ആമുഖം

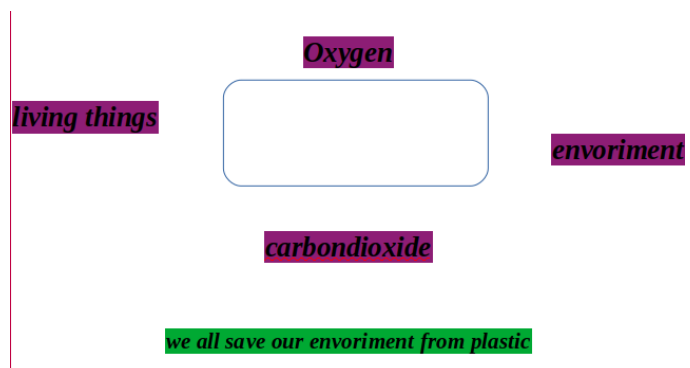

ലോകം ഇന്ന് ഡിജിറ്റൽ യുഗത്തിലാണ് ജീവിക്കുന്നത്. സാങ്കേതിക വിദ്യയോടുള്ള പുതുതലമുറയുടെ ആഭിമുഖ്യം ഗുണപരമായും സർഗാത്മകമായും പ്രയോജനപ്പെടുത്തുന്നതിനായാണ് ലിറ്ററിൽകൈറ്റ്സ് എന്ന കുട്ടികളുടെ ഐ.റി കൂട്ടായ്മ. കുട്ടികളിലെ സർഗ്ഗവാസനകൾക്ക് പുത്തനണർവ് നൽകാനായി ലിറ്ററിൽകൈറ്റ്സ് രൂപം നൽകിയ 'ചങ്ങായി' എന്ന മാഗസിൻ സവിനയം നിങ്ങളുടെ അംഗീകാരത്തിനായി സമർപ്പിക്കുന്നു. ഈ സംരംഭത്തിൽ ഞങ്ങളോടൊപ്പം ചേർന്ന് പ്രവർത്തിച്ച എല്ലാവരോടുമുള്ള അകമഴിഞ്ഞ നന്ദി രേഖപ്പെടുത്തുന്നു.

Environment and plastic

The environment is made by god. In the environment there is plants, trees, animals and living things and non living things.

Example of environment living things the are always moving like things human, animals non living things non moving things like tree, soil water. The main source of environment pollution is plastic . Plastic don't mix with soil . The plastic colour also go and there we can see the plastic soil also disappeared we can't use the soil. The soil manure will be lost. The envoriment also disappeared. The soil have many manure the manure all will vanish due to plastic.

The envoriment is made up of plant, trees, animals, water and soil the envoriment is made the god the god made the envoriment. The envoriment is wonderful and beautiful. We are living in the envoriment and we should not throw plastic like things in the envoriment . So we don't pollute the envoriment we take any year our envoriment not get any pollution the envoriment. We can get oxygen and the carbon oxide want a buyers and we get oxygen there. We have envoriment example the world envoriment day we all save our envoriment the is envoriment then we can oxygen. Example is give below.

realised
he was
safe near
his mother*

*He was very
scared and was
trembling. He
thought about
that. Dream on
yesterday he
had never seen
any story like
this in his life.
In his Dream he
saw a large*

*black man was attacking his for a
simple reason. He was very
scared and was hiding from the
huge man. The man was following
him unstoppably. The man holds a
big stick in his hand. This think
happen when the boy was playing
can his play ground. He kicks his
football suddenly the man appear
in front of him. And was shouting
at him for broking his window. He
started shouting and beginning
take stick for aside. He was so
scared and he rans. the man
followed him .He ran through the*

streets and the
roads. the man
looks like a
cartoon
character in the
movies. He was
very ugly and
was very
terrifying. His
sound was very
loud like a
speaker. He is
intelligent
because
everything the
hides he friends
him very
quickly. So he
was troubled of
that man. At last
the body
decided to give
up and to say
sorry to the man
he stopped
running and
waited for the

