La Prima

FROM HM'S DESK

Best wishes for the digital LITTLE KITES digital magazine for the year 2019-2020. Congragulation for all the members of little kites group for their effort in making the digital magazine.

- IVY JOSEPH

മധുരമായ വിദ്യാലയ

ഓർമ്മകൾ

'മനസ്സിന്റെ ഉള്ളറയിൽ ഇപ്പോഴും ചിതലരിക്കാതെ കിടക്കുന്ന ഓർമ്മകളിൽ അവസാനിക്കുന്നത് വിദ്യാലയ കാലഘട്ടത്തെക്കുറിച്ചുള്ള ഓർമ്മകളാണ്.'

അധ്യാപകരിൽ നിന്ന് ജീവിതത്തിൽ വിലയേറിയ പല മൂല്യങ്ങളും എനിക്ക് ആർജ്ജിച്ചെടുക്കുവാൻ സാധിച്ചു . എന്റെ സുഖകരവും , ചില ദുഃഖങ്ങളും നിറഞ്ഞ ജീവിതപാതയിൽ ഒരു തണൽ മരമായി എന്റെ ഒപ്പം നിന്ന രണ്ട് വികാരങ്ങളാണ് 'വിദ്യാലയവും , വിദ്യാലയ ജീവിതവും ' .

അവ്യക്തവും , ദുർഘടവുമായ നടവഴികളിലൂടെ നടക്കവെ എന്റെ ഒപ്പം നിന്ന , പൂമെത്ത വിരിച്ച വഴികൾ സമ്മാനിച്ച ഒരു വലിയ ശക്തിതന്നെയാണ് എന്റെ ഈ കൊച്ചു വിദ്യാലയം .

ചില ഇരുണ്ട മേഘങ്ങളെ അകറ്റി അറിവിന്റെ വാതായനം തുറന്ന ഒന്നാണെന്റെ വിദ്യാലയം. ഈ ജീവിതത്തിൽ അറിവിന്റെ വെളിച്ചം തുറന്നു തന്ന എന്റെ ഹൃദയസ്തർശിയായ എല്ലാ അധ്യാപകരെയും സ്മരിക്കുന്നു .

ഇനി എന്റെ കൂട്ടുകാർ ,

എനിക്ക് മറക്കാനാവില്ല അവരെ എത്രയോനല്ലനിമിഷങ്ങൾ എത്ര സ്വപ്നങ്ങൾ ഞങ്ങൾ നെയ്തുകൂട്ടി , ഇനി ആനാളുകൾ ഒക്കെ വെറും സ്മരണകൾ മാത്രം.

ഒരു ചെടിയിലെ സുഗന്ധമേറിയ പുഷ്പത്തിലെ മനോഹരമായ ഇതളുകളാണ് എന്റെ കൂട്ടുകാർ . എന്റെ സന്തോഷങ്ങളിലും ,ദുഃഖങ്ങളിലും താങ്ങായും

തണലായും നിന്ന കൂട്ടുകാരെയും എനിക്ക് മറക്കാനാവില്ല . എല്ലാവരുടെയും ജീവിതത്തിലെ ഏറ്റവും മനോഹരമായ കാലങ്ങളിലൊന്നാണ് സൂൾ ജീവിതം .

ഓർമ്മയിലെ മയിൽപ്പീലി തുണ്ടുകൾ ഒളിപ്പിച്ച പുതുമണം മാറാത്ത പുസ്തകത്തിന്റെ ഓർമ്മത്താളുകൾപ്പോലെ..

ഓർമ്മകൾ നിറഞ്ഞ ഈ വിദ്യാലയം , അവിടെ ഓടിക്കളിച്ചതും , മുറ്റത്ത് പെയ്യുന്ന മഴയിൽ വിരൽ ഓടിച്ചതും , എന്റെ മനസ്സിൽ മായാതെ കിടക്കുന്ന ഒന്നാണ് . എന്റെ ക്ലാസ് മുറിയിലെ നിറം മങ്ങാത്ത ആസുവർണ്ണ നിമിഷങ്ങൾ ഇനിയൊരിക്കലും ഈ വിദ്യാലയ ജീവിതം തിരികെവരില്ല .

എന്റെ ഈ കൊച്ചു ജീവിതത്തിൽ മറക്കാനാവാത്ത കുറേനിമിഷങ്ങൾ തന്ന ദൈവത്തിന് നന്ദി. മഴത്തുള്ളികൾ പോലെ തെന്നിത്തൊറിച്ച് നടന്ന ഈ വിദ്യാലയ കാലങ്ങൾ എങ്ങനെ മറക്കും. ഒടുവിലിതാ ഞാൻ എന്റെ സ്വപ്നസന്തോഷങ്ങൾ നിറഞ്ഞ പടികൾ കടന്നുകൊണ്ട് എന്റെ വിദ്യാലയ മുറ്റത്ത് നിന്ന്

യാത്രയാകുമ്പോൾ.....

