പ്രളയം

ആലിയ

വാർത്തകളിൽ പ്രളയം....
 കണ്ണരിന്റെ പ്രളയം....
 മഴ ദൈവങ്ങൾ കനിഞ്ഞ....
 പ്രളയം.
 എങ്കിലും ദുഃഖം!
 ഓർമ്മകൾ മറഞ്ഞു....
 പ്രളയത്തിൽ.
 സ്വപ്നങ്ങൾ ഒഴുകി പ്രളയത്തിൽ.
 ഒടുവിൽ വന്ന പത്ര വാർത്തയിൽ -
 ഒരു കടലിരപ്പൻ!
 വാർത്തയുടെ ഉള്ളിലിങ്ങനെ -
 ഞാൻ കാത്തിരിക്കുകയാണ്
 നീ തിരിച്ചുവരമെന്ന
 പ്രതീക്ഷയോടെ .

MY PRECIOUS STAR**Ahlam Mushthaque**

Off all the gifts god has given
my parents are the most valuable one
like the sun they have showered
the lights of inspiration in me
like the shadow they were always
with me in my happiness
in my sadness and my difficulties
and in all my success.

They wiped off my tears when i was sad
they encouraged me when i was disappointed
they thought me right and wrong
and share everything in life

without them my life is like
the sky without the stars,
the flowers without the fragrance,
the bird without the wings,
the moment I've spend with them
were the most memorable time in life
our friendship is very precious to me
precious than a diamond
they are my life, they are my soul
they are my way, they are my success
until my last breath
I'll be there for both of you

STUDENT LIFE IS GOLDEN LIFE

Aliya

It is said that “student life is golden life”, because student life is the most important part of human life. It is the period of pure joy and happiness, because the mind of a student is free from cares and worries of a grown up life.

In this period, the character of man is built. So, it is called the formative period of human life. Every student should try his best to make the best use of his student life.

The primary duty of a student is to learn and to acquire knowledge. He must do all his work at the right moment and maintain punctuality and discipline. He must remember that if a student becomes successful in student career and his character is built on a sound basis, he will be able to shine in any sphere of life and serve his society and countries.

A student should spend most of this golden period in reading and learning. A good student never wastes his time fixed for reading uselessly. But he must not be a book-worm being always engaged in his studies. He should also be careful about his health and spend some time daily in some sports and games. He should try to develop his body and mind at the same time.

As a student he must try to develop his intellect. He should also try to acquire some good qualities like obedience, duty, fullness, respect for elders and love and sympathy for fellow man in the society. The duty of a student is to obey his parents and teachers and respect the elders of the society.

Students are the future hope of the country. So every student should try to be the best citizen in all respects, so that he may serve his country as far as he can.

Be Happy Not Perfect

Nida Fathima P

There is so much thing as perfect
Where did the world come from
The perfect husband, the perfect job,
the perfect house, the perfect marriage.

We are all human, living in a human world.
Most are nice, sincere, loving, even kind
But perfect causes such unhappiness

Perfect is unreal, untouchable
Accept good, well done and wonderful
Do your best, be your best
There is no such thing as perfect
Be happy, not perfect

Can I give you a Hand

Hana

it was a warm summer evening. Paul was returning home when he saw two men outside the house of his neighbour. Tom baker. They were carrying his furniture into a van.

He knew that tom was moving out in a few days, so he walked up to one of the men and said, 'Hello, can I give you a hand?' The man just stood there , looking 'That would be great. As soon as Paul got into the van, thanked him and left. Later while Paul was having dinner' the door bell rang. It was tom and he looked very upset. 'Someone broke into my house and took every thing!' he thought. Fortunately Paul gave a clear description of the men to police and they found the burglars after only an hour . Paul helped move every thing back into empty house but he's never offered to help neighbour again

Smart work verses hard work

Fathima Farha P

Once two men had a heated arguments with each other who could cut more firewood from morning till four in the afternoon? They decided to find out. The next morning the two men started their work. At first, they worked at the same speed. But in an hour one of them found that the other had stopped cutting. Realising that this was his chance, the first man started to cut wood with double effort.

Ten minutes passed, and he heard the second man working again. They were working almost synchronously. Then the first man found that his opponent had stopped again. The first man started to work, sensing the smell of victory. This lasted all day long. Every hour one of them stopped for ten minutes and the other continued to work. When the time expired, the first man who worked without stopping was absolutely sure that he would win the prize. But he was surprised to know that he was mistaken. How did that happen? He asked his partner.

