little kite

YOU ARE THE SUNSHINE

If I am hot I can hold your touch

If I am cool I can feel you much

If you are with me everything in the world

Even the world itself is in my hand

You always blossoms like a flower

As a beautiful shower.....

You are not only a teacher

But also a hunter.....

You hunted my heart

And makes me wonder

The rhythm of my heart

Flows with your name

I was at the world of imagination

But you opens the door to realization

I was like a blank island

But you filled it with peace

My heart instantly beats to hear you

I am trying to be with you.....

I am a great devotee of you

I promise you, I won't forgive you

Oh my teacher,

You are my book

You are my world

You are the best

You are the "Sunshine".....

Be a star in the sky and twinkle.....

the miracles of life is waiting for you

new light new start

new vision new mission

അതിജീവിക്കുന്ന കേരളം

ദൈവത്തിന്റെ സ്വന്തം നാടായ കേരളത്തെ മുഴുവൻ ഞെട്ടിവിറപ്പിച്ച മഹാപ്രളയത്തിൽ നിന്ന് നമ്മൾ വളരെ അത്ഭുതകരമായി അതിജീവിച്ചു. എന്നാലും, നമ്മുക്ക് ഉണ്ടായ നാശനഷ്ടങ്ങൾ വളരെ വലുതാണ്. നമ്മളിൽ ചിലർക്ക് അവരുടെ കിടപ്പാടം നഷ്ടപ്പെട്ടു, കുടുംബം നഷ്ടപ്പെട്ടു, സ്വത്ത് നഷ്ടപ്പെട്ടു, അതിൽ ചിലർക്ക് അവരുടെ ജീവൻ തന്നെ നഷ്ടപ്പെട്ടു. എങ്കിലും അവർ ആരും തന്നെ അവരുടെ ദൈവം കൈവിടാതെ ഈ നാശനഷ്ടങ്ങളെ നേരിട്ടു. മത്സ്യത്തൊഴിലാളികളും, നാവികസേനയും, പോലീസുകാരും, ഫയർ ഫോഴ്സുകാരും, രക്ഷാപ്രവർത്തനത്തിന് വളരെ സജ്ജീവമായി പ്രവർത്തിച്ചു. ഇവരുടെ എല്ലാവരുടെയും കഠിനാധ്വാനത്തിന്റെ ഫലമായി നമ്മുടെ കേരളം ഈ പ്രളയക്കെടുതിയിൽ നിന്നും കരകേറിയെങ്കിലും നമുക്കുണ്ടായ നാശനഷ്ടങ്ങൾക്ക് അറുതിയില്ല. പുതുതായി കെട്ടിപ്പടുത്തുയർത്തുന്ന കേരളത്തെ നമുക്ക് ഒന്നായി കൈകോർത്ത് സംരക്ഷിക്കാം.

തനിയെ

ഒരു നെരിപോടായി സ്വയം മെരിയുന്ന
 ആവർത്തനത്തിന്റെ
 വൈകൃതമാണീ ജന്മം ;
 പാതി നഷ്ടപെടലുകളുടെ
 ശാപവും പേരി
 ഞാനും ഞാനെന്ന നിഴലും
 പലപ്പോഴായി പകുത്തുവെച്ച
 മഞ്ജാടിക്കുരുവിന്റെ ചാരുതയി -
 ലൊന്നിനെ തിരയുന്നു
 മാതൃത്വം എന്റെ സ്വന്തം
 പകലുകൾക്ക് രാവിന്റെ ഭംഗിയും
 രാത്രികൾക്ക് നിഴലിന്റെ ശബ്ദവും
 സ്വപ്നങ്ങൾ നിർത്തകമാകുന്ന
 നേർന്ന നിശബ്ദതയും
 എനിക്ക് കുട്ടാകുന്നു .

MODERN TECHNOLOGY

Modern technology is simple and advancement of old technology. The impact of technology in modern life is unmeasurable , we use technology in different ways and sometimes the way we implement various technologies do more damage than good. What we call modern technology is technically not so new in most cases. For example mobile phone technology has evolved from what it was in the year 2000 and continued to do so today; nowadays we use smart phones which is merely an advanced version of an older mobile phone.

We use technology on a daily basis to accomplish specific task or interests. Modern technology or evolved technology at times may replace previously used technology due to its increased benefits or new found popularity.

ADVANTAGES OF MODERN TECHNOLOGY

It has become pretty easy to get access to relevant information at any times and anywhere. This has been possible because of modern technologies like broadband internet. Lots of data is being published and indexed online, sites like Wikipedia and You-tube have great original content that is regularly used for research or entertainment. With smart gadget like the ipad, iphone, galaxy tablets etc., users can easily have access to a vast amount of information wherever they are through the use of the internet on these devices.

IMPROVED COMMUNICATION

Communication is like water to life, it is essential to growth, we can not progress without communication.

