അക്ഷരങ്ങൾക്കെല്ലാം
 ഏറെ പറയാനുണ്ടാകും.
 അക്ഷരങ്ങൾ
 ശരിയിടങ്ങളിലാകുമ്പോൾ
 അത് പറഞ്ഞതെല്ലാം
 പൊന്നുപോലാകും.
 അർഥമുള്ള കടലാകും...
 പാറപോലെ കടുപ്പമെങ്കിലും
 മധുരമുള്ള സ്വപ്നങ്ങൾ
 ചെയ്യുന്ന മേഘങ്ങളാകും.
 പുതിയ കാലത്തിനു ചേർന്ന
 വാക്കുകളാണിവിടെ
 വരച്ചുവച്ചത്.
 പ്രതീകങ്ങളും
 അനുഭവങ്ങളും
 വിങ്ങലുകളും
 നിറഞ്ഞ ഹൃദയങ്ങൾ
 പാദമുദ്ര പോലെ
 അടയാളപ്പെട്ടിരിക്കുന്നു ഇവിടെ.
 ഈ വാക്കുകൾ
 വഴിവിളക്കുകളായി
 തീർന്നെങ്കിൽ...
 ഒരു തണൽ മരമായി
 വളർന്നെങ്കിൽ....

A SMILE

I am across a quote one day
That a smile could change the world
But i wonder who one says
That a smile could also hold some pain

Smile could hold a thousand tears
Keeping lies for unknown for eyes
But get us fail to see the pain
In the eyes of that parsons

Who smile all day.....
He climbs the peaks.
Crawls in the grass
Together with us
Always with a smile

But the reason for silent sobs
Always remain a mystery for all
Beneath that smile
Beyond his pain

A smile could mean a million words.
A smile could become a mask for the tears.
A smile tride the simple trace.
Of a tear rolling down a cheek.

THE BACK BENCHERS

Back benchers are the most privileged students in the class. They are the heroes who maintain indiscipline in the class with

great precision. They direct all the classmates according to their fancy. Some of the main different features are as follow.

While more than 75% of the front benchers are book worms, even 25% of the back benchers do not touch books throughout the year.

The front benchers arrive five minutes early to the class where as the back benchers are perpetual late comers and do not waste time by coming early. The back benchers are smart and packed with energy while the front benchers are pale, anaemic with hollow cheeks.

This is just a small account of the many faceted personality of the back benchers. But i am sure, you will agree with me, when i say that the school life would lose all its charm if there were no back benchers.

MIRROR OF LIFE

Mind changes like the seasons
Some times disturbed like a rainy day
Some times blooms Like the spring
Some times like a naughty child
Some times like a rude kind less man
Some times like a savage ruins the world.
Sometimes it is bright as a dawn
And some times dark as a night
We need to have the key to control it
Your soul must drive you up
Some times it gets harassed by rubbish thoughts
But heal with new hopes and dreams.

INTERNET AND TV

How many wonderful doors have science and technology laid open before modern man!

Several appliances and instruments that had been till recently are available to us now. The internet and TV are some among them which are really double swords.

These devices assist or harm people according to the way they use them. Of course they have opened before us the wide world of knowledge. They introduce us to a new world where knowledge and fun come together.

CHILD LABOUR IN INDIA

Child labour is the practice of having children engaged in economic activity on part or time basis. The practice deprives children of their childhood and is harmful to their physical and mental development. Poverty, lack of good schooling and growth of informal economy are considered as the important causes of child labour in the world.

Poverty and lack of social security are the main causes of child labour. The

increasing gap between the rich and the poor, privatization of basic services and the non liberal economic policies are causes major sections of the population out of employment and without basic needs. This adversely affects children more than any other group. Entry of multinational corporations into industry without proper mechanisms to hold them accountable has led to the use of child labour like a lack of quality universal

education also contributed to children dropping out of school and entering the labour force. A major concern is that the actual number of child labourers goes un-detected laws that are meant to protect children from hazardous labour are ineffective and not implemented correctly.

Prime minister Narendra Modi's government has recently announced significant changes to the laws governing India's labour market. These "reforms" appear to be aimed at stimulating economic growth and inward investment by removing 'red tape' from entrepreneur so little out of the non-liberal ordinary.

HOPE FOR TOMORROW

Every moments of the changes,
Bring changes of wide ranges,
Every hour is new task,
Wearing many variety of masks
Every new days is the new lesson of life
With all pleasure and pains
There is heat some where
There is shade somewhere
The thing you desire heartily
Never becomes your easily
So always be aggressive
In every aspect to be progressive
Success is always a journey
It is never destination
Tomorrow is merely a hope.

FRIEND SHIP

Good morning friends and respected teacher,
Today I am going to say a few words about
friendship. A friend is a gift you give to yourself.
Friends are those people in our life with whom
you do not have any blood relation. Its correlation
of love and affection towards other people.

Your friend is someone with whom you fully
comfortable and can easily share your
thoughts
and feeling. You do not have to think twice
when

you are with your friends. A true friend loves
you unconditionally, understands you, but never
judges you and always tries to support you and
give you good advice. The friendship of Krishna
and Sudarma is a great example of true friendship.

Everyone of us need a true friend who can help
in our daily needs most of the people flock around
us in good circumstances but run away in bad
circumstances. They respect us in our good times.
But begin to insult and degrade us in our bad days.
They are not our friends. They are our enemies.
Thank you, Thank you very much for your
patient hearing.

