LIFE

Life is so strange
Nothing stays the same
Everything change
But who to blame

Life is like a game
Where you have to lose
Before you can gain
To win you have to face the fearful rain

In Life.. They always say
Don't use your heart
Only use your brain

In life there is love
But the more is hate
No one decide
They all hesitate
And who knows the fate

The closest people you need go away
When you need them the most
You find them lost

it continues.....

Day after day
Days go by
People are born.. and other die

Year after year
No one understands
Nothing is clear
Nothing in our hearts except fear

Today you walk & talk
Tomorrow you lay in your grave
And nothing it gave
The money that you save
And no use of your gold
When it won't be sold

You have to be strong
Stop doing the wrong
And never lie
Be ready for your last goodbye

STORY OF THE WONDER BOY ASH

Once upon a time, there was a child. His name was Ash. One day he was walking through a forest. At that time a good person called ram saw ash. Ram has a gun called wish gun. It has 10 bullets. If he shoot it towards the sky he will get whatever he want. Ram and Ash were walking through the forest. Ash said to ram that he needed a geared bicycle for riding trough. Ram took his gun and shot upward two geared cycle came down. Ram and ash took the cycles and started their journey.

They were riding through a desert. At that time two monsters attacked ram and ash. Ram took the wish gun and shoot to the sky. A big monster 2 times bigger than that monsters came down. The big monsters killed the other both monsters and they continues their journey and now they have only 8 bullets in the gun.

After sometime they reach a sea called the death sea. Ash said to ram that we cannot cross the sea without a ship. Ram took the gun and shot it upwards and a ship came down. They both took their cycles and got into the ship. They were sailing through the sea, Suddenly a dragon came out of the water and it started to attack ram and ash with its dangerous fire. ram suddenly took his wish gun and shot upwards. A missile came down and ash shot the dragon with the missile he got and thus they eliminated the dragon.

Now they have only 6 bullets left.

its continues.....

4

They crossed the sea and reached a dense forest. They walked through the forest and to their surprise they saw a castle and they went inside. They saw ghosts wandering here and there. Ram take the gun and shoot upwards and all ghosts vanished. now they had 5 bullets left.

After that they saw a lake if they crossed it they would reach the house of the evil witch. Ram took the gun and shot it upward a boat with oars came down. ram and ash got in to the boat. ash took the oars and started to row through the lake at that time a dinosaur appeared and without thinking much ram fired the gun and a battle sword appeared ash took the sword and cut the dinosaur in two then they crossed the lake and started walking.

Ash said that "i am starving" ram as usual fired the gun. A table full of special items come and ash and ram ate the tasty food. Now they have only 2 bullets in the gun.

At last they reached the house of the evil witch. Ash was scared because "9 hours early" 'ram and ash were going through the forest at that time the evil witch saw them. When they were walking they step the pet cat of the witch so the witch come and send them to far a forest'.

They knocked the door the witch come and opened the door the witch said 'you two'. Ram 'yes we come back' ram and ash take the magical stick and break it the witch vanished and a goblin come to the room. Ram take the gun and shoot 2 times upward both of them get magical powers and killed the goblin. And they return to their homes.

WHAT IS COMPUTER

A COMPUTER IS A MACHINE THAT CAN BE INSTRUCTED TO CARRY OUT SEQUENCES OF ARITHMETIC OR LOGICAL OPERATIONS AUTOMATICALLY VIA COMPUTER PROGRAMMING. MODERN COMPUTER HAVE ABILITY TO FOLLOW GENERALIZED SETS OF OPERATION, CALLED PROGRAMS .THIS PROGRAMS ENABLE COMPUTERS TO PERFORM AN EXTREMELY WIDE RANGE OF TASK .A “COMPLETE COMPUTER INCLUDING THE HARDWARE ,THE OPERATING SYSTEM (MAIN SOFTWARE) ,AND PERIPHERAL EQUIPMENT REQUIRED AND USED FOR “FULL” OPERATION CAN BE REFERRED TO AS A COMPUTER SYSTEM.THIS TERM MAY AS WELL BE USED FOR A GROUP OF COMPUTERS THAT ARE CONNECTED AND WORK TOGETHER ,IN PARTICULAR A COMPUTER NETWORK OR COMPUTER CLUSTER.