Modern technology has blessed us with advanced communication technology tools. They include e-fax, electronic mail, mobile phones, video conferencing, instant text messaging applications, social networking etc... All these modern communication technology tools have simplified the way humans and businesses communicate. I can

quickly talk to my relative overseas using a mobile phone or video chatting services like Skype.

CONVENIENCE IN EDUCATION

Learning is a process and it is part of our daily lives. Modern technology has made it simple for students to learn from anywhere through online education and mobile education. Also students now use modern technology in classrooms to learn more effectively.

BENEFITS TO THE HEALTH INDUSTRY

Today most hospitals have implemented modern technology in surgical rooms and this has reduced mistakes made by doctors. Humans can easily make mistakes because of works overload and stress factors. Additionally, the development community has development health apps that enable us to monitor our health, weight or fitness. These applications are used on mobile phones, so users have access anytimes.

DISADVANTAGES OF MODERN TECHNOLOGY

Increased loneliness

Social isolation is on the increase, people are spending more time playing video games, learning how to use new modern technologies using social networks and they neglect their real life. Technology has replaced our old way of interacting. If a user can easily interact with 100 friends online, they will feel no need to go to make new friends which at a later stage can lead to loneliness.

Job less

modern technology has replaced many human jobs; robots are doing the jobs which used to be done by human. Many packing firms have employed robots on production lines to increase production and efficiency this is good news for businesses because it make more money and serve customers, but it is bad news for employees because they may become redundant.

LOVE YOUR SCHOOL

Allen had a strange habit. when everyone would leave the class, he would turn the dustbin upside down, switch on all the lights and fans and would scratch the board and furniture. One day Steve saw him doing that. He thought of teaching Allen to be responsible towards his school. Through he knew it would be a tough task, but he decided to bring Allen on the right track. The Next day, as everyone else left the class, Allen switched of all lights and fans patiently. He went to Allen to have a word with him. “Allen we must not waste our resources when not using them. We already have limited source of energy. Who cares “okay , tell me something, would

you feel good if someone did that your room? “I know it is you who kicks the around the class room. When everyone has left. Thrust me. It's not cool at all. “ hmm.....

my friend , our classroom is a second home to us.

We should be responsible enough to take care of the property and cleanliness of our class room and school this got Allen thinking. He was feeling embraced “ some times we tent to neglect our own belongings and not take care of them. If we will take care our belongings, they'll take care of us too.” come with me and I 'll explain. Steve look Allen to the library. “we love reading books. Don't we?” “yes,of course,” “ but we all feel bad to find some pages missing or torn in between ,” “yeah” “ complete books are always a pleasure to read. Whenever I pick a book , I try to tape the torn pages and also reading while having meals, So as to avoid any kind of stains of them” “good” “ whenever I go to canteen ,I always throw the waste in dustbin to keep canteen and areas clean . I'm sure you would like to visit a canteen that has litter all over and smell like a land fill. When I am working in a lab , I follow each and every instruction given by the teachers so that both, the equipments and me are safe. Whenever I borrow something from the school. I try to return it in the small condition”.

As they were passing by the pantry. They noticed a little boy leaving the tap open. Steve quickly went and close it .

“ whether it is me or someone else, it is important all of us to care of important resources, like water and electricity” “ also , taking care of the properties in our school we should make our school tidy , presentable and environment friendly”.

I am so sorry about my behaviour , stave. You are right. From now on I will take care of my school as my own. I 'll treat all this belongs well, and will try to be a responsible student. Allen kept up this word. He was often to seen a picking up waste and throw it in the bin , white on way. He would to care conserve energy resources as much as he could one day, he was seen helping a young kid learn the importance of school.

LUCKY LIVES UNDER *LUCKY STAR*

Hari was a poor and hard working wood cutter. He lived in the edge of a thin forest in Rajkot. One day he was talking to his father. He said "father, it is so difficult to live in this world. Is it because

I was born at the positions of the stars were wrong' He then started crying.

The father calmed him saying, 'No it is not like that our wealthy monkey lender was born under will soon have success and happiness also.'

He decided to go to the monkey lender and find the answer to his questions. Hari asked the monkey lender, "sir, I am confused we were born under same stars why is it we are having different fathers? The monkey lender replied, "I understand your problem, but even I have no answer for it. Our kind was also born under the same stars let us go and ask him."

Both of them went to the king and bowed down. The monkey lender spoke first, "your master, you, Hari and me were born one same day it was we were born on the same time then why are our fates so different. The king thought a lot but still could not answer. These questions he then decided to ask his advisers.

One of them said, "your highness, all three of you are the same in the eyes of God, the monkey lender is using only his brain. But your work is a difference in each of your fates. Every one was satisfied with the answer the king used the adviser's understanding of gold coins. In exchange for their full life, they decided that they would use all the talents that God gave them."