ഒത്തിരിയതികം വേദനയോടെ.....

ശോപിക ബാബു

The Flower

I saw her in my garden.

She is nice and red

She shines like a little red star.

She dances in the wind

She plays in the rain

Birds sing for her.

Bees fly around her

I love to touch her

I like to dance with her.....

I want to fly around her

like a little butterfly.....

My Friends

I have a friend,

He guides me everywhere

He is my best companion

He is my guide

When I am in trouble,

I feel his presence

He look after me very cautiously

I bow my head in the prayer time

*Would you like to know who my
friend is?.....*

He is the 'Almighty'

He is my friend

forever and ever.....

MOTHER

Remember the day you first

saw me

you felt so blessed, you felt so
happy

Remember the pain you went
through

You let me see the new sun
shine.

You let me feel the world

You bring me up: you taught me
well

And still care so well.

Still I fight, still I quarrel

But oh! my mother dear, I Love
you;

still you scold, still you shout

And still I know, you love me so well.

Internet Today

The internet is the social economic

and political tool of the new age. In its young age it far surpasses the importance of other forms of communication such as the newspaper. The internet is the invention of modern and high technology science. It provides us amazing facility of searching any information from any corner of the world by anyone. It is a vast storage of information as it has more than billions of running websites related to the domestic, business academic, government, etc.

The internet has forever changed the world in both positive and negative ways.

Many positive results have come from the invention of the internet. One positive that has resulted from the internet is the fact that you are always able to access research information anytime of the day or night. The internet has every kind of information that you could possibly want there is everything from how-to's to high level medical research information. Not everything that has resulted from the internet has been positive, some negative things have also come along with it. One of the worst results from the internet is inappropriate content such as pornography is available to anyone including young children. Another negative effect of the internet is that false information can also be found, which can lead to lots of confusion.

Today internet is a part of our daily life and we must learn to avoid the negatives. So we can enjoy the positives to their optimum.

Rose

Oh! Beautiful rose
How sweet is your smell
With a lovely pleasant smile
You look like a queen
what a shiny colour is yours.
I love to touch you
When I see you, my mind become

cool

I wish that, you stay
for a long time.....

IMPORTANCE OF READING

A child's reading skills are important to their success in school as they will allow them to access the breadth of the curriculum and improve their communication and language skills. In addition, reading can be a fun and imaginative time for children, which opens doors to all kinds of new worlds for them.

As part of our curriculum review at NAISAK, we have identified 'reading' as a key area for development and will be included in the school's strategic development plan. With a busy timetable, teachers currently do not have enough time to listen to their children read as much as they would like to. That said, from today we have made some adjustments to the start of the day with the registration period being extended to 20 minutes, with a slightly shorter first lesson. This will allow students from across the Primary Stage to all start their day reading to either their teacher, learning support assistant, buddy or on their own. Additionally, all Primary teachers, including the Leadership Team, have new reading timetables allowing them to listen to individual readers who have been identified as needing extra support for a number of hours per week. We are hopeful that the changes made to both the students and teachers' timetables will prove impactful and will help to accelerate reading progress across the Primary School. We will continue to update you over the coming term with further reading initiatives.

VALUE OF TIME

To realize the of ONE YEAR ask a student who lost a grade
To realize the value of ONE MONTH ask a mother who gave birth to premature baby.
To realize the value of ONE WEEK ask the friend who are wait to meet.
To realize the value of ONE MINUTE ask the person who missed the train.
To realize the value of ONE SECOND ask person who just avoided accident.
Treasure every moment that you have

COMPUTER

JOKES

1. What do the spider do on the computer?

Made a website

2. What does a baby computer call his father?

Data

3. what did the computer do at lunch time?

Had a byte

4. why was the computer cold?

It left it's windows open!

5. where do all the cool mice live?

In their mouse pads

6. What do you do when you cross a computer with an elephant?

Lots of memory

CHARLES BABBAGE

Charles Babbage was an English mathematician, philosopher and inventor born on December 26, 1791, in London, England. Often called "The Father of Computing," Babbage detailed plans for mechanical Calculating Engines, Difference Engines, and Analytical Engines. Babbage died on October 18, 1871, in London.

Occupation: Mathematician

Birth Date: December 26, 1791

Death Date: October 18, 1871

* HOW DID THE CHARLES BABBAGE INVENT COMPUTER

The idea of mechanically calculating mathematical tables first came to Babbage in 1812 or 1813. Later he made a small calculator that could perform certain mathematical computations to eight decimals. ... During the mid-1830s Babbage developed plans for the Analytical Engine, the forerunner of the modern digital computer.

*WHAT IS BABBAGE PRINCIPLE

He also was accomplished in maths and economics, and he described what is now called the Babbage principle, which focuses on the advantages of the division of labor.

