

The third T20I between India and Bangladesh in Hyderabad saw several records being shattered, with India posting a commanding 297 for six. Having already secured the series in New Delhi on Wednesday, India chose to bat first. Despite losing opener Abhishek Sharma early, Sanju Samson and Suryakumar Yadav propelled the team to a blistering start, recording India's joint-highest PowerPlay score in T20Is (82).

Samson went on to score his maiden T20I century in just 40 balls, making him the second-fastest Indian to achieve the feat, behind Rohit Sharma. The duo also notched up India's second-highest second-wicket partnership with a stand of 173 runs.

A hypersonic jet, designed to fly from London to Texas in only two hours, is set for its first test flight in 2025. Developed by Venus Aerospace and Venus Aerospace and Velondra, this jet could change the future of travel with its incredible speed.

KOZHIKODE, OCTOBER 10, 2024: The Government Technical High School in Kozhikode conducted a grand Pooja celebration on its premises, fostering a sense of unity and spiritual growth among the students and staff.

The school's auditorium was decorated with vibrant flowers, and the atmosphere was filled with the sweet scent of incense sticks and the chanting of mantras. The students presented cultural programs, including music and dance performances, which added to the festive ambiance.

KOZHIKODE, OCTOBER 14, 2024: The Government Technical High School in Kozhikode recently conducted an electrifying Arts Day celebration, showcasing the diverse creative talents of its students.

The event kicked off with a mesmerizing inaugural performance by the school's music club, followed by a dazzling array of cultural events. Students took to the stage to showcase their skills in music, dance, theater, and visual arts, leaving the audience spellbound

Elon Musk's SpaceX achieved a significant milestone on Sunday by catching the massive booster stage from its Starship rocket in a pair of robotic arms as it fell back to the company's launchpad in southern Texas.

The historic feat, which drew praise from astronauts and space experts, topped a successful fifth test flight for the uncrewed Starship, which blasted off from the Boca Chica starbase at 7.25am local time (1325 BST) on Sunday.

As the rocket's 71-metre (233ft) Super Heavy booster separated 40 miles (65km) above the Earth, the upper stage pushed on to an altitude of nearly 90 miles, looping around the planet at 17,000 mph before splashing down in the Indian Ocean as planned.

The unlikely friendship between Shantanu Naidu and Ratan Tata began in 2014, when Naidu, working as an automobile design engineer in Pune, created reflective collars to protect stray dogs after witnessing a tragic accident. Shantanu Naidu, a key aide to Ratan Tata, once spent half his salary on a Brooks Brothers shirt just to impress the legendary industrialist. It wasn't just any shirt—it was the same brand Tata favored. In his memoir, Naidu candidly shared how he spotted the logo during their early meetings, squinting to make out the brand.
