## ENGLISH ESSAY WRITING

### THE VISION FOR A NEW INDIA

India, one of the largest nations of the world definitely consist of a variety of cultural diversities. India definitely one of the leading population nations is also home to many social hierarchies. The country is famous for its festivals, cultures, tourism, sports etc. Eventhough it is a vast country it has many dark evils happening in this country. My vision is to transform the people through education, giving them a new positive wing to fly high. I will like bring positive change & a culture that includes all castes. To make our India better every people should join hands.

India consist of a large number of social evils. Social hierarchies are destroying our India. The society treats everyone unequally. After Independence, we thought that social discrimination based on caste, religion, sex, colour were destroyed. But in India, this system exists in small part.

¶

Even though this system is wrong, people are unwilling to ~~deny~~ boycott them. For example :- During the last day, I could see on news channel that a mother <sup>was forced to</sup> ~~had~~ given her daughter into an orphanage. It was a huge issue during last year. Similarly there exists different kind of discriminations. Some are caught and others are just avoided.

In some places, there still exists the old for of 'pujas'. This can be several types. In

Some places people worship god by giving the head of animals or sometimes even humans itself. We know that in TamilNadu, During Durga worship people kill buffalos by cutting their head on this occasion. Several other types of worship are also there.

Nowadays, it has been a major threat that a huge volume of drugs flows into the country. Many teenagers even girls are also falling into it. These drugs become a habit and when it is unavallabe they lost their will to live. This creates huge loss to their family. Students should be given awareness classes in the school to avoid drugs. India should become a drug free nation. let India be free from the evil of drugs.

We should join hands to make India Drug

Free. Drug usage can lead to many physical and mental disorders. I would like the government to strengthen the drug campaign.

India 2023 should be a ~~sex~~ women empowerment year. Women are tomorrow's future not only tomorrow's wives. The thought girls are tomorrow's mother should be changed. They are not only tomorrow's mother they are tomorrow's everything. They should be given complete freedom, education. Men should care for woman. Even

Even though, it is said that India is a women empowerment nation, it still has a large number of gender equality. At home, women are doing everything, men are just sitting simply. Women should be motivated. The male system should be avoided in my Neo India.

(Note: Graded Items may be published in **Schoolwiki**. So write neatly. Don't fold paper. Don't write overleaf)

Most of the just like driving etc are performed by male, women also should be given opportunity to drive. Women should be go opters they should not wait for anybody. Malala Yousaf a famous Feminist once said that, "We are not succeeded, until half of us are chained". Here she shows the cruel gender equait equality of women in the world.

Women should also have equal opportunities. They are tomorrow's future. Let them fly. Proper camaign, education at lower levels, awareness, and good women supporters enlight our womens.

India consist of variety of castes. In many parts of the world there exists caste problems between groups. A major example is the fight that exist between hindus & muslims in the

Country:

This fights of caste groups in the country should be avoided at any cost. Fights in the country can lead to the destruction of the country. Both groups should realise the value of Indian culture and start to love each other. Let harmony wins. India a country where any culture or caste should be bloom free. It is the land of millions.

Our country, still faces huge problem of waste management. Wastes have become part of our life. We are disposing millions of wastes to the earth. Many are degradable and many are non-biodegradable. This non-biodegradable items like plastics have become an indispensable part. Whatever we buy, it contains plastic. For example when we go out we buy water to drink, lays to eat, chocolates etc all this contains plastic covering.

(Note: Graded Items may be published in **Schoolwki**. So write neatly. Don't fold paper. Don't write overleaf)

Item Code: 945

Participant Code: 102

So, it is necessary to make India plastic free. Plastics reduce soil fertility, plastics make decomposition slower. Plastic free India a dream, that is going to win on future.

Our country India, still faces & faced many struggles from the past. It is because of our great national leaders like Mahatma Gandhi, Jawaharlal nehru, Netaji Subash Chandra bose faced many struggles to achieve success for our big country. It is because of their sacrifice we are having safe sleep, or else we will still be labourers to british. It is our responsibility to make our country proud and change the country. Different foreigners have different stories about our country. We should be proud of our culture, democracy etc. Our country's limitation should be corrected by us.

My Vision For a new India is to begin from children. It is not possible to make India perfect or superb within an year, month or a day. Children are tomorrow's future. They should be taught to love, care, respect others. They should be given quality education rather than giving huge loads to study.

