ABDUL KALAM's VISION OF INDIA

In 3000 years of years our history, people from all over the world have come and invaded us, captured over lands, conquered our minds. From Alexander onwards, the Greeks, the Turks, the Mughals, the Portuguese, the British, the French, the Dutch, all of them came and looted us, took our what was ours. We have not conquered anyone.

Because we respect freedom of others.

He believe that INDIA got its first vision of this in 1857, when we started the war for independence. It is this freedom that we must protect and nurture and build on. If we are not free, not

one will respect us. For 50 years we have been developing nation. It is time to see our selves as a developed nation. We are among top five nations of the world in terms of GDP. We have 10% growth rate in most areas. INDIA must stand up to the world. Because he believed that, unless INDIA stand up to the world, no one will respect us. Only strength respect strength. We must be strong not only as a military power but also an economic power. Both must go hard-in-hand.

TWO GOATS

There were two goats over a river there was a very narrow bridge. One day a goat was crossing the bridge. Just at the middle of the bridge he met another goat. There was no room for them to pass. Go back said one goat to the other. There is no room for both of us. Why should I go back? Said the other goat "better you must go back", " You must go back, said the first goat, because I am stronger than you are not stronger than me." said the second goat. We will see about that said the first goat and he put down his horns to fight. Stop the second goat. If we fight we shall both fall into the river and be drowned and instead I have a plan. I shall lie down and you may walk over me. Then the wise one laid down on the bridge and the other goat walked righty over him. So they crossed the bridge comfortably and went on their ways.

I AM NOT ALONE

The night is helplessness
From the mountains to the sea
But I, the one who rocks you,
I am not alone!

The sky is helplessness
If the moon falls to the sea
But I, the one who hugs you
I am not alone!

The world is helplessness
and the flesh, in sadness carries
But I, the one who cuddles you
I am not alone!

NEW FRIEND

I'm standing in the playground
And I'm all alone
My only friend's away today
I think she's ill at home
I'm feeling very lonely
And I think that I might cry
I'd really like to play with you
But I know I'm much too shy
Perhaps I'll just stand near you
And maybe ask you name,
And if you smile and talk to me
Perhaps we'll play a game
I am running in the play ground
I am playing "IT" with to
I think I've got a new friend now,
I'm glad I said, "hello"
