The essence of harmony is language. The world connected as a sacred ring with language. From middle east to south india, from nigeria to new york such as everywhere. People lives in cooperate only if language emphasize where communication build.

War and peace are the famous triangle ever war happens there vanishes the ideology of peace. Where peace uplifted there eradicate war. In the globe or around the globe, there are people speaking different kinds of language they only reflect the body of language but there should be ensure the value and morality towards harmony.

All men should conquer the heart of love and care. not conquer the lives with blood and there should be veils in this world but not in front of humanity.

As far as reflect the idea of war happens when language fails. in the instance such as:

This critical aspects war begins or happens when the communication or language fails.

it is true in many instance and analysis the women of russia marched begging for bread because there failed language between rulers and common people.

these are situations were language fails when freedom prevented such as the 'Nageli cuts of her breast to get freedom to wear clothes'.

As Anna frank trapped and screamed for live there language failed.

As mentioned not only by language crumbling down but also by the reason by greed, unforgiveness, disrespect etc. but all even their roots are buried in language and knowledge. The language mentioned here is knowledge, humanity, respectness, respect, self reliance, non violence, hospitably, peace, harmony. All humans born to earth they are not.

Trespassers then why?

the fact is language fails. then there analyze
the critical topic relevantly.

to summarize. the war are threatening lives
there must be freedom to live as per indian constitu-
tion there must be freedom of speech and expression.
there should be enrich of language which reflect
idea of communication, humanity, harmony
and hospilality where all those failed and crumbled
down from one's heart or one society or one nation.
these happens the conflicts.

to conclude let's hope and empower the
nation with rich in language elements not by
buying up all dictionaries and literature books
by good deeds and humanity. where earth should
be given in harmony.
