CRIES IN AGONY

in shadows deep, whose echoes sigh
violent cries, & silently reach the sky
with wounds from world, which hurt so deep
in deafening silence of sirens, they did weep

in the incessant rain of bullets and bombs
oh Nay! on the ingenuous lifes it showers
on the little ones, who didn't let go of their wombs
erewhile, the first cry, they werth in white covers

The cool zephyr we yearned to embrace
Nay! alas, we're just eager for solace
in the shoreless ocean of our hopeless strifes
we couldn't find it, the means of our lifes

we're the people who've ~~no~~ no one but lord
the people who can't abide in our own abode!

we ran here and there, we roam
to seek it, an ineffable thing, our home
Quiddity, what's it for us? oh ~~now~~ wait, Nay!
~~But~~ just yet unjust life of ours, who are we?!

our eyes doth see and ears doth hear
little did we know, we were blind and deaf
fie, fie on ^{us} ~~me~~, why are we blind?
humanity, we can't see a thing of a kind

~~they~~ ^{we} eagerly waits for it, an ethereal morrows
when we could leave behind all of the sorrows
in the incessant rain of greed and need
it never bloomed, the lifeless seeds under the sods.

in ~~the~~ ~~too~~ purple robes he sees, the cries in agony
sufferings and sorrows, he hears, the melancholy.

No leaves and streams to embrace the drops
life less bodies & blood all over the loops
Say no more! the buds doth bloom
After the fall, the epoch of gloom.

on the last ray of hope, the night
from withersoever, we found the light
casusical notion linger all o'er my mind
In the scotched lands of my heart, a path unwound.

We've found the ethreal light in our core
we'll never be left in dark anymore
from our lives, we've learned to raise and roar
to glow and lit our goals with glore.

our foot prints ebbs, it faints in the sand of ^{fate} ~~fate~~
but our faith in fate, found the way to right gate.

Fear not! one bright day awaits the darkest nights
Verily, it's the darkest, just before the raise.
We'll roar and raise with our inmost light
Let's navigate our life, reality, for sure we'll face.

Forever more and again never sore
Forever bore and always with glore
We'll live this sojourn to its core
Insanity to sanity, ~~and we'll roar~~ humanity
~~and we'll roar~~. No more cries in agony, we'll roar.