Programs

6

THE set of instruction that are are gave to the computer is called a program . The software such as Gimp ,open office writer,calc impress that you are fimilar with have been prepared in various programming languages.

TRANSLATOR PROGRAMS

Translator programs are used to convert the programming language to binary language and to convert the instructions in binary language to the programming language.

COMMENT

The comment for each statement in the python program can be added after # symbol. The comments That are added in the same row after # symbol will not be considered while running the program.

Don't forget to include such comments in the programs you prepared .

The Worst Boy

Arun was the worst boy in the class. Every teacher used to punish him. Now days he brought Malayalam text book. So he was getting beat from the teacher. One day he met with an accident. His leg was fractured. He was hospitalized for 2 months. When he became cure, he started coming to school and started bringing the Malayalam text book. Teacher was very happy, teacher believed accident brought him to be a better child. The teacher helped him to study everything properly, he became an enthusiastic student. Teacher promised him chocolate if tries for 1st rank. Everybody laughed at teacher when she said these words in the class. But he took up the challenge, studied well and got first rank. Students asked him how you managed to get first rank, he replied my teacher is my every thing; actually her promise was something so great. I trusted in words. That's why I am here

FORTUNATE ESCAPE

ONCE THERE WAS A RAT LIVED ON THE ATTIC OF THE HOUSE OF THE RICHEST MAN CALLED ROY. THE ROY HAD A PET CALLED CATTY AND IT IS A CAT. ONE DAY THE CAT RECOGNISED THAT THERE WAS A RAT ON THE ATTIC OF THE HOUSE. BUT RAT DOESN'T KNOW THAT THERE WAS A CAT IN HOUSE. THERE LIVED A SNAKE NAMED KUYO. ONE DAY AN OWL KILLED THE SNAKE. RAT SAW IT.

THE RAT WAS BECOME AFRAID OF THE CAT WILL KILL HIM, LIKE THE OWL KILLED THE SNAKE. HE THINKS THE IDEAS FOR ESCAPING FROM CAT.

ONE DAY THE CAT ENTERED TO THE ATTIC OF THE HOUSE. HE SEARCHED THE RAT. BUT RAT HIDE BEHIND A BOX. HIS COLLECTED FOOD WAS FINISHED. THE RAT THOUGHT THAT NOW, THE CAT WILL DEFINITELY KILL HIM. SO THE RAT DECIDED TO MAKE TUNNELS IN THE HOUSE FOR CONNECTING DIFFERENT PLACES IN HOUSE. HE CONSTRUCTED A HUNDRED OF TUNNELS IN THE HOUSE, BUT THE HOUSE OWNER CLOSED ALL THE TUNNELS. THE HOUSE OWNER PUT RAT KILLER IN FOOD BUT UNFORTUNATELY THE CAT EAT IT, AND CAT DIED. THE FORTUNATE ESCAPE OF RAT HELPED HIM TO CONTINUE IN THE HOUSE.

- Sir Charles Spencer "Charlie" Chaplin was an English actor, comedian movie maker, screen writer, editor, musician, anarchist and author. He was very famous in silent movies. He acted, directed, scripted, and produced most of them.

- Charlie Chaplin was a performer for almost 70 years. He started working when he was 5, and worked until he was 80. The character that Charlie Chaplin played most was called "the Little Tramp". The "Tramp" was a man of good manners, who wore a coat, a pair of big trousers, shoes, mustache, and a black hat.

- Charles Spencer Chaplin was born on April 16, 1889 in London, England, United Kingdom. Chaplin had a rough childhood; his mother, Hannah Hill Chaplin, a talented singer, actress, and piano player, spent most of her life in and out of mental hospitals. His father, Spencer Chaplin Sr. Was a fairly successful singer until he began drinking. After his parents separated, Charlie and his half-brother, Sidney, spent most of their childhood in orphanages, where they often went hungry and were beaten if they misbehaved. He first started acting at age five. He acted in a music hall in 1894, standing in for his mother.

