### Academic Master plan

class	Area	Goal	Main Activities -Obligation			
			1	2	3	4
1	Language	To enable all the children can read and write well	Form groups and encourage to read and write	Involve the children to conduct assembly	Special attention to those who need it	Include parents support to improve reading and writing skill
	Maths	Ensuring numeracy for all children	Numbers can be identify with the help of songs and play	Each day counting practices are conducted by children	Using nature as the teaching material-count and say the garden flowers ,number of fruits etc.	Counting board and toys can also be used
	EVS	Ensure basic knowledge about nature	Know the basic study about nature	Bring the children to the open air and observe our earth	Asking questions about what they observe	Appreciate them for their finding
	Computer	To enable them basic computer knowledge	Show the parts of computer	Ask where the can see the device	Ask the use of each parts	Learn them how to type their name

Language	To enable all the children can read and write well.	Involve the children to conduct assembly	Special attention to those who need it	Form groups and encourage to read and write	Include parents support to improve reading and writing skill
Maths	Ensuring numeracy for all children	Make small pencils to aware them about table forming	Small activities can be use for learning tables	Using simple games the can catch the tables well	Make simple song to observe maths terms
EVS	Give knowledge about our environment and surroundings for all children	Bring the children to the open air and observe our earth	Give knowledge about body parts and its uses	Giving awareness about sun, moon and stars	Giving knowledge about plants and animals
Computer	To enable them about the working of computer	Make them to type their name	Give awareness about the uses of computer	Show how to draw simple pictures	Giving knowledge about computer manners

class	Area	Goal	Main Activities -Obligation			
			1	2	3	4
3	Language	Ensure all the students read and write well	To motivate the children in reading Story books are given for them during library period	Malayalam,English and Hindi Textbook reading competitions conduct in each week	Spell Bee words given to the children and test conducted each month	Conversation activities are given to the children
	Maths	Addition, subtraction and multiplication problems must be practice	Board tests are conduct as game	Motivate the children to do fast	Identify the geometrical shape	Tell them to prepare charts and table for learning maths easily
	EVS	Bring the children to the open air and observe our earth	Giving knowledge about plants and animals	Everyone get knowledge about our environment and surroundings for all children	Giving awareness about sun, moon and stars	Give knowledge about body parts and its uses
	Computer	Give time to learn typing	Giving knowledge about computer manners	Give awareness about the uses of computer	Give training to the children to draw and colour	Give idea about Operating system

class	Area	Goal	Main Activities -Obligation			
			1	2	3	4
4	Language	Ensure all the students read and write well	To motivate the children in reading Story books are given for them during library period	Malayalam,English and Hindi Textbook reading competitions conduct in each week	Spell Bee words given to the children and test conducted each month	Conversation activities are given to the children
	Maths	Addition, subtraction and multiplication problems must be practice	Board tests are conduct as game	Motivate the children to do fast	Identify the geometrical shape	Tell them to prepare charts and table for learning maths easily
	EVS	Bring the children to the open air and observe our earth	Giving knowledge about plants and animals	Everyone get knowledge about our environment and surroundings for all children	Giving awareness about sun, moon and stars	Give knowledge about body parts and its uses
	Computer	Give time to learn typing	Giving knowledge about computer manners	Give awareness about the uses of computer	Give training to the children to draw and colour	Give idea about Operating system

class	Area	Goal	Main Activities -Obligation			
			1	2	3	4
5	Language	Ensure all the students read and write well	To motivate the children in reading Story books are given for them during library period	Malayalam,English and Hindi Textbook reading competitions conduct in each week	Spell Bee words given to the children and test conducted each month.	Conversation activities are given to the children. Ask the help of parents to improve the reading ability.
	Maths	Addition, substraction and multiplication problems must be practice	Assist them to prepare geometrical figures for understanding the sides,area etc.	Interesting games given to the students and motivate the children to do fast'	Computer softwares can be used to learn the ideas simply	Tell them to prepare charts and table for learning maths easily
	BS	Bring the children to the open air and observe our earth	Giving knowledge about plants and animals	Everyone get knowledge about our environment and surroundings for all children	Giving awareness about sun, moon and stars	Give knowledge about body parts and its uses
	SS	To understand children about the society,political and economic activities	Take the task to impart knowledge about our earth and its features.			
	Computer	Give time to learn typing	Giving knowledge about computer manners	Give awareness about the uses of computer	Give training to the children to draw and colour	Give idea about Operating system

class	Area	Goal	Main Activities -Obligation			
			1	2	3	4
6	Language	Ensure all the students read and write well	To motivate the children in reading Story books are given for them during library period	Malayalam,English and Hindi Textbook reading competitions conduct in each week	Spell Bee words given to the children and test conducted each month.	Conversation activities are given to the children. Ask the help of parents to improve the reading ability.
	Maths	Addition, subtraction and multiplication problems must be practice	Assist them to prepare geometrical figures for understanding the sides,area etc.	Interesting games given to the students and motivate the children to do fast'	Computer softwares can be used to learn the ideas simply	Tell them to prepare charts and table for learning maths easily
	BS	Bring the children to the open air and observe our earth	Giving knowledge about plants and animals	Everyone get knowledge about our environment and surroundings for all children	Giving awareness about sun, moon and stars	Give knowledge about body parts and its uses
	SS	To understand children about the society,political and economic activities	Take the task to impart knowledge about our earth and its features.	To give idea about our for rulers who ruled our nation	To give awareness about our climatic condition,weather,how it affect the people.	By giving idea about the economy of our country ,they get knowledge about nations economic growth
	Computer	Give time to learn typing	Giving knowledge about computer	Give awareness about the uses of	Give training to the children to draw and	Give idea about Operating system

class	Area	Goal	Main Activities -Obligation			
			1	2	3	4
7	Language	Ensure all the students read and write well	To motivate the children in reading Story books are given for them during library period	Malayalam,English and Hindi Textbook reading competitions conduct in each week	Spell Bee words given to the children and test conducted each month.	Conversation activities are given to the children. Ask the help of parents to improve the reading ability.
	Maths	Addition, subtraction and multiplication problems must be practice	Assist them to prepare geometrical figures for understanding the sides,area etc.	Interesting games given to the students and motivate the children to do fast'	Computer softwares can be used to learn the ideas simply	Tell them to prepare charts and table for learning maths easily
