

DREAM STREAM  
FLY FORWARD

GVHSS KOTTUKAL

# ***DREAM STREAM***

ഏതൊരു വ്യക്തിയുടെയും ജീവിതത്തിൽ മറക്കാനാവാത്ത ഒരോരാണ് വിദ്യാഭ്യാസ കാലയളവ്. ഈ കാലയളവിൽ അവർ സ്വപ്നം കാണാൻ പഠിക്കുന്നു. തുടർന്ന് ആ സ്വപ്നത്തിലേക്ക് പറന്ന് എത്താനുള്ള പ്രയത്നത്തിലേർപ്പെടുന്നു.

വിദ്യാർത്ഥികളുടെ സ്മനങ്ങൾ ***DREAM STREAM 2019-2020*** ലൂടെ ഞങ്ങൾ അവതരിപ്പിക്കുന്നു.

ഈ സംരംഭത്തിന്റെ സാക്ഷാത്കാരത്തിനായി ആത്മാർത്ഥമായി സഹകരിച്ച ഒരോർത്തർക്കും ഹൃദയത്തിന്റെ ഭാഷയിൽ നന്ദി രേഖപ്പെടുത്തുന്നു.

# HEAD MASTER

നമ്മുടെ സ്കൂളിൽ നിന്നും *DREAM STREAM* എന്ന ഒരു ഡിജിറ്റൽ മാഗസിൻ തയ്യാറായിരിക്കുന്നു. വിദ്യാർത്ഥികളുടെ സ്വപ്നങ്ങൾ പൂവണിയുന്ന ഈ മാഗസിൻ എന്നെന്നും ഓർമ്മയിൽ സൂക്ഷിക്കട്ടെ...

# L I F E O F T R E E

*The root is to be pulled out  
Out of the anchoring earth;  
It is to be roped, tied,  
And pulled out-snapped out  
Or pulled out entirely,  
Out from the earth-cave,  
And the strength of the tree exposed*

*The source, white and wet,  
The most sensitive, hidden  
For years inside the earth.  
Then the matter  
Of scorching and choking  
In sun and air,  
Browning, hardening,  
Twisting, withering,  
And then it is done*

**VISHNU ANILKUM**

## A prayer in spring

*oh, give us pleasure in the flower to-day;  
and give us not to think so far away  
as the uncertain harvest; keep us here  
all simply in the springing of the year.*

*Oh, give us pleasure in the orchard white,  
like nothing else by day, like ghosts by night;  
and make us happy in the happy bees,  
the swarm dilating round the perfect trees.*

*And make us happy in the darting birds,  
that suddenly above the bees is heard,  
the meteor that thrusts in with needle bill,  
and off a blossom in mid air stands still.*

*For this is love and nothing else is love ,  
the which it is reserved for god above  
to sanctify to what far ends he will ,  
but which it only needs that we fulfil*

# ***THE RIVER FLOWS***

## **ALONG FOR EVER**

***Dark brown is the river***

***Golden is the sand***

***It flows along for ever***

***With trees on either hand***

***Green leaves a-floating***

***Castles of the foam***

***Boats of mine a boating***

***When will all come home***

***On goes the river***

***And out past the mill***

***Away down the valley***

***Away down the hill***

# NATURE

We have neither Summer nor Winter  
Neither Autumn nor spring.

We have instead the days  
When gold sun shines on the lush green canefield-  
Magnificently.

The days when rain beats like bullets on the roofs  
And there is no sound but the swish of water in the gullies  
And trees struggling in the high Jamaica winds.

Also there are the days when leaves fade from off  
guango trees

And the reaped canefield lie bare and fallow to the sun.

But best of all there are the days when the mango and  
the logwood blossom

When the bushes are full of the sound of bees and the scent of  
honey,

When the tall grass sways and shivers to the slightest  
breath of air,

When the buttercups have paved the earth with yellow  
stars

And beauty comes suddenly and the rain have gone.

# THE RIVER FLOWS ALONG FOR EVER

Dark brown is the river  
Golden is the sand  
It flows along for ever  
With trees on either hand  
Green leaves a-floating  
Castles of the foam  
Boats of mine a boating  
When will all come home  
On goes the river  
And out past the mill  
Away down the valley  
Away down the hill

## WHY DID NEHRU NAMED HIS GRANDSON "RAJIV"

I was talking to the vice president Dr. Shankar Dayal Sharma. He asked me, "Do you think how Rajiv Gandhi was given his name?" I said "Some astrologer would have suggested it." Dr. Sharma said, no there is a story behind it. Nehru loved his wife Kamala very much. She was a girl from Delhi. He was grief-stricken when she died after a long illness.