Students should be allowed to develop quality. They should learn the value of friendship. Respect elders, have national respect. They should be given freedom and let to have gender equality. Boys should be taught to respect girls and to give them freedom. Girls on the other hand, should have the ability to understand their freedom. Students at their early age should be allowed to learn sex education. They should be given awareness about sex education. They should not allow anyone to mislead or torture them. It should be taught

In the school. School is the steppingstone of a student. It should be very bright for them. Every thing related to national heritage should be taught in the school.

Students should be given freedom. They should be given opportunities for societal visits. Gender inequality should be removed at childhood. Parents should teach children 'They are equal'. This gives them more positivity to work in future. The system of boy & girl sitting at different places <sup>should</sup> ~~can~~ be avoided at school. There should be mixed school system.

India should be a drug free nation, drugs are destroying students. But through education & proper awareness we could change India. A New India should be completely drug free nation. Drug 'Say No to Drug' a famous

102

quote on drug is definitely correct & applicable here. Drugs destroy the whole carrier or life of student. Let India in its new vision be a Drug free nation. Drug free society creates Drug free nation. Community should strictly respond to drug usage.

In the New India, the nation should be positively a women empowerment one. Women should be given equal opportunity & freedom. They should be empowered within the schools its. They should be taught that they have their own abilities, freedom, strength. They why should they believe or go behind ~~of~~ men. They should start break the boundaries of family, have freedom enjoy it. One life with their own dreams and passion. India should completely be a secular, freedom country.

Item Code: 945

Participant Code: 102

Many leaders & famous persons like Thomas Young said that 'You educate a ~~ma~~ boy, you educate a man, You educate a girl, you educate a generation'. Women are definitely the backbone of future generation.

The vision for New India, become uncomplete without going to the economic sector. Money or Finance is the backbone of an economy. No one can live without money. Money is required to buy everything. For the New India, it is definitely required to develop the economic sector.

Economy consist of primary, secondary & Tertiary sector. They are the income of the country & the people. It is necessary to tackle the problems of economic sector. People should be given more opportunities to work.

Item Code:

945

Participant Code:

102

Tertiary sector or the industrial sector should be developed allowing more competition. Government should give financial assistance. This raises the standard of companies. So company expands & the employment opportunity to increase. Helpful in better wages. The vision is to give more industrial opportunity to increase the job opportunity.

It is also necessary to check that these industries are disposing their wastes correctly. Irresponsible waste disposal should be discouraged. India should be a pollution, plastic waste free nation.

The banking, industrial, road, transport, tourism, sectors all should be developed. Allowing more beauty & modern technologies we should change the face of India. Let India be famous for its tourism. Modern technologies should be implemented.

In my opinion, there should be a playground and a library in every locality. Nowadays the reading & playing habit of children are reducing. We shouldn't let them down. Children should read & play. Many famous poets refer reading eg:- A famous poet Kunjuniyash said that if you read you grow or else you grow without knowledge. Reading habit should be developed among students. Let students grow by reading. Government should support readers.

There is still a large number of people who doesn't have basic facilities of housing, <sup>Food,</sup> ~~grow~~ cloth, etc. These people are unaware of modern technology and society. They are still living at history. India can be developed only by promoting this people. The unilliterate people and uneducated uncivilised people should be developed to make India better. The SC or ST people

(Note: Graded Items may be published in **Schoolwiki**. So write neatly. Don't fold paper. Don't write overleaf)

Item Code: 945

Participant Code: 102

are best examples. It is necessary to give full literacy to them. At present we are showing a positive literacy rate but it should be developed.

It is necessary for India to have a new vision because India is a nation acquired through long struggles. 'Education' at the most can reform the country into a new nation. Thus "Education is the stepping stone of a nation". Therefore it is necessary for us to say education bring changes to the country fully.

The new vision also deals with health. As we all know that how our health system work during the covid epidemic. Covid destroyed everything. But our health system worked properly to avoid the deaths that other countries faced. It is necessary to give proper nutrition to students & mothers. The country is having good health system.

with Panch Health Centres, it should be developed in the rural areas too.

Let me conclude that, India should have a new vision on social, cultural and economic aspects. The new vision brings India forward in every things. The new vision is based on education. Education turns India and brings a new phase to the nation. Spreading love, care, Secularism, Fraternity etc <sup>are</sup> ~~are~~ the new basis of a new nation. The vision should be deeply spread. Everyone should have the spirit of new beginning.

India, the mighty nation is home to many people. Let India be free of Drugs, inequality etc. New trends & tendencies should be introduced in India. Let everything ends well. We should be adaptable to changes. "Education changes the world" is proved here. The <sup>Youth</sup> ~~Youth~~ may have bigger dreams.
