HISTORY OF COMPUTER

Since the evolution of humans, devices have been used for calculations for thousands of years. One of the earliest and most well-known devices was an abacus. Then in 1822, the father of computers, Charles Babbage began developing what would be the first mechanical computer. And then in 1833 he actually designed an Analytical Engine which was a general-purpose computer. It contained an ALU, some basic flowchart principles and the concept of integrated memory. Then more than a century later in the history of computers, we got our first electronic computer for general purpose. It was the ENIAC, which stands for Electronic Numerical Integrator and Computer. The inventors of this computer were John W. Mauchly and J. Presper Eckert. And with times the technology developed and the computers got smaller and the processing got faster. We got our first laptop in 1981 and it was introduced by Adam Osborne and EPSON.

-Aman N

Fooling brother

Once upon a time ,there were 2 brothers.raju and another was Ramu.

One day they got some coins of gold and silver equaly . Raju fooled Ramu by saying to Ramu and believed that gold is very cheaper than silver. And he demanded to exchange his silver for Ramu's Gold And Ramu exchanged his silver to Ramu for gold.

A few weeks passed , they got a treasure containing gold more than silver. They started a sea voyage in ship with their treasures. The ship rocked in sea because of over weight. At the time Ramu was locked in a room the captain of the ship ordered to throw the cheap things having more weight. Ramu thought the words of Raju that gold is cheaper than silver. So Ramu threw all the gold without silvers to sea. After some times Raju came out the room and he saw that all gold is thrown. He realised the effect of his lie And he sworn that he never say lie along his life.

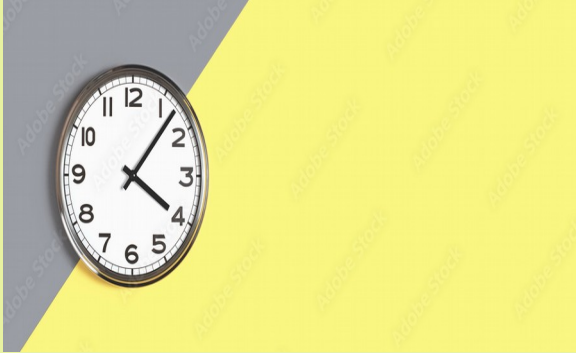

Moral:-

- 1) Never fool anyone
- 2) Never believe anyone without any proof

-Misiyal ameen pk

VALUE OF TIME

In a quiet Village with hills all around there was an old man. Named Samuel. People loved him for being so wise. One sunny morning a young boy named Ethan went to him for seeking guidance Samuel then began. I often hear people talk about how time is precious but I don't know really get why it's important can you help me understand. Samuel smiled warmly and invited Ethan to take a walk with him. They strolled

along they came across a garden where children were flying kites. Look at these kids Samuel said pointing to the scene think of kite as time Ethan you can't touch them but you get to keep them up Ethan observed as one children kite soared gracefully while another's had a hard time staying in the air Samuel continued just like these

kids with their kites people handle their time differently time like a kite can either be well used or wasted they continued walking until they reached . A woman on her porch carefully weaving a stunning tapestry Samuel pointed to her and said see her she's weaving every thread with care creating a work of art she understands the values of time every moment she spent here is like an investment in her craft. Ethan nodded thoughtfully as they walked on in the centre of the village they spotted a man idly sitting against fence last in thought and there's who their example Samuel said he's day dreaming away not realising that time once spent is gone forever Ethan thought about everything he had seen and heard so Samuel what's the lesson in all of this the wise old man smile kindly at Ethan and share the lesson my dear boy is that is our most precious think of it like a kite in your hands how do you handle it shapes the story of your life use your time wisely invested in the things that truly matter and save every moment once it's gone like a kite set free you can't bring it back Ethan nodded wait for the valuable lesson he had learnt that day from then on he understood the true value of time and made an effort to make the most of every precious moment just as Samuel told him indeed this story carries a timeless lesson the thoughts people of all ages it serves as a gentle reminder to treasure the precious moments that shape our lives.