man to came. When the man came
he began to shout at him. The boy
cried and said “sorry”, “I am
really sorry”. “please forgive me
for my mistake”. “I will never do
it again ”. but the ugly man do
not listen what the body was
saying. He starts beating the boy
very hardly. The boy cries very
loudly. When his voice reached to
the villagers. They began to help
the him from resources from from
the man later the boy recognize
that the man was a mental
patient. When the cry becomes
more the man became very angry.
And he again started attacking.
The boy was very scared. At that
time the boy wakeup from his
dreams. At that time he saw his
mother was near at him. That him
he realises it was a dreams. At
him That time he was very happy
because it is just a dream not
reality. He thank god for
everything.

Bidding Goodbye

*The white moon that shines in the
dark,
the free bird that soothes the wind,
the nature and everything in it,
resides in the earth I fit.*

*As the moon cannot shine,
As the bird cannot fly,
without its forever mate,
bidding bye is really a fate.*

*The love that fills your heart
and the love that fills mine too,
never can I leave you apart,
all of me will fade too.*

*But for now,
I have to leave,
Bidding a goodbye though,
I have to leave.
Not making you alone,
my soul resides on you,
But for now, lets bid a bye,
To meet again in the arms of
love!!!*

Bidding

Goodbye

How to say bye to this
world
where I had been held
To miss the air that was
in my breathe.
How, but anyway I am
bidding goodbye.

Though my heart don't
feel the blood.
It's hurting there to my
feelings.
It's hard to stop being
the man.
The man once was an
adventurer.
Although It's good to go.

Solo from the world filled

with nature in vain and people
with mind polluted by cruelty.

I shall truly miss the beating.
Of the heart and the air within.
Leaving this world to the after.
Is more than hurting.

My depart may bring tears to my family.
I shall really leave here only then
when they are never left there.
To remember my name.

The real thing that bring vain
is nature, I explored, The wind that embrace.
My love, the mountains that gave mesmerising
view.

Still it might be good for me to leave.

Lost to the hell of
emotions.
I should leave here not
physically.
But the soul that was
there within.
To this earth I
bidding good bye.

WHEN HE WOKE UP....

One Saturday he woke
up early morning. He
woke up reason is there
is no schools. The day
was raining so he
become bored. He go to
kitchen there mother
was reading news

pepper. He told to mother i am bored. You
draw with new crayon. I am drew hundred

you found that, yes found that mother told to
me that are in house who's help to found. My
grandfather. He told me that all in the house.
The mother i am also happy that found it. This
is a adventures. The grandfather was a gene.
The boy and grandfather find it...

INDIAN CONTRIB UTION TO SPACE TECHNOL OGY

To dream of reaching high to
the sky is not something very easy.

Being succeed about what you
dreamt of requires ultimate hard
work and patience. The world we
know is not what the only world in
universe. SPACE is another empty
space and vast world were many
finds their life goals and passions.
The will to go the vast space and
pick up all the things and
fascinating facts it have got. Space
is really beautiful that from the dark
emptiness of it. We can find another
wonderful WORLD.

PLASTIC AND ENVIRONMENT

Plastic is very bad to our environment. Therefore we have to reduce their use. You know that plastic cannot be disposed at any way. so it is burned several chemical gases spread to the environment which causes may destruction. When we gives hot food to our children please avoid plastic tiff in box and bottles. Because the hot food and water react with plastic it is harmful to our belonging plastic is a main reason for contaminated

water. Which lands to developing mosquito family which causes many diseases like malaria,dengue etc. Leads to destination of population. When u throw plastic plastic to water bodies. It get polluted. We should use paper bags or cloth bags inst of using plastic bag it will keep our environment healthy and safe always their is no method of disposal of plastic in our environment so the destruction is less and production is more

the. When the plastic is burned many chemical substance enter our body through we breath it is harmful to our body and environment there chemical substance may cause may diseases like lung cancer etc. The main problem is we can't breath fresh air. The plastic in the road and sea cause many transportation problems to our environment. Now a days all the individual only use plastic bags which internal and external harmful to our environment use should fight against plastic in order to avoid environmental destruction. A plastic free earth should be our dream. Of using plastic bags are use cloth bags in house and shops. We can use steel tiff ins in schools and houses. Don't throw plastic in roads, water bodies and to other areas. Maximum avoid plastic. Plastic is create with very bad and cheap court things. And it is easy to make plastic. Now a days was abolished several countries. Now a days children also have dreadful diseases which is caused by the use of plastic. They are eating plastic reacted

food. We have to overcome the problem of plastic.