THE SMALL FISH AND SHARK

11

One day far under the sea there was a lonely fish called Bobby. He had no friends because all the other fish liked to stay quiet and bobby had the voice of an angel.

The other fish picked on him because he was the only fish that didn't like to bully the sharks are compared to the green and blue fish. One day while bobby was swimming to the store, he saw a big shark named Gasper. Bobby felt really scared because he had never been up close with a big shark before unlike other sharks gasper was friendly, kind, and very sweet.

A TRUE FRIEND

A True Friend doesn't care if you're rich or poor.

If you are being an ass, What you weigh, What you look like, if your house is a mess, What car you drive or if you have a family of crazy people.

Your conversation will pick up where they left of even if months have passed by. They will there for you when need them most and despite your faults will love you with all their heart and cherish the times spent with you.....?

A true friend can make you laugh when you don't to smile.

A true friend will tell you the truth when you need to here no matter how pain full.

IOS

IOS is a mobile operating system for Apple-manufactured devices. iOS runs on the iPhone, iPad, iPod Touch and Apple TV.

iOS is best known for serving as the underlying software that allows iPhone users to interact with their phones using gestures such as swiping, tapping and pinching. These finger actions are typically performed on multitouch capacitive touch screen displays, which provide fast response and accept inputs from multiple fingers. Although it is not the No. 1 mobile OS globally, iOS dominates the North American market by a large margin, with a 60 percent market share as of May 2010.

MAC OS

macOS is the second major series of Macintosh operating systems. The first is colloquially called the classic Mac OS, which was introduced in 1984, and the final release of which was Mac OS 9 in 1999. The first desktop version, Mac OS X 10.0, was released in March 2001, with its first update, 10.1, arriving later that year. After this, Apple began naming its releases after big cats, which lasted until OS X 10.8 Mountain Lion. Since OS X 10.9 Mavericks, releases have been named after locations in California.[11] Apple shortened the name to "OS X" in 2012 and then changed it to "macOS" in 2016, adopting the nomenclature that they were using for their other operating systems, iOS, watchOS, and tvOS. The latest version is macOS Catalina, which was publicly released in October 2019.

Mangalyaan is also called Mars Orbiter mission is a mission launched by Indian Space Research Organization (ISRO). Mangalyaan is the first Interplanetary Mission successfully launched by India (after 3 nations).

It is a proud fact that India is the first country to reach the orbit of Mars in the first attempt. The Space Probe was launched successfully on November 5, 2013. The same was inserted into the orbit of Mars after a transit for 298 days, that is on September 24, 2014. The whole project was executed

with a vision to develop technologies of an interplanetary mission. The total cost of the mission is 454 Crore which is the cheapest mission to Mars ever. This is one of the biggest accomplishment in Indian History .

The fact is that India is first in the World (Fourth after Soviet Union , NASA , and the European Space Agency) to successfully launch the mission in the first attempt.

Lionel Messi won this award four times in a row from 2009 to 2012, while he was awarded the title for the last time in 2015.

- In 2019, Messi has won titles such as Golden BOOT, FIFA Best Player of the Year, Best Player Award in La Liga and UEFA Forward of the Year.
- Lionel Andrés Messi (born 24 June 1987) is an Argentinian football player. He is considered one of the best football players of his generation.
- He is compared to the legendary football legend Diego Maradona because of his playing style and ability.
- Messi plays for Barcelona in the Spanish Football League 'La Liga'.

mit university

Massachusetts Institute of Technology (MIT) is a private research university in Cambridge, Massachusetts. The Institute is a land-grant, sea-grant, and space-grant university, with an urban campus that extends more than a mile (1.6 km) alongside the Charles River. The Institute also encompasses a number of major off-campus facilities such as the MIT Lincoln Laboratory, the Bates Center, and the Haystack Observatory, as well as affiliated laboratories such as the Broad and Whitehead Institutes. Founded in 1861 in response to the increasing industrialization of the United States, MIT adopted a European polytechnic university model and stressed laboratory instruction in applied science and engineering. It has since played a key role in the development of many aspects of modern science, engineering, mathematics, and technology.

it continuous.....