അമ്മുവാൻ താരം

ഒരു ദിവസം അമ്മുവും അവളുടെ അമ്മയ്ക്കും തീവണ്ടിയിൽ കണ്ണൂരിൽ നിന്ന് ഫറോക്കിലേക്ക് വരികയായിരുന്നു. പുറം കാഴ്ചകൾ നോക്കിയിരിക്കുന്ന അമ്മുവിന്റെ അടുത്ത് ഒരു വൃദ്ധൻ ഇരുന്നു. അയാൾ അവരോട് ഓരോ കഥകൾ പറയുവാൻ തുടങ്ങി. അമ്മു അത് ശ്രദ്ധിക്കാത്ത മട്ടിൽ പുറത്തേക്ക് തന്നെ നോക്കിയിരുന്നു. ഇടയ്ക്കിടയ്ക്കോ അയാൾ വെള്ളം ചോദിച്ചു. അമ്മു അവളോട് വെള്ളം കൊടുക്കാൻ ആംഗ്യം കാണിച്ചു. ഇഴുപ്പില്ലാതെ അവൾ അയാൾക്ക് വെള്ളം കൊടുത്തു. ഡിക്ടേറ്റ് നോവലുകളും സിനിമകളുടേയും ആരാധികയാണ് അമ്മു . അതു കൊണ്ട് തന്നെ എല്ലാത്തിലും ഒരു ദുരൂഹത അവൾ സംശയിക്കുന്നത് പതിവായിരുന്നു. ചിലപ്പോൾ അത് അവളെ കുഴപ്പത്തിലാക്കുകയും ചെയ്യാറുണ്ട്. പതിവുപോലെ അവൾ വൃദ്ധനേയും സംശയത്തോടെ നിരീക്ഷിക്കുവാൻ തുടങ്ങി. കുറച്ച് നേരം കഴിഞ്ഞ് അയാൾ എഴുന്നേറ്റു പോയി. ടോയ്ലറ്റിലേക്കാണ് പോയത്. അയാൾ ഫോണെടുത്ത് ആരെയോ വിളിച്ചു. "ബോസ്. ഒരു കുട്ടിയുണ്ട്, കൊള്ളാം, തിരക്കില്ല". എന്നു മാത്രം പറഞ്ഞുവെച്ചു. തിരികെ സീറ്റിൽ പോയി ഇരുന്നു. അപ്പോൾ അമ്മു അയാളെ ഒരു സംശയത്തോടെ നോക്കി എന്നിട്ട് അമ്മുയ്യോട് ചോദിച്ചു, "അമ്മുയ്യേ ഞാൻ അപ്പുറത്ത് ഇരിക്കട്ടെ?" അങ്ങിനെ അവൾ അയാൾക്ക് അഭിമുഖമായി ഇരുന്നു. എന്നിട്ട് പതിയെ അമ്മുയ്യുടെ ഫോൺ വാങ്ങി. എന്തായാലും അയാളെ നിരീക്ഷിക്കാൻ അമ്മു തീരുമാനിച്ചു. തലശ്ശേരിയിൽ ട്രെയിൻ പിടിയിട്ടു സമയം. അമ്മുയ്യ ടോയ്ലറ്റിൽ പോയി. ആ വൃദ്ധൻ പതിയെ എഴുന്നേറ്റ് നടന്ന് തിരിച്ച് വന്നു. തൊട്ടപ്പുറത്തെ സീറ്റിൽ ഇരുന്ന ഒരു ആറ് വയസ്സ് കാരിക്കു നേരെ നീങ്ങി. അവളുടെ അമ്മ എതിർവശത്തെ സീറ്റിലിരുന്ന് ചെറിയ മയക്കത്തിലാണ്. കോച്ചിൽ അധികം ആരും ഇല്ല. അത് കണ്ട് അമ്മു ഭയന്നു. അവൾ ഫോണിൽ കളിക്കുന്നതായി നടിച്ചു വീഡിയോ പകർത്താൻ ശ്രമിച്ചു. പെട്ടെന്നാണ് റെയിൽവേയിൽ ബോലി ചെയ്യുന്ന മാമനെ അവൾ ഓർത്തത്. അവൾ മാമനെ വീഡിയോ കോൾ ചെയ്യുവാൻ ശ്രമിച്ചു. ആ സമയം വൃദ്ധൻ ആറു വയസ്സുകാരിയുടെ അടുത്തിരിക്കുകയും എന്തോ മിറായി കൊടുക്കുകയും ചെയ്തു. ആരും ശ്രദ്ധിക്കുന്നില്ല എന്ന് ഉറപ്പു വരുത്തിയതിന് ശേഷം കുട്ടിയെ ഒന്ന് തലോടി. അവൾ മയങ്ങി പതിയെ അയാളുടെ മടിയിലേക്ക് ചാഞ്ഞു. ട്രെയിൻ നീങ്ങാൻ തയ്യാറെടുക്കുമ്പോൾ വൃദ്ധൻ ആ കുട്ടിയേയും എടുത്ത് വാതിലിനടുത്തേക്ക് നടന്നു. ഒന്ന് ഭയന്നെങ്കിലും അമ്മു ഫോണും കൊണ്ട് അയാളുടെ പിന്നാലെ ചെന്നു. അയാൾക്ക് ഇറങ്ങാൻ കഴിയുന്നതിനു മുൻപ് തന്നെ പോലീസ് കോച്ചിലേക്ക് പാഞ്ഞുകയറി . ഇത് തന്റെ കൊച്ചുമകളാണെന്ന് പറഞ്ഞ് അയാൾ രക്ഷപ്പെടുവാൻ ശ്രമിച്ചെങ്കിലും, ആ കുട്ടിയുടെ അമ്മ ഉണർന്നതോടെ സത്യം തെളിയിക്കപ്പെട്ടു. ഈ ഒരു സംഭവത്തോടെ അമ്മു സ്കൂളിലും നാട്ടിലും താരമായി.

