Topic: In the end is my beginning

Last Pages of Life, First page of 'Light'.

I am an 'old leaf',
In the new garden.
My life is going to end,
But not yet ended.

One day, my buddies said
about a new world.
That was a mysterious world,
which was unknown to me.

I was scared at first,
So I not searched it yet.
Nobody search a thing,
which is strange to them.

Once I was in a morn walk,
I probably stuck in that world.
The inhabitants look so scary,
but they guided me to some way.

I don't know what's 'my destination',
Though my health was,
dragging me from everything,

even from the life.

After so many travellings,
That scary world become
a world of joy.

And it was the 'world of words'

'Words' taught me something,
Guided the right way, like a
teacher guiding her students
with knowledge and love to straight path.

Now, reading and writing are,
two components of life.
My life is in-complete,
with these components.

At first, these were my enemies,
I hated them,
As I look back, I feel
Sheepish on my activities.

The word 'unknown' was
spelled as 'known' in my life.
I grew up with my
'new tenders.'

My life 'was' a dark room,
filled with jealous.
Now, it is fully filled with
'Bright light of happiness and love'.

I am now able,
Able to save the country
from the terrorist, I am
'The strongest in the universe'.

As the leaves falls,
The days went on.
I am enough to ~~invited~~ invited
to the heaven.

Oh! the scroaching winter,
he is freezing my nervous,
Oh God! please send your
angels to take me.

At last, I was free.
Free from all.
But my soul is busy,
with the work of words.

Life or death !
Light of knowledge in the life
is spread by the word like
fireflies spreading light in darkness.

If you are living,
without knowing words,
It is better to commit
suicide as early..

"My life is over
In the end 'I'
realised the power of word
and began to know it".

This was the biggest and
intelligent decision in my
life.
to step into the world,
which was unknown to me.

Knowing words in early
is better than other.
Life will also teach you.

But it is not equal to knowledge.

At last, I found 'my destination'
It was the pot filled with words
and icons... It was knowledge.
And 'My journey begins here'.....