As of October 2019, 96 Nobel laureates, 26 Turing Award winners, and 8 Fields Medalists have been affiliated with MIT as alumni, faculty members, or researchers. [11] In addition, 58 National Medal of Science recipients, 29 National Medals of Technology and Innovation recipients, 50 MacArthur Fellows,[12] 73 Marshall Scholars,[13] 48 Rhodes Scholars,[14] 41 astronauts,[15] and 16 Chief Scientists of the US Air Force have been affiliated with MIT. The school also has a strong entrepreneurial culture

The Owl and The Duck

In a forest, there was a lake. In that lake, there lived a beautiful duck. Once day an owl came there. The owl liked the lake and started to live beside the lake. The owl liked the duck and became good friends.

One day the owl said, "friend, I want to go back to my nest. My nest is in a banyan tree. You can come there". The owl said bye to the duck and went to his nest. Days passed by, the duck waited for the owl didn't come. So the duck went to the owl's nest.

One night, some people came and sat under the banyan tree for taking rest. But unfortunately the people slept. At that moment, the owl started to make horrible sound. The people sleeping under the tree got angry and they took their sharp knives and other harmful things to shoot the owl. When they were almost ready to shoot the owl, the owl flew away. The poor duck who was sleeping under the tree was scared.

rediffmail

Rediff.com is an Indian news, information, entertainment and shopping web portal. Founded in 1996 [3][4] it is headquartered in Mumbai, with offices in Bangalore, New Delhi and New York City [5]

According to Alexa Internet, Rediff.com is the No. 41 Indian web portal as of 2019[6] and has more than 300 employees.[7] Most of the visitors to Rediff.com are from India, while the rest come primarily from the United States and Japan.[2]

Sports and games are essential for many reasons .They not only help us to maintain good health but also foster friendship and good behaviour .Many people think that the aim of sports and games is to win trophies or individual records or win medals in Olympic games .This is not at all important . What is important is that every boy and every girl in our country or in the world should be interested in sports and games .Being interested is the first step of a boy or girl to be a sportsman or a sportswoman .They should participate in sports and games .they should devote at least an hour a day to sports and games .Sports and games must be given as much importance as academic studies in our schools and collages .Marks must be awarded for proficiency in sports and games just as marks are awarded for proficiency in subjects like Mathematics,Physics,English .

When all our school and collage students take part in sports and games they will be healthy and active .They will participate in their academic studies and scientific experiments with great enthusiasm .

SUPER COMPUTER

36

A Super computer is a computer with a high level of performance as compared to general purpose computer. The performance of a supercomputer is commonly measured in floating point operators per second[FLOPS]instead of million instructions per second[MIPS].

Supercomputer is a computer that performs at or near the currently higher operational rate for computer. Traditionally supercomputers have been used for scientific and engineering application that must handle very large data bases or great amount of computation.

RAMIHVC

The IT@School Project, is an information technology project under the Department of General Education, Government of Kerala in India [2] Launched in 2001, the Project has remodeled conventional teaching methodologies in classrooms through the use of IT.[citation needed] The project is being implemented in over 12,000 schools in the state of Kerala, and also in schools in Mahé, Lakshadweep and the Middle East which follow the state syllabus. An estimated 5 million students and 200,000 teachers are now part of this project, which has a network of 160 "master trainers" and 5600 school IT co-ordinators statewide, who are school teachers themselves. The project also conducts specialized training for visually challenged teachers in that state.[3] The project functions on a free software platform. It@school is now transformed into KITE, Kerala Infrastructure and Technology for Education, a Special Purpose Vehicle Company under Department of Education.

WINDOWS

Windows is a series of operating systems developed by Microsoft. Each version of Windows includes a graphical user interface, with a desktop that allows users to view files and folders in windows. For the past two decades, Windows has been the most widely used operating system for personal computers PCs.