-Charutha.k.m

STORY OF AI

Artificial Intelligence (AI) has a rich history spanning several decades. It began in the mid-20th century with the advent of electronic computers. In 1956, the term "artificial intelligence" was coined during the Dartmouth Conference, marking the official birth of the field.

Early AI focused on symbolic reasoning and problem-solving, exemplified by programs like the General Problem Solver. However, progress slowed in the 1970s due to challenges in creating intelligent systems.

The 1980s saw the rise of expert systems and knowledge-based AI, with applications in medicine, finance, and other domains. Neural networks gained attention but faced limitations.

The 1990s witnessed advancements in machine learning, particularly with the emergence of support vector machines and reinforcement learning. However, practical AI applications remained elusive.

In the 21st century, the availability of massive datasets and increased computing power led to breakthroughs in deep learning. Image and speech recognition, natural language processing, and game-playing AI, like AlphaGo, demonstrated remarkable achievements.

Today, AI is ubiquitous in our lives, powering virtual assistants, recommendation systems, and autonomous vehicles. Ongoing research explores ethical considerations, explainability, and the potential impact of AI on society. The journey from symbolic AI to the current era reflects a dynamic evolution shaped by technological progress and interdisciplinary collaboration.

-Muhammed Haneen P A

Poem on nature

Nature is so good
And don't make us rude,
It gives us everything
Without expecting anything
It gives us food to eat
And give us shade to reduce heat
It is so green
And help us to stay clean
With trillions of trees
And stunning clefts
So, it is our duty to protect the nature
And to stop the melting glacier

-Saja.p

WE ARE THE WORLD

There comes a time when we heed a certain call
When the world must come together as one
There are people dying
And it's time to lend a hand to life
The greatest gift of all
We can't go on pretending day by day.
That someone, somewhere will soon make a change
We all are a part of God's great big family
And the truth, you know Love is all we need
We are the world, we are the children
We are the ones who make a brighter day
So let's start giving There's a choice we're making
We're saving our own lives
It's true we'll make a better day Just you and me
Send them your heart so they'll know that someone cares
And their lives will be stronger and free
As God has shown us by turning stone to bread
So we all must lend a helping hand
When you're down and out, there seems no hope at all
But if you just believe there's no way we can fall
"Well... Well... Well..."
Let's realise that a change can only come
When we stand together as one.

-Fathima Nashva VP

Moonlight Whispers

Beneath the moon's soft silver glow,
Whispers of the night-time flow.
Stars above in cosmic ballet,
Painting dreams that gently sway.

A symphony of shadows dance,
In the mystic moonlit trance.
Silent echoes of the night,
Wrap the world in soft delight.

-Muhammed Finan PM

POEM ON EARTH

I love the earth
And everything that lives
I love the plants
And the beauty each one gives
I love the trees

And the water at beach
I love the animals
And the fishes at sea
For I am a part of mother earth
And it's a part of me

-Mohammed Anas

THE MIRACLES OF SOCIAL MEDIA

Media can influence the sphere of education positively by teaching individuals about various subjects. Media proves up-to-date information about various topics around the world in very short time. Through media, individuals get a platform to exercise their talents and

improve themselves. Media acts as a source of knowledge for people who want to learn about various disciplines. Media enables mass production of assets to suit public demands. Even if there are many advantages of social media, addiction to them causes health problems. The social media allow for change in organisational culture through building up the involvement of employees. It allow for improving the internal communication of the whole company, due to shared access to catalogues, databases, information services etc. The media build a good image of the management and ensure good communication between management and employees. It provide good connection between the departments. This is helpful for creating a free flow of knowledge and experiences as well as ease of testing new innovations. This increases the attractiveness of the company in the eyes of the young generation of workers. It can provide access to important information and create a space for self expression. The ability to form and maintain friendships online and develop social connections are among the positive effects of social media use for youth. By helping individuals connect socially, social media has the potential to improve our mental health and it helped to slow the spread of COVID-19 by encouraging health promoting behaviours and compliance with health recommendation.

