# Nature is our world

Nature a Sound of Joy  
That brings happiness to everyone,  
Just listen it every day  
Will bring smiles at once

Nature a loving Mother  
Who covers her child in her shadow  
A cool breeze will relax you  
While sitting in a meadow

Nature a company of love  
Who is like a sweet bun,  
Trees give oxygen and  
Ask for nothing in return

Trees are cut  
Water is damaged  
But what about humans  
Their things are managed

Start a little  
Plant a tree every year  
No tensions No worries  
You will have to hear.

# RAIN

Little drops of water  
Falls on the window

I stood beside the window  
Watched the cool drops of water

Oh! God! Is it drops from heaven  
May be god's blessing

The planets and flowers are dancing  
In the cool breeze