Microsoft Windows is designed for both home computing and professional purposes. Past versions of Windows home editions include Windows 3.0 (1990), Windows 3.1 (1992), Windows 95 (1995), Windows 98 (1998), Windows Me (2000), Windows XP (2001), and Windows Vista (2006). The current version, Windows 7, was released in 2009.

YOUR SELF

If you think you are
bad
But you are the real
hero
Today you doing hard
work
And tomorrow you are
the hero

In the world
And if you best
was not as good

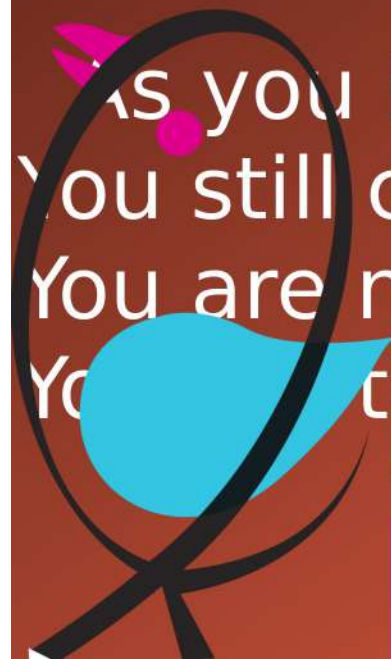

As you hoped it would be
You still could say
You are not bad
You are the best hero

Rase BERRY PI

What is a **Raspberry Pi**? The **Raspberry Pi** is a low cost, credit-card sized computer that plugs into a computer monitor or TV, and uses a standard keyboard and mouse. It is a capable little device that enables people of all ages to explore computing, and to learn how to program in languages like Scratch and Python

What are the features of a Raspberry Pi

The full specs for the Raspberry Pi 3 include:

- CPU: Quad-core 64-bit ARM Cortex A53 clocked at 1.2 GHz.
- GPU: 400MHz VideoCore IV multimedia.
- Memory: 1GB LPDDR2-900 SDRAM (i.e. 900MHz)
- USB ports: 4.
- Video outputs: HDMI, composite video (PAL and NTSC) via 3.5 mm jack.
- Network: 10/100Mbps Ethernet and 802.11n Wireless LAN.

FOUNDER OF RASBERRY ;

Eben Upton
Software developer

Eben Christopher Upton CBE is a British technical director and ASIC architect for Broadcom. He is also a founder and former trustee of the Raspberry Pi Foundation, and now CEO of Raspberry Pi Ltd., the wholly owned subsidiary which runs the engineering and trading activities of the Foundation.

Charles Babbage

Charles Babbage (26 December 1791 - 18 October 1871) was an English polymath. A mathematician, philosopher, inventor and mechanical engineer, Babbage originated the concept of a digital programmable computer. Considered by some to be a "father of the computer" Babbage is credited with inventing the first mechanical computer that eventually led to more complex electronic designs, though all the essential ideas of modern computers are to be found in Babbage's Analytical Engine. His varied work in other fields has led him to be described as "pre-eminent" among the many polymaths of his century.

Parts of Babbage's incomplete mechanisms are on display in the Science Museum in London. In 1991, a functioning difference engine was constructed from Babbage's original plans. Built to tolerances achievable in the 19th century, the success of the finished engine indicated that Babbage's machine would have worked.

Artificial intelligence

In computer science, artificial intelligence (AI), sometimes called machine intelligence, is intelligence demonstrated by machines, in contrast to the natural intelligence displayed by humans and other animals. Computer science defines AI research as the study of "intelligent agents": any device that perceives its environment and takes actions that maximize its chance of successfully achieving its goals. More in detail, Kaplan and Haenlein define AI as "a system's ability to correctly interpret external data, to learn from such data, and to use those learnings to achieve specific goals and tasks through flexible adaptation". Colloquially, the term "artificial intelligence" is applied when a machine mimics "cognitive" functions that humans associate with other human minds, such as "learning" and "problem solving".

mom

Mom is such
A special world
The loveliest
I've ever heard.

A toast to you,
Above all the rest
Mom, you're so special
You are the simply the best