KNOWLEDGE IS POWER

Kavyamanoharan- IX C

Greed for power is inherent in men. This desire comes from the Consciousness of man's mental and moral superiority over other creatures . It is instinctive, therefore, that man as a superior being should control and dominate others. Again finding that all beings are created unequal gives birth to desire to rule and dominate others. The history of world so far as man is concerned, is a history of fight for the power. Thus from the primitive wars of today, there is no one idea behind these wars and that is the thirst for this power.

Broadly speaking, power is of two kinds- physical and mental. Physical

power is lower order as compared to the power of the mind . Primitive men mainly understood one kind of power and that was of body power. In the past the strength of arms decided things and might along was right. However, with the growth of civilization and the development of human mind, mental power came to be recognised as of a superior order, Mental power is based on knowledge.

When man first appeared on the earth he was no better than animals. He was also the beast of prey and was a helpless being, a victim of wild beast and the hostile forces of nature . But God endowed him with an intelligent mind and this mind ultimately came to his rescue. He discovered fire and learnt its uses and this knowledge of uses of fire gave him power . Similarly, knowledge of other elements and

power gradually made him strong .
In course of time ,his knowledge has
achieved wonders in the world and
gave men the mastery over many
things . He discovered fire and learnt
its uses and knowledge of use of
fire gave him power.

Similarly knowledge of the elements
and power gradually made him
strong. In course of time ,his
knowledge has achieved wonders in
the world and gave man the mastery
over many things.

THE TWO LIONS

Once upon a time two pride of lions lived in two cliffs that were on opposite sides of a river .An old and narrow wooden bridge connected the two cliffs .The first herd was led by a respected the brown rich.The leader of the other herd was a majestic white lion.

Wow, the bridge was just wide enough so that only one lion could cross at a time.The two lions met at the middle of the bridge.But neither one would give way to the other.The leaders argued.The brown leader said”,Step aside i let me cross the bridge first and then you can go.The white leader cried angrily.”You step-aside!I arrive here first.The two lions argued like this for a long ,and each refused to yield soon,they locked horns and fought.

The violent fight made the old bridge swing and harder until it split into pieces.The two lions fell into the river and they died.

TO MY NANNY

Alfina K
+2 Science C

It's dedicated to my nanny
it's not only
A dedication. A child that ask pardon
From nanny to her all faults
N a n n y
The letters not mean only nanny
it's love and care
And all and all
yellow wrinkled cheeks
Smiling toothless mouth
Long white hair
Her story's fell
The struggle of a life
In my childhood days
She is my companion
like a ship have an oar
When I rise up
She is beside my bed
With a sweet smile
And a cup of tea
When she aione in our wooden
tattered house
Her ached arm's didn't get rest
She walked in our garden
And gazing towards my class
But I didn't look at her
When I look her
I feel into magic of her eyes
She collect my valuable like a crow
She always busy in her work

When I feel sad
She will become
She spread the light in my life
Beeds like wisdom too
And darkness flew away
All night she sang lullaby
Like a mother kuckoo
But now I realize it
The warmth of my nanny's love
pardon nanny....
pardon to your grand child
Now I tell you
She is my son
She is my moon
She is only my nanny
She is my god and all and all.

SIGNATURE OF NATURE

The sight of the hill is a beauty
The bright moon is the sign of purity
The flow of the river is a murmuring music
The act of the sun is so philanthropic

The rain of the clouds is very refreshing
The blowing of the wind is so soothing
The roaring of the ocean has its own reason
How charming is the changing of the seasons

THE NATURES GIFT

RAIN

Fresh and chill and sweet in air
The rain clouds are not in fair
Big drops of rain began to join
The smell of soil spill in all

Fresh and sweet and chill in air
Hailstones begin to fall with rain
Land they destroy the fields and valleys
The plunged foams are in pain

Fresh and sweet and chill in air
Rain coming and washing the earth
The rain gives the earth a new birth
The trees become fresh and green

Fresh and sweet and chill in air
The children begin to play in rain
And the peacock begin to dance
This filled my mind with peace

AUTOBIOGRAPHY OF A PENCIL

Hey you ! Stop biting me, and pay attention to the teacher. I am feeling pain. Oh! I completely forgot that you cannot hear me.Hai! Myname is pencil.My father's name is papa pencil, and my mothers name is mamma pencil.I have got so many brothers and sisters, and many of them had migrated to many countries from India.you will be really surprised to know that I cannot remember the names of my brothers and sisters.Anyway,I will give you some of thier names.They are Apsara ,Camlin ,Nataraj what a wonder ful names aren't they? Now let me tell you something about my feeling in life.I am very happy to know that no human can live without me.I always like to be with small kids. Thay use me for such wonderful drawings.And along with a happy heart. I also have a sad corner in my heart.Somethimes,people destory me, sharpen me unnecessarily and lose me hear and there.People stamp me,crush me- in to pieces but I sometimes escape from their illtreatment.They show anger by biting me.In this way,I have lost many brothers and sisters .Due to this Iam really worried about my face in this world.When grate philosophers,writes and arists are given awards,they never realse that,it is due to my effort that they are being awarded.No human being relises my importance.

I wish one day, each and every human being will realise my importance.

ALPHA, BETA AND GAMMA RAYS

When radiation of high energy strikes another atom The resulting positively charged atom is called an ion ionizing radiations are three types alpha particles beta particles and gamma rays

Alpha particles are slow and heavy. They are very dangerous beta particles are electrons that move very quickly and with a lot of energy and gamma rays

gamma rays are the most dangerous from of ionizing radiation .they have extremely high energy and can travel through most forms forms of matter because they have no mass
