What we as students can do to build a new Kerala

We all know that education plays a dominant role in nourishing the youth by imparting knowlage. In In this fast moving world education plays a crucial role in every aspects of life. And it is considered that a person should be well equipped equiped with knowlage in order to thrive throughout his life. It is a universal truth that all devoleping and develeped countries give importance to the educational sector as it is the future of each nations.

Even our state Kerala has contributed a lot in the feild of education. Several goverment policies and programmes were implemented by the goverment for this purpose. There many school across Kerala for imparting knowlage and other values to students. But there are also several drawbacks in the educational sector that should be

taken into considerations. The main issue that we face today is that education becomes something that is slowly turning into just something that is practiced and learnt in order to earn money and be wealthy. And another problem that has recently increased in our society is the narrowing of career paths taken by students. Schools are starting to lack the real purpose of education as parents often send their kids to school either to become doctor or engineer, due to this students miss out on the main purpose of education such as how to deal with life, they are also lack social skills due to lack of proper the right education. All these drawbacks in the field will surely cause a huge wound to our upcoming generation.

The main issues caused the lack of career options is that unemployment rate will increase

our society with this. Schools should conduct programmes and other facilities to impart the importance of knowledge to children, career path guidance classes should to be provided to students in order to break their fears of taking new paths and to encourage them to follow their passion. Along with school parents also have a crucial role in molding the perspective of individuals, our thoughts are mostly influenced by the people we are surrounded by, it is the role of society to encourage students rather than advising them to follow the path other has followed we are all familiar with the saying that "no ~~person~~ person has ever been successful ~~by~~ without taking risks". This is something we as students should idealise. we are often scared to address our passion in front of the society fearing the respon-

we might receive, ~~but~~ or because of the fear of failure. It is time for us the students and future of our nation to realise the importance of ourself and to realise the potentials that we hold. Rather than just following up the knowlodge we gain from books we should also learn life skills that can benefit both us and the society. We the students should realise that we are from the society and for the society. We should actively engage in activities ~~to~~ for the develepment of our society.

Even after all this efforts we often forget about our soil and our mother nature. After acquiring knowladge many of us fail to realise the importance of conserving our nature and cultural diversity, and fail to uphold our roots that are enriched with culture, love and passion. we are often on

the sun to ~~more~~ modernized, it is a common belief in today's society that ~~we~~ in order to be successful and ~~modern~~ modernized we should follow the western culture. The impacts caused by this point of view very concerning, it has potential threat to our culture. In the quest for money people often neglect our culture and follow other cultures by considering them as superior ones. By this people often forget their duties towards nature and forget that the earth is also for the upcoming generation. If we look into today's society we can see that the exploitation of natural resources have sky rocketed. In the quest for money people are starting not just to create wound to nature and the ecosystem but also to their very own existence.

It is nessecery for us to realise the impo-  
-rtance of protecting our surroundings  
and to be well-aware of it's consequences.  
All these fact ~~to~~ might scare us that  
our future is going to collapse, but is  
not actually true, we can take small actions  
towards the advancement of our nation, cultu-  
-re and nation and it will result as big  
changes for our future.

The future of our nation lies on our very  
own hands. It is time we take action.

We should start to realise the importance  
of the culture of our society, and how our  
action will influence the advancement of  
our nation.

Instead of limiting knowladge into  
class~~room~~ rooms we should start exploring  
the vast feild of knowladge and culture  
around us. Education should not be just

about a degree or qualification rather it should be something that benefit our society. our duty as students should not just be learning and graduating, we shall extent our help to the people around us for their well-being. We should be keen to protect our rich heritage and culture, and also we should participate in social well-fare programmes and organizations to protect our nature and it's biodiversity. Instead of gaining seven figures and enjoying life with high end facilities without contributing towards the society we should start to be a part of the society and be collectively engaged in programmes <sup>such as</sup> to care the elderly, to raise awareness on biodiversity we should also start to learn about the species that are under the threat of extinction and work to eradicate such

possible threats. We should start making use of the several institutions throughout our country which are functioning for preserving our heritage, we should engage in not just learning books but also in learning our traditional art forms, literature and rituals. Rather than just learning about western forms of art forms such as western music etc we should also start to explore the vast and diverse form of art forms that our nation has to offer. As we know that India is one of the diverse countries in the world, we should start to embrace the beauty of our nation. Many of us are very familiar with the western form of literature and we often forget the beauty and of our language, the great poets and authors that once lived in our country, it is necessary

for us to explore literature in our own language as it will open up new perspectives and thoughts in our mind, Moreover it will ~~to~~ rise ~~the~~ our consciousness toward our heritage and culture. Instead of moving into new culture and standards we shall uphold the dignity our culture and works for its betterment.

The role of the government and society in molding a great youth of our future is neither any less. We all know that betterment to our society and nation cannot be just bought by the collective efforts of students. The growth of our nation lies on every single individuals and administrators of the nation. There are several steps that should be taken by the government and society in order to mold a great youth. They include facilitating

for the advancement of technologies and other facilities in order to nourish the talent of our country's youth. Programmes should be implemented with the aim to guide the youth towards a better path and they shall work the thriving of the students in various aspects of life by extending their support encouragement and help.

Together we the students shall take collective efforts to take maximum use of the facilities provided for us, we shall explore various field that ~~or~~ will benefit our society. In this moving world people often forget that agricultural fields are also necessary for the growth of our nation, people often lack the knowledge and know-how in agriculture. It is time we learn about the importance of such sectors.

We should start practicing farming and other activities and we should also extent our knowledge in the agricultural feild, we should start producing atleast the necessary foods required by us.

Through practicing ways and efforts for <sup>our</sup> own kerala and it's future, let's prepara-re ~~our se~~ ourselves to be a reponsible youth that are well passionate to preserve their culture, heritage and biodeversity. Together let's be a society the uphold's the name "God's own country" with pride and joy, and ~~let us~~ <sup>let us</sup> create a better kerala for us and our future.
