check if I was sleeping on this pleasant day. My mind was wandering between the urge to go

outside or finish the third book in my favourite series “HARRY POTTER AND THE PRISONER OF AZKABAN”. Well, it was an amazing book and I really thought it would be better to read than go out.....

Suddenly the door opened .It was Eleanor . “Hey Zara! Really sunny day ,isn’t? I was just wondering if I could take one of your books,I’ve finished reading all my books....

She said all this very fast ; she had a habit of talking very fast , she’s my twin sister ,she loves reading as much as I do.

“sure, take whichever book you want... I replied.”. She started leafing through my books . Then finally she picked a book lying on the table.

Mmm... I haven’t read this. Is it a good one? She asked showing me the Prisoner of Azkaban.

“ I didn’t finish it”. I said “but it is pretty awesome”.

“ oh well then I’ll just read it.Then she left .Now I was left with only option -get out so I went and informed my mother(who was very pleased)and

went outside .Eleanor was right.It was an amazing day....but I wanted to get back home as soon as I could.

I got tired after a while . I went and sat down on a bench .A boy was sitting there,he looked quite younger than me.

“Hello!”he said

“hi.... I replied, not wanting to make further conversation.

“It seems to be quite a sunny day....”

“well obviously,it is”

This kid seemed to be a person who liked to talk a lot but I was just not in the mood to.

“I think I hear some squirrels...” He said interrupting my thoughts.

“What ? Oh , yeah, there are some in that tree over there....” I said pointing to the nearest tree.

“ where? Oh never mind “.He said as he turned in every direction to see where the sound came from .

This kid seemed a little weired

“Is that chocolate?’ He said smelling the sweet aroma that filled the air.

If you want some ,you could go buy it.....”
‘well ,I don’t have any money’

‘Me neither

It was quite for a while. I was simply starting at group of children playing. Then he again started talking.

‘I think I hear some birds.....I really love their chirping sound...’

‘Well there are birds in the tree. ‘I said . I was getting a bit angry at this kid. He was talking about absolutely random stuff.;;

;Am I sitting near a tree. ‘He asked; a bit surprised

Of course you are . Can’t you see?

Now I really lose my temper.

There was a long silence

‘I can’t see I’m blind.’”

‘I felt as if some thing stabbed me. Now I felt really guilty .This boy wasn’t weird .He was just enjoying the sound the feels something I couldn’t under stand; something I have always taken for granted.

‘I am sorry ’ I said

There 's nothing to be sorry about!Oh I've got to go now,I think mummy's calling.

Sure enough,I saw his mother walk towards him,gently ,holding him as they left

I went back home ,feeling different.I felt like a different person.I felt as if I just realised the beauty in everything.

OSCAR WILDE

A gifted poet, playwright and wit, Oscar Wilde was a phenomenon in 19th century England. He was known for preaching the importance of style in life and art, and of attacking Victorian narrow-mindedness.

Wilde was born in Dublin, 1854. He studied at Trinity College before leaving his native land Ireland to study at Oxford University when he was in his early twenties. His prodigious talent was recognized when he received the Newdegate Prize for his poem "Patience" which was published in 1881, followed by a play "The Duchess of Padua" two years later.

On his arrival in America, Wilde stirred the nation with his flamboyant personality, wearing long silk stockings, long flowing hair which gave the impression of a general air of wit, sophistication and eccentricity. His other noted work "The Picture of Dorian Gray" (1890) created controversy as the book attacked the hypocrisy of England. This novel is the story of a young handsome man who sells his soul to a picture to have eternal youth and beauty, only to face the hideousness of his own portrait as it ages.

His other famous works were "The Happy Prince" and "The Selfish Giant".

A DYING TREE

Oh! I am a tree, full of green leaves.

I help to balance the atmosphere conditions,

I produce fresh air for breathing.

I provide shelter for birds and animals.

I prevent soil erosion to avoid man death.

I gave food and wood for people.

Oh! but now I am a dying tree,

You are destroying me,

For bags of money and construction

Forgetting trees are like forgetting yourself.

My survival is to save your lives

Not to harm yourself

You now, I am your best friend

Why are you killing me?

Why are you killing yourself