Every hour I found that you stopped work for ten minutes. How could you cut more firewood than me? It's impossible.

It is very simple, in fact, answered the second man, Every hour I stopped the work for ten minutes. And when you were cutting, I was sharpening my axe.

बेटी

जब जब जन्म लेती हैं बेटी,
खुशियां साध लाती हैं बेटी।
ईश्वर को सौगात ही बेटी,
सुबह की पहली किरण हैं बेटी।
तारों की शीतल छाया हैं बेटी,
आंगन की चिड़ियाँ हैं बेटी।
त्याग और सम्पूर्ण सिखाती हैं बेटी,
नाये नाये रिश्ते बनाती हैं बेटी।
जिस घर जाए उजाला लाती हैं बेटी,
बार-बार याद आती हैं बेटी।
बेटी की कीमत उनसे पूछो,
जिनके पास नहीं हैं बेटी।

MY SECOND TEACHER

Wafa Abdul Majeed

As an aerospace engineer I worked in Delhi with the Ministry of defence, and later joined the defence development establishment at Bangalore. There, with the advice of the director, i took up the project for the development of the hovercraft. The design for the hovercraft needed the development of a ducted contra-rotating propeller for creating a smooth flow balancing the torques. Though I knew how to design a conventional propeller I did not know how to design a contra-rotating propeller. Some of my friends suggested that I should approach Prof. Satish Dhawan of the Indian Institute of science (IISc) who was well known for his aeronautical research.

I took permission from my director, Dr Mendiratta, and went to meet Prof. Satish Dhawan. He was sitting in a small room filled with books and a blackboard on one wall. Prof. Dhawan asked me what the problem was that i wished to discuss with him. I explained the requirement of my project work and he agreed to teach me the design provided I could attend his classes in the IISc between 2 and 3 p.m. on all Saturdays for the next six weeks.

He prepared a list of the reference material and books I should read before attending the classes. I considered this as a great learning opportunity and started regularly attending the classes and meeting Dr Dhawan. Before commencing each meeting, he would ask critical questions to assess my understanding of the subject. For the first time I realised how a good teacher, with meticulous planning, prepares himself for teaching and the student for acquisition of knowledge

Believe All are Unique

Fathima Shirin

December broke with great pomp and joy. The new member has arrived at day break. In no time, the hospital witness swarm of gifts for the newly born baby.

It have been years since the Adam family had a baby to receive. All the big boys were married but they had to wait for years to get a child. Precisely, it has been 18 years sine they own they a baby

“Call him Alex- Alexander the great” “No, no, no..... he shall have a modern name” said uncle. “no new names our Bible has plenty to choose from” said Granny

Discussions went higher and higher. The whole lost of relatives were invited for the ‘Welcome Ceremony’ of the newly born and his Parents years went by: being the apple of everyone’s eyes, his first word eagerly waited for. He walked and ran and screamed and did all sorts of mischiefs but not words to call even mamma and papa.

The first year of anxiety gave way to grief. Met several Doctors had all kinds of Tests but nothing in the History of Medical Science could jot down what the matter was. At last after much observation and inferences, it was noted that he possessed a rare deformity that stops the Brain from sending correct signals that forms utterances

The whole Family got depressed but his mom prayed for the baby. She made up her mind to not let the baby notice any change in him. She made it a rule for other too

His mom learned how to teach a deaf child. She came to know about lip reading and went for a training too. Thus, in no time, she excelled in teaching he son words and sentences.

Even though he failed to talk like others, he rose above his equivalentents in learning as much knowledge as he could in his early years of school

What he is today is the result of his mother unrolled tears. If he had been left as a common, disabled child he would not have dreamt of the stars he has already touched!

Salute to The Brave Lady GAURI LANKESH

Nada Fathima P K

she wasn't just an ordinary women.....
she was a flowing pot of idea.....
her life wasn't easy at times
that courage of hers.....that determination
of hers.....that consideration of hers was unique
her voice had the power to change,
the whole country.....
whole world.....

and now..... she is no more.....
India, you lost a precious gem
you lost a warrior
that loss can't be replaced
what bravery it is,
to shoot a women alone at home!

What an act of utter foolishness
to mute a women of fire!
Bullet can kill a human,
but not an idea
you may be shot dead,
but your memories are still alive
and so you are.....

A BIG SALUTE TO YOU, BRAVE LADY.....!