Dr. Sharma paused for some time and queried, Do you know how he kept his memory alive? I looked at him expectantly. He said Nehru used to keep a small box in his pocket. In it, on one side there was a photography of his wife and on the other side that of his mother. Whenever he missed them he opened the box to have a glimpse of them. In his will Nehru had mentioned that after his death the box should be immersed in the river along with his ashes. Accordingly the box was immersed in the river.

Nehru took a vow after Kamala's death that he would never marry again.

When a son was born to Indira Gandhi, he decided to name him after

his wife Kamala and named him “Rajiv” which is a synonym of Kamal .i. e

lotus. Indira Gandhi understood that her father had named her son after her

mother. She wanted to name her son after her father. So she added ‘Ratna’

after Rajiv which is a synonym of Jawahar i.e. a gem.

So Indira Gandhi’s first son was named Rajiv Ratna.

***SREEDEV M S***

# JUST A MINUTE

“Madam,” said the restaurant manager sternly to the customer, “for the last three days, you have been observed taking away spoons while leaving after your meal. Do you have any explanation?”

“Well,” said the customer, “it’s like this. I have been prescribed a new medicine and the label on bottle says,  
“Take two spoons daily after meals.”

On the day of the last class, the teacher said solemnly, “Today we have concluded our final revisions. Your exam questions papers have been sent for printing. You now have just a week to review your lessons. Any questions ?”

A boy stood up and asked, “Who is the printer?”

**PREETHU**

## Fair Detail to Sanitary Works

During the freedom movement Jawaharlal Nehru had worked closely with people from all walks of life. He was familiar with their problems and sought remedies for them. He could not bear anyone, suffering and was always on the look out to help all those who worked with or under him. In the process he had no time to ponder over his personal happiness or unhappiness.

After he became Prime Minister, inspite of being busy with his official work, his concern for his employees never took back seat. After he shifted to Teenmurti Bhawan, he treated all of them as members of his family. He saw to it that everyone was well looked after.

On reaching the office, he issued instructions to all the state governments to provide to sweeping bending down. Only a kind, human and considerate person like Jawaharlal Nehru would take cognizance of what appears to other VIPs a small trivial matter as that of brooms for sweepers.

# Raspberry pi

Raspberry pi is a credit card sized computer. The facilities that are available in a normal computer are also available in it. But this consumes only very low electricity. This computer is designed mainly for educational purposes. But various computer programs can be prepared with the help of this computer. Using these kinds of programs, this computer has facilities to control external equipment also

## THE ATTITUDE IS EVERYTHING

There once was a woman who woke up one morning, looked in the mirror and noticed she had only three hairs on her head .

Well she said 'I think I will braid my hair today.

'So she did and she had a wonderful day.

The next day she woke up looked in the mirror and saw that she had only two hairs on her head.

“Hmm” she said “I think I will part my hair down the middle today’. So she did and she had a grand day .

The next day she woke up looked in the mirror and noticed that she had only hair on her head.

“Well she said today i am going to wear my hair in a ponytail .'So she did and she had a fun day

The next day she woke up looked in the mirror and noticed that there was not a single hair on her head .

Yeah, She exclaimed “I do not have to fix my hair today.

The attitude is everything

# True Friends

The teacher told the children about the fancy dress function to be held on Friday.

The plan was such that all the students would come to school on the day in fancy dresses. There will be a fancy dresses parade at ten in the morning. Nobody should be late.

The children were very excited. They had Saturday and Sunday to prepare for the fancy dress function. One child decided to dress as gandhiji, another as a farmer , another as a monkey.

Monday morning , the children hurried to get into the bus. Vishnu and Adarsh were a good friends. They were first to get into the bus. saran was a police officer he was dressed the uniform of a police officer and Adarsh as a dead soul he was dressed a white.

The children got down from bus , one by one. Saran and adarsh were the last to get down . adarsh fell down from the bus his dress got stain . adarsh began to cry

“Don't Worry , adarsh. We'll do something”, saran said kindly and lifted adarsh up. Together they went to the teacher . Adarsh was still sobbing . Teacher quickly called adarsh's mother on phone .

She came to take adarsh home.

“ saran you go the parade . I'll take adarsh to home”, said adarsh mother. Saran took her head.

“we are always together . I will not go for parade without adarsh” he said and went with adarsh to his home . Adarsh and saran dressed them both with school uniform.