-Sanha.PN

THE DIGITAL ERA

In the digital realm where codes entwine,
Lies a story of change, a tale so fine.
Bits and bytes, a dance of transformation,

In every citizen's life, a digital sensation.
From morning alarms to the night's last scroll,
Digital whispers echo, taking control.
Smart homes, swift taps, a life redefined,
In the pixels of change, every soul is aligned.

Social spaces, a virtual embrace,
Friendships crafted in the digital grace.
Likes and shares, the currency of connection,
In this digital tide, a communal reflection.

Workspaces shift to the online stage,
A digital revolution, the new work sage.
Remote rhythms, pixels unite,
In the digital dawn, a professional flight.

E-commerce trails, a shopping spree,
From the screen to doorstep, a digital key.
Choices at fingertips, a myriad array,
In the digital marketplace, dreams at play.

Education unfolds in virtual halls,
Knowledge transmitted through digital walls.
Bytes of wisdom, a global exchange,
In the digital classroom, minds arrange.

Yet amid the pixels, a cautionary plea,
For in this change, a digital decree.
Balance the bits with a mindful touch,
In this digital dance, embrace it as such.

കളവ് പോയ പുസ്തകം

അ.. വി... ടെ.. പ്.. പു.. സ്.. ത.. ക...

മുഴുമിപ്പിക്കാത്ത ഏതാനും ശബ്ദങ്ങൾ അയാളുടെ വായിൽ നിന്നും പുറത്തേക്ക് വന്നു; ഒരു ഭ്രാന്തന്റെ തേങ്ങൽ പോലെ. അയാളുടെ കണ്ണുകൾ വാതിലിന് അരികിൽ തന്നെയാണ് , ആരോ കൊളുത്തിയിട്ടുവിധത്തിൽ.

പെട്ടെന്ന് ഒരാൾ അമർച്ചത്തോടെ മുറിയിൽ കയറി വന്നു.

"ഇത്രയും ആളുകൾ ഇവിടെ ഉണ്ടായിരുന്നിട്ടും അവൻ എങ്ങനെ മോഷ്ടിക്കാൻ സാധിച്ചു?"

"ആരെങ്കിലും അവനെ കണ്ടോ?"

അയാളുടെ സ്വരത്തിൽ ദേഷ്യം നിഴലിച്ചു.

അപ്പോഴും വൃദ്ധന്റെ ചുണ്ടുകൾ പുലമ്പുന്നുണ്ടായിരുന്നു..

"അ.. വി..ടെ.. അത്.. പു.. സ്.. ത.. "

കാലങ്ങളായി അക്ഷരങ്ങൾ കാണാത്തതിന്റെ വിങ്ങൽ വൃദ്ധന്റെ കണ്ണുകളിലും വാക്കുകളിലും നിറഞ്ഞിരുന്നു.

ഒരു പുസ്തകത്തിനു വേണ്ടി അയാളുടെ ഹൃദയം തുടിക്കുന്നത് എനിക്കു കേൾക്കാമായിരുന്നു. ഒരു എഴുത്തുകാരന്റെ വേദന.

നാളെ ഉച്ചയ്ക്ക് അയാളുടെ മരണമാണ്. സമൂഹത്തിലെ അനിതികളെ തന്റെ തൂലികയിലൂടെ തുറന്നു കാട്ടിയതിന് അയാൾക്ക് ലഭിച്ച ശ്രദ്ധ.

ശ്രദ്ധതലൊന്നും ചിന്തിക്കാൻ എനിക്ക് കഴിഞ്ഞില്ല. കളവ് പോയ ആ പുസ്തകം

പരലോകത്ത് വെച്ചെങ്കിലും വായിക്കാൻ ആ പാവം മനുഷ്യന് നീ അവസരം

നൽകണേ നാഥാ. ഞാൻ മനസ്സിൽ പ്രാർത്ഥിച്ചു. മുറിയുടെ പുറത്ത് കടന്നിട്ടും ആ

വൃദ്ധന്റെ മുഖം എന്റെ മനസ്സിൽ നിന്നും മാഞ്ഞുപോയിരുന്നു

- ഖദീജ് ഹന്ന . പി

ROBOTICS

The first electronic autonomous robots with complex behaviour were created by William Grey Walter of the Burden Neurological Institute in Bristol, England, in 1948 and 1949. The first digitally operated and programmable robot was invented by George Devol in 1954 and was ultimately called the Unimate. The earliest robots as we know them were created in the early 1950s by George C.

Devol, an inventor from Louisville, Kentucky. He invented and patented a reprogrammable manipulator called "Unimate," from "Universal Automation." For the next decade, he attempted to sell his product in the industry, but did not succeed. Carol Relie was the mother of robotics

Robots eliminate dangerous jobs for humans because they are capable of working in hazardous environments. They can handle lifting heavy loads, toxic substances and repetitive tasks. This has helped companies to prevent many accidents, also saving time and money. The advantages range from streamlining, saving time, eliminating biases, and automating repetitive tasks, just to name a few. The disadvantages are things like costly implementation, potential human job loss, and lack of emotion and creativity.