The black spot

Shaza Fathima M

One day, a professor entered the classroom and asked his students to prepare for a surprise test. They waited anxiously at their desks for the test to begin. The professor handed out the question paper, with the text facing down as usual. Once he handed them all out, he asked his students to turn the page and begin. To everyone's surprise, there were no questions....just a black dot in the centre of the page. The professor seeing the expression on everyone's face, told them the following:

“I want you to write what you see there.”

The students confused, got started on the inexplicable task.

At the end of the class, the professor took all the answer papers and started reading each one of them aloud in front of all students. All of them with no exceptions, described the black dot, trying to explain its position in the middle of the sheet, etc. etc. etc. After all had been classroom silent, the professor began to explain:

“I am not going to grade on you this, I just wanted to give you something to think about. No one write about the white part of the paper..

Everyone focused on the black dot – and the same happens in our lives. We have a white paper to observe and enjoy, but we always focus on the dark spots. One life is a gift given to us by God, with love and care, and we always have reasons to celebrate – nature renewing itself everyday, our friends around us, the job that provides our livelihood, the miracles we see everyday...

However we insist on focusing only on the dark spots- the health issues that bother us , the lack of money, the complicated relationship with a family member, the disappointment with a friend etc.

The dark spot are very small compared to everything we have in one lives, but they are the ones that pollute our minds.

Take your eyes away from the black spots in your life. Enjoy each one of your blessings, each moment that life gives you.

MY BEST FRIEND

Hafsah Haris

It's her face that makes my day
With brightness and joy
And i feels like a bird
Hugging the blue sky
She makes one from
A black dreadful dream
Saying there's hope in things
And knows me when I am sad
When I am smirking stone
In an ocean of troubles
She picks me up gently
And guides to the light.
Sometimes I feel terrible when
Everyone turns their back to me
But she is there to shield me
Stocking with warm hand
I fail to know the depth of life
But she is there to lead me.
Because I very well know that
She is my BEST FRIEND.

Dreams

Salma M

Dreams aren't real
But one can make it real
Everyone has a dream
But no one tries to achieve it

Dreams aren't sweet
But one can make it sweet
It may not be too easy
But if tried, it could be made easy

Dreams must not live in one's mind
It should be in one's heart
Every dream cannot be fulfilled
But the deserved one can be fulfilled

Stopping by Woods on a Snowy Evening

Fathimathul Sana

Whose woods these are i think i know.
His house is in the village, Though;
He will not see me stopping here
To watch his woods fill up with snow.

My little horse must think it queer
To stop with out a farmhouse near
Between the woods and frozen lake
The darkest evening of the year

He gives harness bells a shake
to ask if there is some mistake
The only other sound's the sweep
Of easy wind and downy flake.

The woods are lovely, dark and deep
But I have Promises to keep,
And miles to go before I sleep
And miles to go before I sleep.

THE MIRACLE OF FRIENDSHIP

Nadha

The miracle called friendship
Dwells within the heart
You don't know how it happens
Or when it gets its starts

But the happiness it brings you
Always gives a special lift

Then you really realize friendship
Is one of god's most precious gifts

Isn't social media a blessing or a curse!.....

Sana

Social media is the one of the most effective ways for people to connect and communicate with others from around the globe. However, it is not easy to answer the question as to whether social media is a blessing or a curse for education system.

Students can find custom research, through connecting to social sites, which make social media and education to have a positive relationship

here are six main disadvantages of social media

1. Cyber bullying

Before social media, everything was simple even when it came to bullying. With the advent of internet a new form of bullying has been introduced it was known cyber bullying. Cyber bullying is basically teasing someone by creating fake account. With a fake account you are able to do everything without anyone knowing about your real identity.

2.Hacking

In addition to cyber bullying, another main disadvantage is hacking. Hacking is basically stealing someone's personal data and invading privacy to share with other people this can cause a big loss to personal lives.

3.Reputation

As mentioned earlier, hacking can ruin someone's life. This also include running their reputation

4.Fraud and scams

many fraud and scams have been reported on social sites where individual have been duped by other people into believing something or buying something only to find out later that it was false all along.

5.Addiction

Social media is quite addictive and this part of technology is highly damaging and determinable for personal life. Teenagers have been main

target of these sites where they get extremely involved and eventually isolate themselves from society.

6. Health issues

The excess use of networking sites has created many health issues. These health issues include both physical and mental instability. People who are addictive to these sites are experiencing many negative side effects such as headache, eye strain, social withdrawal, and sleep etc.....
