PPMHS KARAKONAM

P P M HIGH SCHOOL

leads me from darkness to light

It was during the pre independence days, in the year 1943, the school was started

for the benefit of the ordinary people of Karakonam and its surrounding places, as an English middle school, by Sri E Paramupillai, who retired as the Diwan Peshkar from the service from the princely state of Travancore

It was started at the Saraswathi bhavanam at Karakonam. Later in 1949 the school was upgraded to high school. The institution progressed under Sri P Raman Nair, celebrated 50th year in 1994. Introduction of English medium stream started in 2002.

Now reaches 81st year.

OUR LITTLE KITES

In PPMHS, little kites started on 2018. Now there are two units, one in 8th standard with 40 students and another in 9th standard with 32 students. Usually classes are on every wednesday evening and get practise on possible afternoons. This year implemented LK uniform. Present 10 th standard, there are 37 students, completed their LK life.

THE LITTLE PLANT [poem]

In the heart of a seed
Buried deep so deep
A tiny plant
Lay fast asleep
"wake", said the sunshine
"And creep to the light"
"wake", said the voice
of the raindrops bright
The little plant heard
And it rose to see
What the wonderful
Outside world bright be....

നിശബ്ദ സ്നേഹം

കഴിയിലഹഹ! സ്നേഹമില്ലയാ
അനാഥനാം ഒരു കൊച്ചു ബാലന്
അനുഭവിക്കുന്നു വേർപാടിൻ
വേദന അവനുള്ളിൽ മാത്രമേ
മറയുന്നില്ല മാതാവിൻ സ്നേഹവും
തീർന്നിട്ടില്ല പിതാവിൻ വാത്സല്യവും
കുണികമാമി ഴോകജീവിതം
അവനെ അനാഥനാക്കിയിരുന്നു.

5 LITTLE KITES [poem]

Five little kites went out to play.

The first kite said, "Its a windy
day"

The second kite said, "look at me
look at me "

The third kite said, "watch out for
that free"

The fourth kite said, "let's fly to
the sun. the fifth kite said
"What fun What fun"

Then those went the wind, and it
blew
all the kites.

then they danced in the sky
and flew out of sight.

ARTIFICIAL INTELLIGENCE [AI]

Artificial intelligence is the simulation of human intelligent processed by machines, especially computer systems.

Specific applications of AI include expert systems, natural language processing, speech recognition and machine vision.

As the hype around AI has accelerated, vendors have been scrambling to promote how their products and services use it. Often, what they refer to as AI is simply a component of the technology, such as machine learning.

Four Main Types Of AI

.Reactive machines.Reactive machines are AI systems that have no memory and are task specific,meaning that an input always delivers the same output

.limited memory machines.the next type of AI in its evolution is limited memory...

.Theory of mind

.self-awareness

കരിവീരൻ

അമ്പലമുറ്റത്തുണ്ടാരു കൊമ്പൻ
വമ്പൻ കരി വീരൻ
മുന്തിൽ ചെന്നാൽ
കൊമ്പുകുലുക്കും
നല്ല കുറുമ്പോൾ
തുമ്പി കൈയും

THE OAK TREE AND THE REEDS

The oak tree always thought that he was far stronger than the reeds. He said to himself "I stand upright in a storm. I don't bend my head in fear every time the wind blows. But these reeds are really so weak."

That very night blew a storm and the mighty oak tree was uprooted.

"Good god!" sighed the reeds, "our way is better. We bend but we don't break."

CROW

An intelligent bird with a great memory, often identified by its black colour, is the crow. Multiple species of crows are found all over India. A group of crows is called a murder.

ONAM - At my school

Onam is the harvest festival of Kerala. It is closely related to Mahabali, the Asura king. Pookkalam, Vallamkali, Sadhya etc are highlights. Any way onam brings a happiness, expectation, hope and every thing in life.

For me, onam celebration at my school is more special than in my house. This year also we celebrated our onam. In my class, students suggested colour code for shirt. Some students 'mundu' for wearing. Our teachers and friends looks more beauty than usual.

we got a delectious feast, onasadya, at noon. I cant explain that taste. Now also my mouth is watering. The day passed by gifting some woderful moments for me.