Plastic using destructed in many regions. Avoiding plastic is very tough to us because it had become very routine in all life. Earlies days when plastic was wet invented the people was given very healthy and reach. But after the invention of plastic the environmental become bad and unhealthy. In order to avoid destruction of our environment are have to avoid the use plastic and have to become a good environmentalist. The nature's ours and it is our duty

to protect it". The cover throwing of plastic may cause many natural disasters in our environment.

Happiness Changes Everything

Max was a stubborn, naughty boy coming from a rich family. He always got into trouble and was always disrespected his parents. Max was a popular boy in high school and never cared about his marks. Life was never easy for Max. Being rich and having everything did not satisfy Max.

Max always wanted to

have a good family with his parents

both taking time for him from their jobs and spending weekends with him. His father was a big business man and had rarely come home. His mother was a designer and she travelled places to places. Max from childhood spent his time with maids and never felt the love he needed.

He wanted to spend everything he had just to get attention and love from his parents. He hated his friends because they had happy family which he didn't have. Max turned into cold person and bullied

students in his school. He became a boy which everyone was scared off.

But he was only nice to a person that is his childhood best friend and the only person who made him happy was Jack. Jack was the only person who kept Max from being insane. During vacations, weekend's Jack used to force him to come with him and spend time with him. They used to go to their

favourite place, the waterfall, sometimes to the cafe etc.

Jack knew that Max was a good boy and because of some situations he had to become the person he never wanted to be. Jack knew that forcing was not going to work on Max. So, Jack always gave Max space to solve his problems.

During one of the weekends, Max was just sitting in the living room looking T. V when there was a knock on the door.

Max didn't mind it and just watching T. V. Mary, her maid opened the door and saw Max's parents were at the door. Max being him did not care and just went to his room.

During dinner Max went down to eat the dinner. He saw his parents sitting there. That's when his father spoke 'Max, we

got a call from school saying that you are not concentrating in your studies and you are going to fail'. Max looked at his father, anger was building inside him 'did you just come for talking about this?'. His father spoke 'yes, I had to cut off my meeting to talk to you about this. You know your mother is worried about you'. That's when Max burst out 'Dad, you did not have to come from your job for me. And you never cared about me, you were never there for me when

I wanted to you'. Dad spoke 'we always cared about you and the company is yours after graduate. Max said 'you never cared and I don't care about your business'.

With that Max burst out of the house and not realizing his mistakes he wandered through the street thinking about his life. He did not know where he was going. He wandered looking here and there that's when he did not hear the car horn and bang...

When Max woke he did not know where he was. The wall was white and he heard heart monitor beeping. He had IV connected to his body.

He saw the door creek open and a head popped up. It was non other than Jack, he smiled at him...

INDIAN CONTRIBUTION TO SPACE TECHNOLOGY

India in this 21st century has been mainly involved in space technology. India has contributed its time, investment in the development of space technology.

After the first mission on landing on moon, India got deeply involved in space technology. Building rocket,

shuttles training people to travel in the rocket and planning new missions when first Russia and

America planned to launch rocket to space. India also started planning to launch rockets to space, making India frequently involved in the upliftment of technology.

The recently launched to land on moon was very as well as there was first television telecast all over possibilities to the people to see the moon without going there.

Even though India failed sometimes during launches and lost some people who travelled to space like the first women in India to go to women and will coming back due to the malfunction of in the rocket she died but yet India honoured her and did not let fall down because of one loss.
