## A SLICE OF LIFE = A MOUNTAIN OF EXPERIENCES

Once, we lost everything  
Our magical life became hopeless...

Life is all about changes,  
from light to dark, or  
from dark to light...

If we can succeed it,

It opens a new world of miracles.

Life, may be a dream of  
someone from somewhere...

May be an endless  
ocean of experiences...

If we are willing to explore it  
You will find the secret recipe  
of your life..

If life was a coin of another chance,  
then, happiness and sadness  
was its two sides..

A coin can't stand erect for a long  
So, if one day is happy,  
the other will be dark.

So, don't be afraid  
because, exploring such deep

depths of life will  
awake the inhibited soul  
in us...

An incredible version of  
soul who was waiting  
a long for its entry...

We all have to come at places  
where we feel disenfranchised,  
because, it is the real life.

A mixture of good and  
bad experiences...

May it will help you  
in your arduous state...

At that moment of life  
where unwanted feelings and  
unwelcome situations  
stride towards us,  
the soul which had a  
diversity of experiences  
make the heart pure clearing  
of all the debris and chaos of life  
We all have to make it clear that  
on this world of wonderful experiences  
Peace and love had a great position  
above of all other materialistic things...

Life, the gift of almighty  
is a journey starting  
from one's birth and  
this hazardous journey