“you can go for parade as school girls . Nobody would have thought of that as fancy dress,” he said . The boys and girls laughed. Mother dropped at the school.

The fancy dress parade was over . But the HM called saran and adarsh on the stage  
praised them for the good friends and their school uniform as fancy dress

## Killing trees

It takes much time to kill a tree,  
Not a simple jab of the knife  
Will do it. It has grown  
Slowly consuming the earth,  
Rising out of it, feeding  
Upon its crust, absorbing  
Years of sunlight, air, water,  
And out of its leperous hide  
Sprouting leaves.  
So hack and chop  
But this alone wont do it  
Not so much pain will do it  
The bleeding bark will heal  
And from close the ground  
will rise curled green twings  
miniature boughs  
which if unchecked will expand again  
To former size.

**ABHIJITH S**

# OUR ENVIRONMENT

Human beings and other living organisms live on the Earth. Land, water and air together with all the living organisms like plants and animals make up our environment.

An environment includes all the living and non-living things with which an organism may interact with. The term environment comes from the French word 'environner' which means 'to surround'.

Our environment is made up of different components. These components can be classified into two broad categories - natural environment and human-made environment.

## Natural environment

All gifts of nature such as land, water, air, plant and animals form a part of the natural environment. It includes the abiotic and biotic components. Abiotic components consist of the non-living things like land, water, air, rocks etc., while the biotic components consist of plants and animals which are living.

## Human-made environment

It is formed by human beings and their creations such as roads, bridges, houses etc. And the social, economic, political and other conditions in which they live. Human environment is greatly influenced by the natural environment. This influence decides the lifestyle, occupation, dress, food habits and nature of habitats of human beings.

Now, a perfect balance between the natural and human environment is a need of the hour. We should understand that human race cannot

survive if we do not live in harmony with nature and if the balance in nature is not maintained.

# NEHRU'S DAILY ROUTINE

Greatmen put every minute of their time to good use. That is the secret of their success. This is borne out by looking at the daily routine of Jawaharlal Nehru.

In order to have a maximum time at his disposal, Jawaharlal Nehru used to get up at 4 o'clock in morning. Even if he had gone to bed at 12 o'clock at night he would not stay in bed after 4 a.m. In case he had gone to sleep in the early hours of the morning due to heavy work' he would get up by 7 o'clock latest. He would then light one cigarette and go to the toilet carrying with him a number of newspapers. During this time he finished reading all the newspapers. After coming out of the toilet ' he

did *yoga* exercise viz. Sirshasam and Yogasan, the former helped his memory and blood circulation. Exactly at 9.30 a.m. Nehru arrived on the Teenmurti Bhavan lawn to meet the commonmen. He listened to their complaints and also suggestions and passed on those to the concerned authorities.

**ABHINANDHU**

# Nehru and Govind Ballabh Pant

The days immediately after the Independence were in many ways better than the days now. It was a democratic society in real sense .There was no security problems, no formalities and no protocols. Any minister who wanted to see the prime minister house and see him .there was no need for them to seek prior appointment. Similarly jawaherlal nehru too did not observe any protocol while dealing with his ministers as they were comrades in freedom struggle. He would either talk to them on the phone or call on them at their at residences.

Nehru liked all his ministers and always did his best to help them but pandit pant was very special to him .He called him as son of mountains. He was nehru close companion during the freedom struggle. The british had resorted to lathi charge to disperse the demonstration organized by the congress to boycott the simon commission. In order to save jawaherlal nehru,G B pant took thelathi blows on himself and suffered a life long disability.Such was his affection for nehru.

# WHAT IS HEALTHY EATING?

Consuming varied, balanced, and nutritionally adequate meals and snacks, is a healthy eating habit. Healthy eating involves the ability to eat everything-in moderation, and in keeping with the needs of the body. Allowing yourself to follow your natural appetite and enjoying what you eat, is healthy eating.

- 20, Java programming language

# MICROPROCESSOR

The Microprocessor is also known as the Central processing unit (CPU) of a computer. All referred to as the brain of the computer and sometimes compared to the human brain.

A **microprocessor** is a computer processor that incorporates the functions of a central processing unit on a single integrated circuit (IC), or sometimes up to 8 integrated circuits. The microprocessor is a multi-purpose, clock driven, register based, digital integrated circuit that accepts binary data as input, processes it according to instruction stored in its memory and provides results (also in binary form) as output. Microprocessors contain both combination logic and sequins\_digital logic. Microprocessors operate on numbers and symbols represented in the binary number system.

