The Impact of social media on Democracy

Social media have a significant role in our world. Social media have different of impacts in our Democracy. Social media makes the people unsocial. In case of India, our nation is a democratic nation. we all have the responsibilities towards our democratic nation. but the youth or today's new generation is not at all ready to show responsibilities to their democratic nation. They have created a world of their own in social media where they are busy at wasting their precious and time.

and also their valuable youth.

The social media is making the people unsocial. It makes the people lazy to do their own works. ~~in social media~~ The social media has a lots of impacts. misusing the social media affect the Democracy. Social media have two sides But it's Impact is more dangerous. Social media is the fastest networkings so when we post anything in social media it spreads all over the world. maby the spreaded messege will be a wrong Information but social people using social media believes in that. The different types of advertisements which spreads wrong messeges to the world. So posting wrong messeges on social media affect the Democracy through people in that Democratic nation

The usage of drugs is increasing in our nation it is through social media that the using of drugs spreads through. The youthful generation in our nation is responsible for a Democratic nation of the next generation but our youthful generation is being destroyed through the usage of drugs. By watching videos in social media about drugs they are taking as a fun and using it but once if they use^{it} they can't stop or can't control there will be a tendency to use it again and again. By being like this destroys the lives of our youthful generations.

The social media is the world's biggest platform where people in the world can connect and send their messages to each other and one can send a message within a second and one can receive the message within a second. Through this messaging one can send any kind of messages to each other. Through social medias people starts messaging to their social media friends or like facebook friends etc... may be the friend's profile will be a fake one and the user will be not the same as shown in their profiles. The one who trust in that starts messaging to the attractive profiles this may be a big trap mostly trapped one's are teenagers the user who using the fake account creates a unbreakable trust in teenagers and starts

to collect their information
about them. the person who
is using the fake account doesn't
reveal their original photos
age or their personal information
with the teenagers who have been
trapped in this they give these
information to the opposite one
but that all will be fake
the opposite one who trusted
them will start to be close
with them and share their
personal photos with this the
fake person starts to blackmail
they may by maybe by morphing
their photos or to make the
photos naked and post in
the social media or they will
ask to send a large amount.

of money which is not affordable
 to them the persons will ask the
 money and starts Blackmail with
 their photos the teenagers who
 have been draped in this are
 scared of sharing this with their
 parents and the attempt a committed
 suicide or they will start to
 search of money to pay off
 But in search of money
 they will get trap in another
 traps like Business of drugs
 or they will be ready to do
 anything like crimes. This makes
 the youthful (or our New
 Generation) unsocial and
 they they will not be having
 any responsibilities towards
 their nations. They are cruel
 minded ones they are ready
 to do anything.

The crimes in our nation are increasing day by day. Also, there is an increase in criminals. We are hearing and seeing different kinds of crimes which are entirely different from each other. Some crimes are like cinematic. They are being influenced by watching movies or by watching that kind of videos in social media. By watching these kinds of criminal videos, these develop a criminal mind in youth which leads them to do crimes and they find happiness or a kind of satisfaction by watching or doing criminal

This develops physics in our nation it is through social media that they are getting or gathering information informations about the how to do crimes By stop posting and stop publishing criminal movies with crimes and getting information about how to do a crime and stop the Incurse in crimes in our nation or our world.

The new generations in our nation are busy in their own world they have created a new world in social media which include the social media friends social media news etc. The social media is making the people unsocial and also irresponsible towards their democratic nation.

The social media which contains information about every thing in the world have these much impacts on Democracy. The using of social media for a long time make the people mentally stressed or it over use destroy the creativity of one the people they can't develop their extra ordinary skill. By the over using of social media they are searching the videos of unnecessary things which are not at all useful to them but they are busy in watching Instagram reels and youtube shorts etc.

and also they are using the social media through androids, computers laptops etc, which makes them addicted and also destroy them physically and mentally health. The over use of social medias through Android phones, computers etc damages eyes, their creative and extraordinary skills. The new generation are weak at their studies also.

people are ready to post any thing about their privacy still they are ready to share in social media. The views of these videos helps or encourage them to do more videos about their personal life, but still they are ready to do any thing for popularities.
