## Students - The pulse of changes around

From the bulb to the mesmerizing world of Artificial Intelligence, everything that we've gained today, is the aftereffect of various ideas contributed by the mankind. The creativity and thinking skill of individuals helped them to make revolution in the whole world. This fact reveals that, creative and innovative thoughts can bring dramatic changes around us. Then, why can't we try to ~~be~~ be a part of changes that will make our society better?

We are passing through the most powerful phase of our life - which gives ~~a~~ path for both growth and shedding off. As teenagers, we've the blessing of agility along with imagination and creativity. In addition, we're getting education, which can give us knowledge and help to develop our skills. In these circumstances, we can perform well in all tasks, by utilising our skills.

wholly. Hence, we can play a significant role in correcting the mistakes <sup>happening</sup> around us.

Kerala, often addressed as the "God's own country" has witnessed a lots of changes. These changes are leading our land to a pathetic condition. Here, we can apply our ideas, to regain it. For that, we should understand the fact that, we ~~can~~ <sup>the</sup> students <sup>have the ability to</sup> ~~can~~, bring it back to its original state.

We know our land, all of its features, needs and problems. By identifying it in a more broad manner, we can reach the way leading to solutions. ~~Our~~ siblings, Social injustice, inequality, poverty etc. are some of the problems faced by our siblings. We should be able to solve these, and provide life-sustaining conditions for them. New plans should be implemented by ourselves, with the aim of providing a safe society for everyone around us.

We All of us are parts of different organizations like National Cadet Corps, Students Police Cadets, JRC Scout and guide, Little Kites etc. We should utilise our membership in these organizations in a way that becomes beneficial for everyone. We should ~~help~~ be able to coordinate different programs including healthcare, food distribution, awareness classes, environment campaigns etc. For providing basic ideas about these among the mass. We can also provide funds for necessary things, by collecting money in the leadership of these organizations.

As we know, our innovative and long-term thinking can help ~~to disc~~ in the discovery of new things. The government has implemented programs like YIP (Young Innovation Program) to ensure that students are utilising their abilities in accordance with the needs of their society. Such competitive programs will help students to think about the challenges and needs of the society and to find solution for it. We should participate in such

programs, what can result in a new Kerala.

Condomination of the nature is another important issue faced by our Kerala. The number of plastics thrown into nature is increasing day by day. Thus, regaining of our nature becomes the need of the hour. We are practicing 'Friday' as 'Dry Day' in our school and localities to overcome this issue. We <sup>should</sup> ~~will~~ be ready to pick up the wastes around us, and also to spread awareness about the great concern faced by our environment.

As each day passes, our state is getting closer to the hands of <sup>the</sup> evil, namely drugs. Our society is moving through its black phase, reporting lots of drug abuses and murders related to it. Sometimes, there occurs a situations, that makes us realise, even the young generation of <sup>our</sup> Kerala also became a part of ~~this~~ the drug rackets. The student army must take the initiative to report such things happening around them. Not only the crimes related to drugs, but also ~~we~~ should those

related to the protection of ~~our~~ <sup>the</sup> whole society.

The whole Kerala state ~~is~~ <sup>will</sup> become ~~an~~ accident-prone, if we take a step back from safety measures. We can see children showing driving vehicles though they haven't turned 18. Such show-off ideas should be stopped ~~by ourselves~~ erased, by providing awareness among children. We should follow traffic rules along with making others ready to follow it.

Rather than road accidents, some other accidents are also there, that becomes the reason ~~from~~ for death. Drowning and stepping into deep wells unknowingly are the most familiar examples regarding this. We can inject awareness about these in our society through seminars, paintings, ~~and~~ poems, dances or other creative methods. Hence, our society will get aware about the issues they might face, if ~~proper~~ they live ~~with~~ uncarefully.

"Childrens of today are the citizens of tomorrow"  
We should remember this truth before <sup>doing</sup> each of our activities,

What we learn today as a children or a student will be seen in us tomorrow, when we're the citizens of our country. Hence, we should try to improve our values even from our young age. Moral value will help one to recognise what is happening around, to distinguish between good and bad, in having good relationships and live ~~with~~ in harmony with the society. We should try to spread moral values around us - in peer groups, family, friends and society. This will be more effective in changing Kerala to a fruitful condition.

A student having acquaintance with social science lessons ~~must~~ surely knows that lack of education and basic necessities can lead to poverty, along with a situation of high mortality rate. We should give equal importance to both curricular and extra-curricular activities. We should attain good education, good job and should live in a better condition along with encouraging marginalised and weaker ones around

us. As our government provides free and compulsory education, first part of our duty is completed. But, we should take an initiative to study well, what will gain us maximum knowledge. Thus, we can get better job opportunities and ensure economic growth of our society.

Along with acquiring jobs, we should also give employment opportunities to others through establishing different institutions. Thus, we can play a double role in our society's growth. For all these to happen, we ~~while doing~~ should complete our duty as a perfect student by understanding necessary lessons.

While trying to change our Kerala, we should realise that we ~~chang~~ can result in negative changes also. As we are really useful for our state, there are ~~at~~ also several concerns regarding us. We should overcome all those, by using our skills

for the goodwill of our land.

In fact, students ~~can play~~ have underestimated role in building a better Kerala. They ~~can~~ We can spread awareness, point out mistakes and find solutions for the problems in our place. These are things <sup>that</sup> we can do as students, along with some what can be done <sup>in future after</sup> by fulfilling our role as a student in this age.

We should realise our potential and try to explore our land, by knowing it in depth, and helping our society by providing suitable solutions for the problems faced by it. Also, we should never forget about the negatives ~~fact~~ that can happen with our skills, if utilised in a bad manner. Thus, we should ~~be~~ <sup>be careful</sup> be thoughtful in performing for the goodwill of our Kerala.
