

BLOOMS

**This magazine is designed
and written by the students
of "Little kite units" in KMHS
Maveloor the name of the
magazine is "BLOOMS"
2023-24 . This attempt of our
students may give strength
to our general education
protection mission. So I wish
all the blessings for them.**

**Geetha S
head mistress**

The little kite units in the schools help the students for updating their knowledge in information technology. Now a days we are living in the e world. So the knowledge of computer and its hardware and software technology is essential. Little kite units in schools help the students to update the new technologies in the It field. It helps the students for getting jobs in the field of animation and other fields.

message

dear students,

now you are on the way of your studies. so think about your future. education is our passport to the future, for tomorrow belonging to the people who prepare for today. so you may start today it self to learn from yesterday and make dreams for tomorrow. the future belong to those who believe in the beauty of their dreams. to learn from yesterday, live for today and walk for tomorrow. nothing can block the light of your future.

thanks

Rajasree N

A Fallen Leaf

*A trusting little leaf of green,
A bold audacious frost;
A rendezvous, a kiss or two,
And youth for ever lost.*

Riddles

What has hands, but is not flesh, bone or blood?

Answer: Clock

Come up and we go, Go down and we stay.

Answer: Anchor

It goes up and down the stairs without moving.

Answer: Carpet

WATER

**"Water water everywhere
But not a drop to drink"**

Water essential for all living beings on earth. Three forth of the earth of the earth is covered by water bodies. But pure water is very less.

Now a days the industrialisation pollutes water in the water bodies. So we must be aware about this. If this situation continue we must not get water for our essential purposes.

Every one of us must take care for the careful utilisation of water. Water is a blessing for us from the part of God.

THANKS