In many situations robots can increase productivity, efficiency, quality and of consistency of products: Unlike humans, robots don't get bored. Until they wear out, they can do the same thing again and again. They can be very accurate – to fractions of an inch (as is needed for example in manufacturing microelectronics). Robots are wired to perform repetitive tasks ad infinitum; the human brain is not. Industries use robots to accomplish the tedious, redundant work, freeing employees to tackle more challenging tasks and even learn new skills.

The future of robotics holds endless possibilities. From swarm robotics to humanoid companions, we are on the verge of a revolution that will continue to blur the lines between human capability and artificial intelligence. As robotics becomes more prevalent, the impact on employment and the economy must be considered

-Hadiya jasmin CK

The fox and the crow

Once upon a time. There was a crow.
 He had a piece of cheese. A hungry fox came there.
 His mouth watered when he saw the piece of meat.
 He thought of a plan to get it. He praised the voice of the crow.
 The fox said to sing a song.
 When the crow opened his mouth to sing.
 The piece of meat fell down. The fox ate it and went away.

MORAL:-

1) BEAWARE OF FLATTER

-Muhammed Aseel.A

A Thirsty crow

once upon a time there was a very thirsty crow. He flew here and there in search of water. He saw a pot in the garden. There was a little water in it. He could not drink it. He thought of a plan. He put some stones into it. The water rose up. He drank it and flew away.
 moral : necessity is the mother of invention.

-Fathima thasni SK

EARTH : Living planet

Our beautiful planet earth is the 3rd planet from sun and 5th largest planet in the solar system. Earth is the only planet in the entire universe that sustains life. Moon is the only satellite of earth.

The earth is one of the eight planets that revolves around the sun. It takes 365 days to complete its round around sun. It is also rotates around its own axis and completes its rotation in 24 hours.

In this rotation we experience day and night. Earth is not quite spherical, being flattened at poles and consist three geographical zones, the core, the mantle, the crust.

The earth is also known as blue planet or blue marble because of 2/3 of earth is covered with oceans, seas, rivers etc. however only 3% of water in earth is fresh water. Others are saline water of oceans and seas.

Earth is the habitate of millions animals and birds. It is only planet that give air and water. So it is our responsibility to protect the earth and its resources

-Minha pp

Pen

In a world of paper and play,
A pen comes out to have its say.
Ink that flows in colors bright,
A magic wand, bringing joy and light.

It draws a smile with every line,
A scribble, doodle, oh so fine!
In the classroom or at play,
The pen makes words dance and sway.

From homework tasks to secret notes,
In pockets, purses, or little totes.
A tool for stories, big and small,
The pen's a friend, beloved by all.

So grab a pen, let your imagination soar,
On pages blank, let creativity pour.
With every stroke, a tale begins,
A world of wonders, where joy never dims.

-Naja fathima.A

FRIENDS FOR EVER

We all have a lot of friends in our life. Friends are part of our life. We all have true or fake friends among them. Having a reliable and honest friends is really a true blessing. Your best friend is one who can read your eyes, heart and as well as your emotions. Friends are like a breeze of cold fresh air on a warm summer day. Not everyone is born with enough luck to find real friends and be able to hold on them. They often bring amusement with a lot of fun in one's life. Only ego can work to ruin that bond of friendship. When you say "hello" to them it's easy, but when you say "goodbye" it's the hardest thing ever. You will find, you can't do anything when your friends are leaving. They are the reason to become we are happy, mentally strong due to the support that our friends have given us over years.

Friends teaches the values and importance of loyalty in our life. Good friends are very rare and unique in this world. The famous proverb about a friend that "A friend in need is a friend indeed". A friend is someone who is always happy to help when you get into a problem. A friend is someone who brings out the best in you. True friends is someone who cheers you up when you feeling sad. They advise you and will never turn you down. They are hard to come by, harder to leave, and impossible to do without. Good friendship have innumerable benefits, such as increased feelings of belonging, purpose, increased levels of happiness, reduced levels of stress, improved self worth, and confidence. Elisabeth Foley says:"The most beautiful discovery true friends make is that they can grow separately without growing apart". And one more thing to say:"Stay with your friends, because you may never meet again".....

