

The line between us

Someone took you away from me

which pulled us apart

from loving each other....

It really pulled us arduously

creating an enormous distance between us...

It was so far,

And the distance between us made you look alike a star,

shining brighter as always...

The distance between us makes me

feel tensed, because

I'm afraid of losing you, 'my lucky charm'

I don't want to leave you

I don't want to leave all the memories we created together

I don't want to leave 'US'

The loneliness

through which I'm going through

is tearing me apart

but, that pain is an ecstatic one

which keep me lost in our memories

'our walk along the riverside'...

Whenever I remember that day

my heart skips one beat

Those memories are always magical

like our love for each other

You are the love of my life

you gave meaning to my life, you mean the whole world to me, And without you nothing makes sense...

Your love had really changed me,

from a beast to a prince.

your love have the power to heal me,

you healed my broken heart with your touch.

you are my sunshine

I thought you are gonna be there
till the end of my life ... but you left me ...
You left me with nothing, but
our love, our magical moments together
and a mini-you ...
But when you left
It hits me harder ... the pain of losing you
made my heart shatter into thousand pieces ...

I thought no one could ever take you
from me ... but I was wrong
I really miss you but our 'mini-you'
reminds me about our love, our passion
and you ...

At late night, when stars shine like a diamond
I point to the brightest star and say, "dear,
that is your mother and that's the line between
us and mother" ...
