

# **ARTIFICIAL INTELLIGENCE**

## **What is AI?**

AI refers to the usage of human intelligence process by machines especially computers and other gadgets. Problem solving and Decision making are the two major role of AI.

## **The major companies making AI**

- OPEN AI
- IBM
- SALES FORCE
- TECH GIANTS
- STANFORD AI

## **Importance of AI**

- AI can perform complex tasks faster and more accurately than humans.
- Analyze large amount of data and make predictions.
- Address global challenges like climate changes, disease outbreaks and food security.
- In low populated states AI is a blessing Eg: Canada, Ausralia, USA and European countries

## **Major Job sectors using AI**

- ◆ Agriculture
- ◆ Big hotels
- ◆ Household duties
- ◆ Industries
- ◆ last but not the least TEACHERS

**N.B. If we the teacher community hesitate to update ourselves we will be thrown out or vanished from our job in forthcoming years.**

**So remember one thing**

**We can conquire the new oceans only if we lose the sight of the sea shore.**