*CONTRIBUTION

He contributed to many different scientific fields but his most famous work is designing a programmable computing device. Charles Babbage is considered the "father of the computer" and is given credit for devising the first ever mechanical computer. His design served as the blue print for other, more complex machine

*QUOTES

"At each increase of knowledge, as well as on the contrivance of every new tool, human labour becomes abridged."

"The public character of every public servant is legitimate subject of discussion, and his fitness or unfitness for office may be fairly canvassed by any person."

Importance of Communication in an Organization

Effective Communication is significant for managers in the organizations so as to perform the basic functions of management, i.e., Planning, Organizing, Leading and Controlling.

Communication helps managers to perform their jobs and responsibilities. Communication serves as a foundation for planning. All the essential information must be communicated to the managers who in-turn must communicate the plans so as to implement them. Organizing also requires effective communication with others about their job task. Similarly leaders as managers must communicate effectively with their subordinates so as to achieve the team goals. Controlling is not possible without written and oral communication.

Managers devote a great part of their time in communication. They generally devote approximately 6 hours per day in communicating. They spend great time on face to face or telephonic communication with their superiors, subordinates, colleagues, customers or suppliers. Managers also use Written Communication in form of letters, reports or memos wherever oral communication is not feasible.

Thus, we can say that “**effective communication is a building block of successful organizations**”. In other words, communication acts as organizational blood.

The importance of communication in an organization can be summarized as follows:

1. Communication **promotes motivation** by informing and clarifying the employees about the task to be done, the manner they are performing the task, and how to improve their performance if it is not up to the mark.
2. Communication is a **source of information** to the organizational members for decision-making process as it helps identifying and assessing alternative course of actions.
3. Communication also plays a crucial role in **altering individual's attitudes**, i.e., a well informed individual will have better attitude than a less-informed individual. Organizational magazines, journals, meetings and various other forms of oral and written communication help in moulding employee's attitudes.
4. Communication also **helps in socializing**. In today's life the only presence of another individual fosters communication. It is also said that one cannot survive without communication.
5. As discussed earlier, communication also assists in **controlling process**. It helps controlling organizational member's behaviour in various ways. There are various levels of hierarchy and certain principles and guidelines that employees must follow in an organization. They must comply with organizational policies, perform their job role efficiently and communicate any work problem and grievance to their superiors. Thus, communication helps in controlling function of management.

Advantages and disadvantages of using Internet.

Nowadays almost everyone in the world have had a contact with computers. A great part of them has been using international computer's net known as Internet.

I think using internet has more advantages then disadvantages. First of all, Internet provides access to a lot of information. Some of them are very useful in your job other helps in your hobby. Searching the net with Google, you can find everything you want. You can also do shopping using Internet. Of course it has no sense to buying a roll, but if you need something inaccessible, you will be able to buy it in Internet shop. You need only to select what you want, fill in some forms and click ok. In a few days you will get what you have ordered directly to your home, without going anywhere. You can pay with your credit card, pay postman when you get the package, or transfer money from your bank account.

Nowadays almost every bigger bank offers transferring money with Internet. It is more faster then going to the bank and filling blankets. Transferring money in traditional way takes about a day, using Internet you can do this in few seconds even in Saturday and Sunday evenings. What's more internet banks give you insurance against unauthorized transaction. Some people thinks that their money can by easily stolen by hackers. It isn't true because the easiest way to steal your money from internet bank is breaking to your house and stealing you card of codes. Internet banks have very good protections witch make them practically unbreakable.

Next advantage of internet is email. Internet mails get in a few seconds in their destinations. It is very important when you want to send something for example to Australia. Of course you can send not only texts. You can email whatever you want, movies, photos, songs, computer programs etc. Costs are very important advantage of emails. Sending an email is much cheaper then phoning, or sending normal letters.

Beside a lot of advantages, Internet has some disadvantages too. First of disadvantages is that people who spend too much time sitting in the front of computer can easily gets ill. Radiation emitted by computer's screen is harmful to eyes. People who spend too much time at their homes (because they needn't go anywhere, they can do everything using Internet) are getting weaker. Sitting a for long time is also harmful to the spine. Second disadvantage is that Internet can by addictive. Some people just can't live without it. They have no real friends and when Internet is down they are getting furious.

Internet has some opponents but more and more people treats Internet like telephone, or radio. They use it for fun and work, and I think at present living without internet would be quite difficult.

Nanotechnology

Nanotechnology is the science that deal with devices and machines with very small size. It work differently in different of natural science and fiction. With the advent of nano technology scientist in the world focused as small as possible. Nanotechnology is shortened as nanotech is the study of controlling of matter on a atomic and molecular scale.

It has great influence in literature also because it is the only science that helps to develop a better understanding of the contemporary world of extraordinary and intelligent machines. Scientist are trying to develop relations between different components from different disciplines to see the reaction when combined. Many natural disasters can be protected in time only because of nanotech devices.

When used in robotics, the name nanotech has launched the nano robotics. Nanotech robots functions in its installation that can detect an object 09/10 nanometer at the same level of resolution and be manipulated like season.
