

## Sedative Society

We are living in a community called society. In society we influence each other in good and bad ways. Some years back each and every people in a society were lived in harmony and love and respected each other. But now we should more invigilant as a member of a society.

Because, there are lots of bad things happening in our society like drugs, child abuse, house hold abuses etc...

In the case narcotic drugs, the dealers are targeting mainly students. As a result of drug usage in students, the future of our society is destroying.

Another harassment is child abuse, some people are abusing children in different sectors, some are using them as child labours.

It's our responsibility to raise our voice against these social vices and make our society a good one.