-Hadya Adeem.PV

അവളും പേനയും

നല്ല പോലെ എഴുതികൊണ്ടിരിക്കെ അവളുടെ പേനയും കൈകളും തമ്മിൽ പിരിയേണ്ടി വന്നു. തന്നെ വിട്ടു പോവരുടെന്ന് പല തവണ പേന പറയാൻ ശ്രമിച്ചെങ്കിലും കാര്യമുണ്ടായിരുന്നില്ല. വർഷങ്ങൾ ഒരുപാട് കടന്നു പോയി. അവൾ വീണ്ടും തന്റെ പേനയെ എടുക്കാൻ നോക്കിയപ്പോൾ അവളുടെ കൈകളുമായി ഇണങ്ങാൻ പ്രയാസമുള്ള പോലെ, തിരിഞ്ഞ് നോക്കാതാടിന്റെ പിണക്കമാണോ അതോ വർഷങ്ങളുടെ ദാരുണമാണോ? കുത്തിവറച്ചും കിടന്നും എല്ലാം അവൾ വീണ്ടും എഴുതാൻ തുടങ്ങി. ഒന്നും എഴുതാൻ അറിയാത്തതുകൊണ്ടാണോ അതോ ഒരുപാട് എഴുതാൻ ഉള്ളതുകൊണ്ടാണോ എന്ന് അറിയില്ല. അവൾ ഇപ്പോഴും ആദ്യ വരിയിൽ നിൽക്കുകയാണ്. അവൾ പറയാ : കൈകൾക്ക് വല്ലാത്ത വേദന, എന്തോ ദുരമുള്ളതുപോലെ. തിരിഞ്ഞു നോക്കാത്ത വർഷങ്ങളിൽ അവളുടെ പേനക്കും കൈകൾക്കുമിടയിൽ ഒരുപാട് അകൽച്ച വന്നിരുന്നു. സാരമില്ല, വീണ്ടും തുടങ്ങണം, പണ്ടുള്ളതുപോലെ ഒരുപാട് എഴുതണം. പേന താഴെ വാക്കേണ്ടി വന്നാലും വീണ്ടും എടുത്ത് എഴുതണം. മഷി തീരും വരെ....

History of smart phone

Smartphones evolved from traditional mobile phones. The term "smartphone" gained popularity in the mid-2000s as devices began integrating advanced features like touchscreens, internet connectivity, and app ecosystems. The release of the iPhone in 2007 by Apple played a pivotal role in shaping the modern smartphone landscape. Android-based devices followed suit, contributing to the widespread adoption of smartphones worldwide. These devices now serve as multifunctional tools, combining communication, entertainment, productivity, and more in a compact and powerful form.

-Muhammed Sabiq

Technology

In today,s modern world technology is advancing day by day. It is becoming a part of our life. Technology has made our life easier. we are more depending technology .there are so many advantages.

We learn the importance of building communities and how to interact with social situation.Although it has many advantages but it also has few disadvantages.

Over use of digital devices more and more can become addicted it cause many health problems, there will be not time for family and friends. We have not enough time for our imagination.

-Sana KT

വെപ്രാളം പറ്റിച്ചു

ഒരു യാത്രക്കാരൻ പണമടങ്ങിയ ബാഗുമായി തീവണ്ടിയിൽ കയറി.മറ്റു യാത്രക്കാർ അരികിലൂടെ നടക്കുമ്പോൾ ബാഗ് ബാഗ് എന്ന് പറയുന്നത് കേൾക്കാമായിരുന്നു. ഇത് ഒരു കള്ളൻ ശ്രദ്ധിച്ചു. എങ്ങിനെയെങ്കിലും ബാഗ് കൈകലാക്കണം കള്ളൻ ശ്രദ്ധിച്ചു. അയാൾ ഉറങ്ങുന്ന സമയത്ത് തന്നെ കള്ളൻ ബാഗ് എടുത്തു കൊണ്ട് പോയി.എന്നിട്ട് മറ്റൊരു സീറ്റിലേക്ക് പോയി ഇരുന്നു.കറച്ചു സമയം കഴിഞ്ഞപ്പോൾ യാത്രക്കാർ ഉണർന്ന്. തന്റെ ബാഗ് നോക്കി. കണ്ടില്ല അയാൾ ഉറക്കെ നിലവിളിച്ചു.ആളുകൾ ബാഗ് തിരഞ്ഞു പിടിച്ചു കള്ളൻ രക്ഷപ്പെടാൻ സാധിച്ചില്ല.പോലീസ് വന്നു കള്ളനെ പിടികൂടി ചോദ്യം ചെയ്തു. അയാളുടെ കയ്യിൽ പണം ഉള്ളത് നിങ്ങൾക്ക് എങ്ങനെ മനസ്സിലായി എന്നു ചോദിച്ചു. കള്ളൻ പറഞ്ഞു അയാൾ ബാഗുമായി വെപ്രാളം കാണിക്കുന്നത് ഞാൻ ശ്രദ്ധിച്ചു. അങ്ങനെയാണ് ഞാൻ ബാഗിൽ പണമുള്ളത് മനസ്സിലാക്കിയത് . ഇത് കേട്ട് യാത്രക്കാർ ചിരിച്ചു.