The integration of a whole CPU onto a single or a few integrated circuits greatly reduced the cost of processing power. Integrated circuit processors are produced in large numbers by highly automated metal oxides semiconductor (MOS) fabrication processes, resulting in a low unit price. Single-chip processors increase reliability because there are many fewer electrical connections that could fail. As microprocessor designs improve, the cost of manufacturing a chip (with smaller components built

on a semiconductor chip the same size) generally stays the same according to Rock law.

Before microprocessors, small computers had been built using racks of circuit boards with many medium- and [small-scale integrated circuits](#). Microprocessors combined this into one or a few Large-scale ICs. Continued increases in microprocessor capacity have since rendered other forms of computers almost completely obsolete (see [history of computing hardware](#)), with one or more microprocessors used in everything from the smallest [embedded systems](#) and [handheld devices](#) to the largest [mainframes](#) and [supercomputers](#).

## ശരണാലയം

സ്നേഹമാം അമൃതൂട്ടി വളർത്തിടുമമ്മയെ,  
എന്തുകൊണ്ടുപേക്ഷിക്കുന്നു മാനവരിവിടെ?

പിഞ്ചിളം ചുണ്ടിൽ നിറയുന്നൊരാ,  
രണ്ടക്ഷരമായിരുന്നിട്ടും എന്തുകൊണ്ടു  
നഷ്ടപ്പെടുന്നിതിൻ മാഹാത്മ്യം?  
തൻ കഷ്ടതകൾ വിസ്മരിച്ചു കൊണ്ട്  
മക്കളെപ്പോറ്റിടുമമ്മയ്ക്ക് എന്തേ  
വന്നുചേർന്നീടുന്നീ ദുരവസ്ഥ!

വൈദ്യുതിയില്ലാത്ത,റോഡില്ലാത്ത  
ഒരു കാലമുണ്ടായിരുന്നീ ഊഴിയിൽ  
അക്കാലത്തു പോലും സമയമുണ്ടായിരുന്നു  
മാനവനു മാതാവിനെ പരിചരിക്കാൻ.  
റോഡുകളുണ്ടായിട്ടും വൈദ്യുതിയുണ്ടായിട്ടും  
സമയമില്ലെന്നു പോൽ മാനവനു  
അമ്മയെ പരിചരിച്ചിടുവാൻ.

മക്കൾ തൻ ജീവിതത്തിൽ വന്നെ-  
ത്തിട്ടും കഷ്ടതകളെ തൂമഞ്ഞിൻ  
കുളിരോടെ തടഞ്ഞിടുമമ്മയ്ക്ക്  
എന്തുകൊണ്ടുപേക്ഷിക്കുന്നു മക്കൾ?  
സൂര്യതാപം പോലെത്തിട്ടും

താതന്റെ കോപത്തെ ചന്ദ്രാഭയാൽ  
തടഞ്ഞിടുമമ്മ.  
എന്നിടുമെന്നേ വന്നുചേർന്നിടുന്നു  
വാർധക്യത്തിനിടനാഴികളിൽ  
അമ്മമാർക്കീ ദുർഗതി?

ഗൗരി ജെ. എസ്

ഉത്തരധ്രുവത്തിൽ നിന്ന് ദക്ഷിണധ്രുവത്തിലേക്കും അവിടെ നിന്ന് തിരിച്ചും വർഷം തോറും പോയി വരുന്ന സഞ്ചാരപ്രിയൻ.

## മൊണാർക്ക് ശലഭം

ദേശാന്തരഗമനത്തിനായി ജീവിതം ഉഴിഞ്ഞ് വെച്ചിരിക്കുന്ന അൽപ്പായുസായ മനോഹരശലഭം.