-Muhammed Faheem p

The Balloon Man

He always come on market days
And holds Balloons as lovely bunch
And in the market squares he stays
And never seem to think of lunch

They're Red and Purple,Blue and green
And when it is sunny day
The carts and the people get between
You see shining them far away

And some are big ,and some are small
All tied with a string

And when there is a wind at all
They tug and tug like anything

Some day perhaps h'll let them go
And we shall see them sailing high,
And stand and watch them from below
They look pretty good in the sky!!

-Aysha lana.k

Some cosmic facts

The universe is vast and full of mystery However, the universe contains interesting things:-

1. Universe is filled with complete silence. sound travels on Earth through vibrations in the air, in outer space there are no medium So sound can't travel through space.
2. Foot prints of astronauts on the moon to last For a million years because the moon has no atmosphere or wind to erase that.
3. 1 tsp of neutron star is equal to the weight of whole human population
4. The most mysterious thing in the universe is the black holes. black holes are an object with infinite mass and infinite density. The biggest black hole we found is Ton 618
5. all the galaxy has a super massive Blackhole in the center, Sagittarius a* .The nearest objects to center and farthest objects have same speed in rotation.
6. The first man-made object to leave the solar system is voyager 1.
7. There are more than trees on Earth, than stars in the Milky Way Galaxy.
8. We can fit all planets in our solar system between earth and moon.
9. The biggest mountain in our solar system is in Mars. This is 3 times larger than mount Everest.
10. The nearest galaxy to Milky way is the Andromeda galaxy.

-Muhammed Sinan

The Power Of Patience

In a distant village surrounded by lush fields. There lived a wise man his

gentle demeanour and deep Insights attracted people from all walks of life seeking his wisdom. One day a restless young man women approached him her eyes filled with impatience. She pleaded with the wise man saying. I am burdened by my lack of patience. How can i find peace in the midst of my restlessness the wise man nodded and gestured for her to follow him to a nearby orchard they stood beneath a towering peach tree heavy with unripe

fruit. The young women's gaze fixed on the branches. Longing for the vibrant sweetness of the fruit. Observe this tree. The wise man said softly. It bears the promise of delicious fruit. Yes it understands the necessity of patience. Confusion flickered across the young women's face. But she remained attentive. Come closer. The man urged leading her to a single peach. That had fallen prematurely to the ground. He picked it up and placed it in her hand. Try this fruit. He said with a smile. The young women bit into the fruit. Only to be met with a sour taste that wrinkled her brow. You see the man continued. The tree. Waits patiently for the peaches to ripen. For it knows that true sweetness comes with time. If it were to rush. The flavour would be better and unfulfilling the young women is patience. Slowly gave way to understanding. She realised that waiting was not merely enduring time. But a process of maturation. That added depth and richness to the desired outcome. As she left the orchard. A new found calmness settled within her. She carried with her a new perspective. Understanding that life's sweetest reward were worth the wait. In the garden of her own experience. She would nature patience allowing each moment to ripen and unfold naturally. Just as the tree waits for its fruit to ripen we must also embrace patience in our lives. Patience is not simply enduring the passage of time. But is a transformative process. That adds depth and sweetness to our experience. Patience a sense of peace and contentment into our lives. And helps us appreciate the journey as much as the destination. Instead of fixating solely on the end result. We learn to savor each step along the way. Embracing the lesson and experiences that shape us.

-Ayisha Fadiya. KP

IMPORTANCE OF READING

It is a precious thing for all people to know knowledge. Everyone gets knowledge from books. It gives many information in the form of writing. This is beneficial for many people and children to know knowledge. Reading has an important role to know a knowledge. It can take many people to many places. And it can lead us to many thoughts.

Reading book is exercise for brain and it gives us mental strength. Reading is a great value because it provides many things. Both reading and writing work to improve once communication skills. When we are reading we have the opportunity to think about new things ways etc.

Reading is also a form of entertainment. Reading can teach us. As we celebrate 'WORLD BOOK DAY' take look at most popular books. We celebrate 'WORLD BOOK DAY' on 23rd April. When we had to work hard to learn to read it came naturally. Reading is also a gift. So if anyone ask you to stop to think 'WHY IS READING IMPORTANT' you are now well to read. They must should also understand the importance of reading....