## ഹംബ് ബാക്ക് തിമിംഗലം

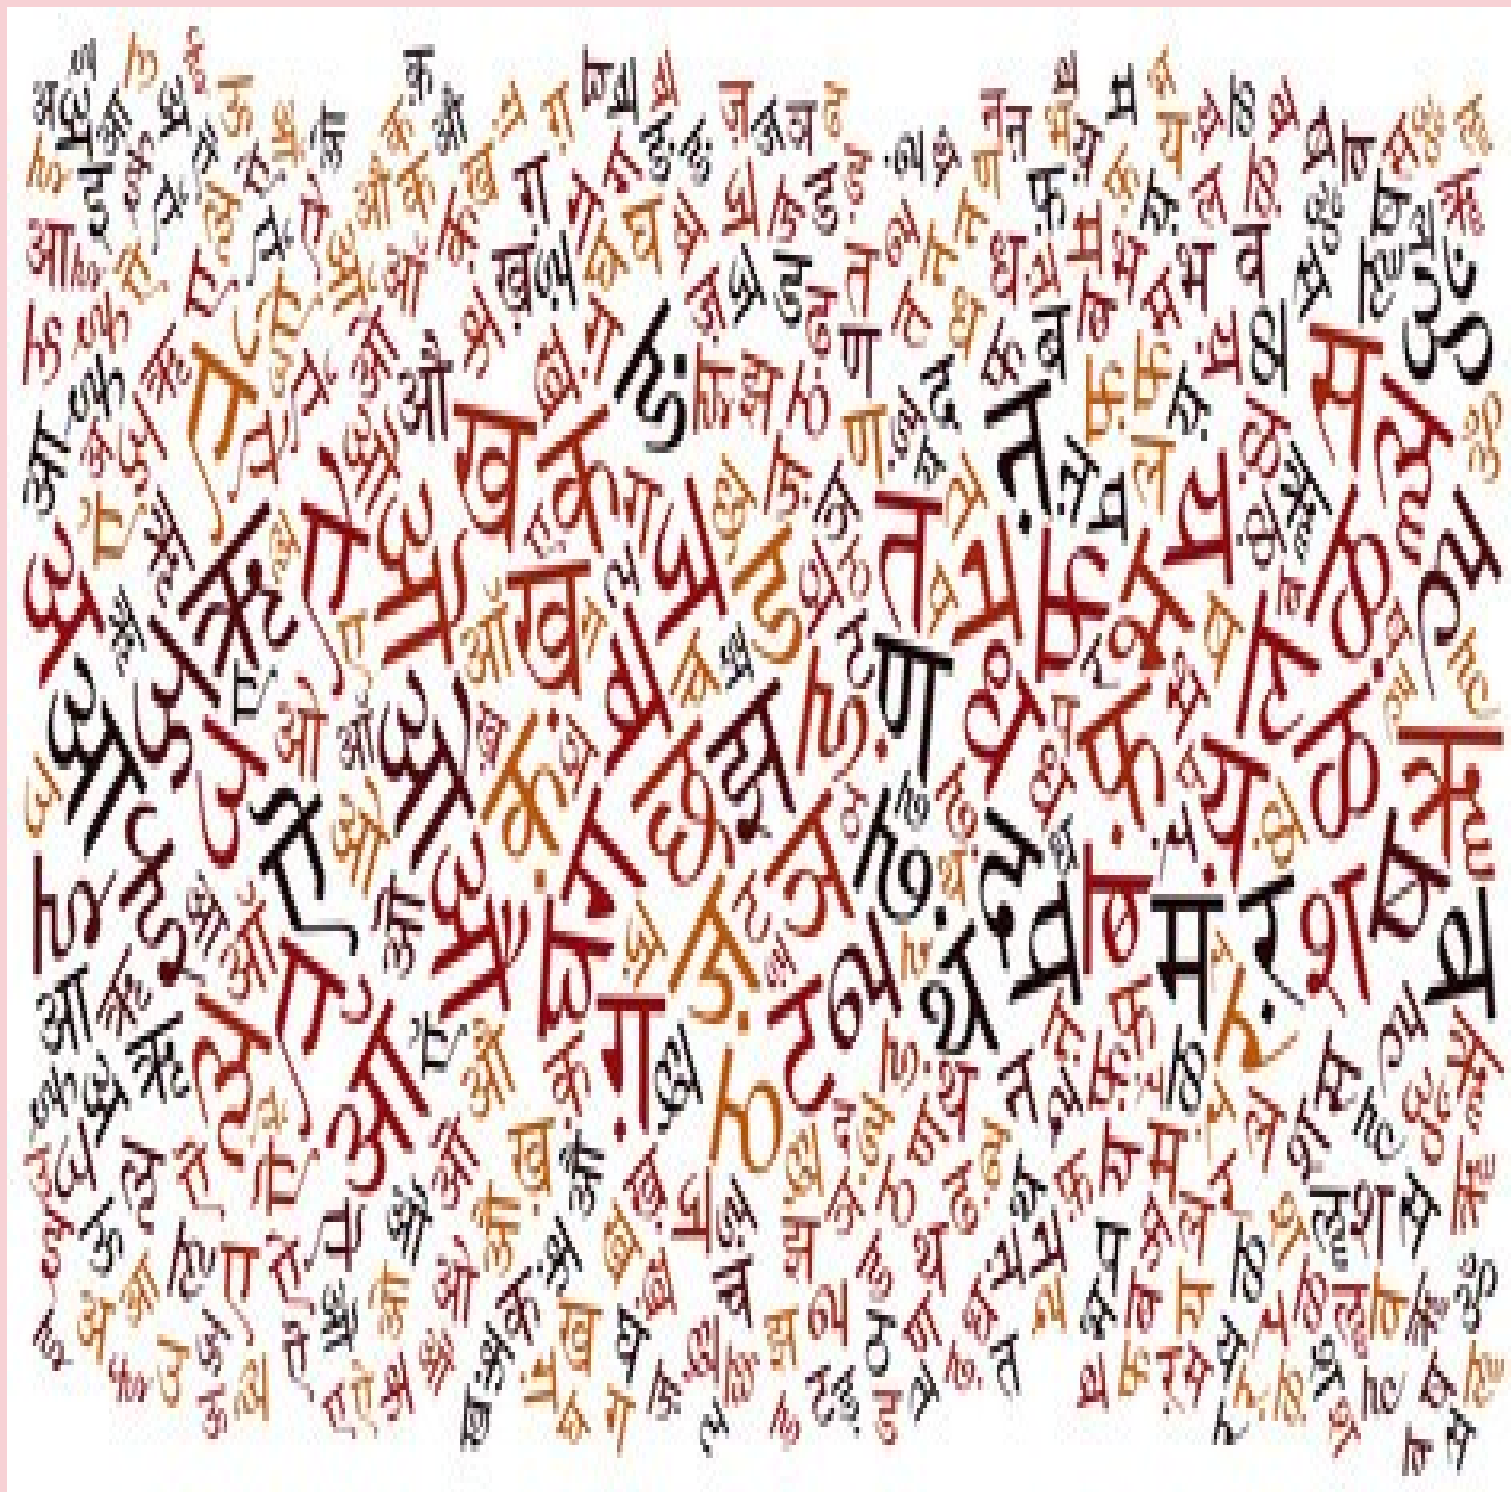

ഭക്ഷണത്തിനും പ്രജനത്തിനും വേണ്ടി 5000 കിലോമീറ്റർ വരെ സ്ഥിരമായി സഞ്ചരിക്കുന്ന പട്ടകൂറൻ സസ്തനി.

## പാരമിസിയം

ജലത്തിലൂടെ മൂന്നോട്ടു നീങ്ങാൻ പാരമിസിയത്തെ സഹായിക്കുന്നതിന് സീലിയകളാണ്.

## യുഗ്ലീന

യുഗ്ലീനയുടെ സഞ്ചാരത്തിന് സഹായിക്കുന്നത് ഫ്ളജെല്ലം ആണ്.

# प्रकृति

इस प्रकृति है हमारी माता,  
 हमें करना है इसकी पूजा.  
 सदा करता रहता है यह,  
 हम सबकी रक्षा.  
 यहाँ के सभी चराचर  
 हमें सिखाता है,  
 परोपकार का पुण्य.  
 यहाँ की कलियाँ  
 हमें सिखाता है मुस्काना.  
 यहाँ के खेतों में खिलनेवाली  
 मोती का-सा दाना,  
 देता है हमारे नयनों को,  
 सुख का ठंडा-सा अनुभव.  
 यहाँ की चिड़ियाँ हमें देता है,  
 हमारे कानों को  
 खुशी की सुन्दर बरसात.  
 वंदन करना है हमें  
 सदा इस प्रकृति का और  
 इसकी सृष्टी करनेवाला  
 ईश्वर का भी.

# हमारा भारत देश

भारत सब से प्यारा देश  
 सब से न्यारा देश हमारा  
 नील गगन के नीचे सुनदर  
 धरती चारों ओर हरियाली  
 ऊंचे-ऊंचे हिमशिखरों से  
 बहति शितल जल की धारा  
 नदियों सागर में मिल जाते  
 भारत सब से प्य देश  
 सब से न्ययारा देश हमारा

## सुबह

सूरज सुबह पूरब से निकलता हौ  
तब रौशती फौल जाती हौ  
सूरज शाम को पशिचम सो हूबता है  
तब अधेरा छा जाता है  
चार दिशार्ये हैं  
परब पशिचम उत्तर औरं दक्षिण