Elephant and deer

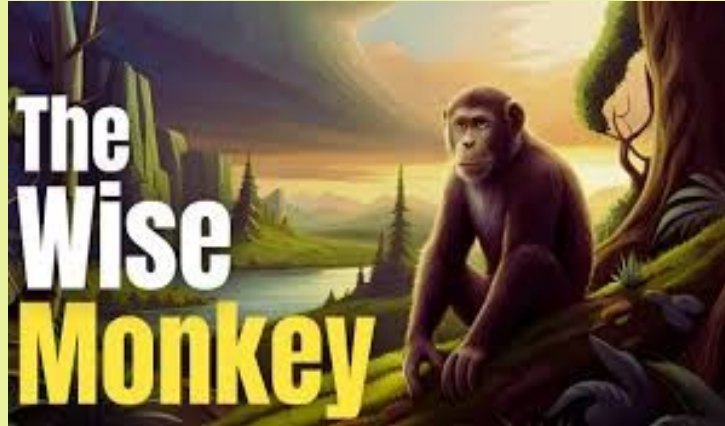

Once in a forest there lived an elephant and deer. They were very close friends, in evening they played together. But deer has more speed while running, so the elephant cannot defeat him.

The elephant was very big so it cannot play with the deer. Other animals say that he was a useless animal, This made him very sad also he think that why the God send me to the earth as a useless animal. The deer consoled him that everyone has a day. This made him little happier. The words of the deer comes true, one day the jungle was cougth with fire. Everyone ran to a safety place but the elephant take water from the nearby pond and started to put out the fire this encouraged everyone to protect their jungle.

The fire was completely extinguish when all the animals came forward for his help. After extinguishing it the deer say that the elephant was the only animal who came forward firstly to put out the fire. All animals remembered their mistake and asked sorry to the elephant also they made him a good friend.

Once there lived a tiger he was the king of the forest. He had a wise minister. It was an monkey. His renoun was extended to forests. The monkey solved the problems .

There were some jealous troops in the forest. They went to nearby forest where a lion was the king. They said that the king in our forest is not professional king and you are more powerful than the king and you suit for it. As per the idea lion fought with the tiger. Tiger was a brave animal but he was defeated. Then the rule of lion begins .

The jealous troops became his faithful Assistants. They hunted daily and this causes the decrease in number of animals. Every animal complaint it to the minister and the tiger. At the time an idea glimmered at monkey's head. As per the idea monkey went to every assistant's den when they were separated in a time. He said that you are powerful than the tiger and you entirely suit with it. He went to other assistant's den and said the same thing. One of the assistants killed the lion, to be the king and he announced himself as the king.

This made the other assistance angry. They each fought and remained weak at the time every animal assembled and they threw stones upon them and they died. Then the tiger ruled in peace.

ഒരു കമ്പ്യൂട്ടർ കഥ

മദ്ധ്യകാലത്ത് ലോകം കമ്പ്യൂട്ടറിന്റെ ജനനം കണ്ടെത്തി. അലൻ ട്യൂറിംഗും ജോൺ വോൺ ന്യൂമാനും അഞ്ചാം നൂറ്റാണ്ടിൽ സിദ്ധാന്തങ്ങളുകളും മൂലമുള്ളതാണ്. ആദ്യത്തെ എലക്ട്രോണിക് കമ്പ്യൂട്ടറുകൾ പ്രകടമായി, അനാരോഗ്യമായ വലിയ കമ്പ്യൂട്ടർ കൊണ്ടുവന്നു. കാലം പോകുന്നതോടെ, ട്രാൻസിസ്റ്ററുകളും ഇൻ്റഗ്രേറ്റഡ് സെഴ്ചിന്റെ വളരെ ചികിത്സാപരമായി മാറ്റങ്ങൾ നടത്തുക സാധിച്ചു. 1970 കളും 1980 കളും വരെ സ്വന്തമായ കമ്പ്യൂട്ടർ യുഗം പ്രാരംഭിച്ചു. അപ്പിളും മൈക്രോസോഫ്റ്റും പ്രവർത്തിച്ച പ്രവർത്തനങ്ങളിൽ മുൻപ്.

1990 കൾ ലോകത്തെ ആദ്യകാല ഇൻ്റർനെറ്റ് സമയമായി, അപ്രതിമരീതിയിൽ ലോകം കണ്ടെത്തി. പ്രോസസ്സിങ് പവർ, സ്റ്റോറേജ്, കണക്റ്റിവിറ്റി എന്നിവയിൽ വേഗത്തിലുള്ള മാറ്റങ്ങൾ കൂടി കമ്പ്യൂട്ടറിന്റെ വികസനത്തിന് മാർഗങ്ങൾ നേടി.

ഇന്ന്, കമ്പ്യൂട്ടറിന്റെ കഥ തുടരുന്നു. !!
