EFFECTS OF SMOKING

Dear friends,

Today I am before you to speak on the dangerous effects of smoking. Smoking is surely the silent killer of life. Smoking cigarettes has become so common among adults, and even among teenagers all over the world, that it can be called a universal evil. Some elderly men smoke cigars and the poorer sections in India smoke "beedis". In India, smoking is not yet very common among women, but the habit is growing. Once a person starts smoking it soon becomes an addiction from which it is extremely difficult to free one self. It can, and very often does, cause diseases like cancer, and trigger fatal heart attacks. The nicotine is a poison and is dangerous to various vital organs like lungs, liver and heart. The life expectancy of most smokers is cut down by many years and millions die every year of cancer and heart attacks. So I request all of you to educate people on the harmful effects of smoking.

Thank you....

**ചുവന്നമാംസം
ഒഴിവാക്കപ്പെടേണ്ടതോ?**

പൊതുവെ നമ്മൾ കേൾക്കുന്ന കാര്യമാണ് ചുവന്നമാംസം ഒഴിവാക്കപ്പെടേണ്ടതാണ്. ഇതിൽ ധാരാളം കൊഴുപ്പും കൊളസ്ട്രോളും അടങ്ങിയിട്ടുണ്ട്. അതിനാൽ ധാരാളം രോഗങ്ങൾ പിടിപ്പെടാൻ സാധ്യതയുണ്ട്. ഹൃദ്രോഗവും ഡയബറ്റീസുമെല്ലാം ഇതിലാദ്യം നിൽക്കുന്നു. ദഹനേന്ദ്ര വ്യവസ്ഥയുടെ ഭാഗമായ കോളൻ,റെക്ടം ഇവയിൽ കാൻസർ ഉണ്ടാവാനുള്ള സാധ്യത വർധിക്കുന്നു.

ചുവന്നമാംസം പൂർണ്ണമായും നാം ഒഴിവാക്കുകയാണെങ്കിൽ അതുമൂലമുണ്ടാകുന്ന പോഷക നഷ്ടം മറ്റു ആഹാര പദാർത്ഥങ്ങൾ വഴി നാം നികത്തണം.

माँ

सिर्फ एक शब्द है वह,
जिनसे मैंने प्यार नामक
दो अक्षर सीखा

उनकी साँस से,
मैंने अपने जीवन की
पहली साँस सीखा ।

मेरे कानों में पहला उनका शब्द,
उनका चेहरा दिखाया
मुझे ईश्वर की राह ।

उनकी ममता ने ही,
मेरे मन में भर दी
खुशी की लहर ।

मुझे सिखाया उसने
कि हँसना होता है हमेशा
रौने से बेहतर ।

बुराई को किया मुझसे दूर
दिखाया मुझे
रास्ता सत्य का ।

माँ सिर्फ आप ही
आप ही कर सकते हो
यह काम दुनिया भर ।

ऐसे अनेक पाठ सिखाकर
मुझको मैं बनाकर
भर दिया मुझ में शक्ति और प्राण ।

माँ बिना आप
मैं भी नहीं
धन्यवाद सबके लिए धन्यवाद ।

ALBERT EINSTEIN

Albert Einstein is a German-American physicist, usually termed as the greatest scientist of the 20th century and a notable physicist of all time. He developed the theories of relativity and won the Nobel prize for Physics in 1921 for his explanation of the photoelectric effect.

In 1880, the year after Einstein's birth, his family moved from Ulm to Munich, where Hermann Einstein, his father, set up a small electrical plant and engineering works. In Munich Einstein attended rigidly disciplined schools. At the behest of his mother, Einstein also studied music; though throughout life he played exclusively for relaxation, he became an accomplished violinist.

It is said that he had learning disability in his childhood and he couldn't talk till he was three or couldn't read till he was eight. Whatever may be the truth behind it, one thing is absolutely true—when grown up he was one of the best.

In 1933, soon after Adolph Hitler became the chancellor of Germany, Einstein renounced his German citizenship and migrated to the United States. Einstein was so convinced that Nazi Germany was preparing for war that he urged free Europe to arm and recruit for defence.

Einstein died in his sleep at Princeton hospital.

A CLOUD

I wanted lonely as a cloud
That floats on high over valleys and hills,....
When all at once I say a crowd
A host, of garden daffodils;
Beside the lake, beneath the trees,
Fluttering and dancing in the breeze.
Continuous as the stars at shine
And twinkle on the milky way
They stretched in never ending line
Along the margin of a bay

Mahatma Gandhi

A leader of his people, unsupported by any outward authority; a politician whose success rests not upon craft nor the mastery of technical devices, but simply on the convincing power of personality; a victorious fighter who has always scorned the use of force; a man of wisdom and humility, armed with resolve and inflexible consistency, who has devoted all his strength to the uplifting of his people and the betterment of their lot; a man who has confronted the dignity of the simple human being, and thus, at all times risen superior.

Generations to come, it may be, will scarce believe that such a one as this, ever in flesh and blood, walked upon this earth.

*Keep your thoughts positive
because your thoughts became your words.
Keep your words positive
because you become your behaviour.*

MOTHER

Mother is not a word ,she is a precious jewel who was dropped from heaven to make our life as a grant success.

*Without them we are nothing,
so it is our duty to protect them.*

Nowadays what is happening?

We are taking them to old age Homes

now , they are a waste to us, we are paining them. Friends, don,t be like that. If this measure continue like this

will sure that the future generation is

going to be ask "WHAT IS MOTHER"

so, it is our duty to protect them and save them.....

FRIENDS

Oh my friend you are my best
We fly like a bird in the sky
To chase our dreams
Oh my friend you are my best
There is no end in our friendship
You are my life long friend
Oh my friend you are best
I am the body you are my shadow
Oh my friend you are my best
You are the best friend in the world

TALES AND TUNES

Vimal is a lucky boy. He has a grandmother who tells him lots of stories. Every night, at bed time, there is a story for him. What fantastic stories grandmother has told Vimal -stories of animal and birds, of clever and senseless people of magic and music, stars and sages and many more. One day Vimal asked his grandmother if stories grew on trees. She laughed and said, no, not on trees! She laughed and said, "then, where do we get the stories from?" Vimal asked. "I got them from my grandmother. I, in turn, tell you." Vimal remember to tell your friends these stories, so that they can also enjoy them. But Vimal said, "No, i don't want to tell them any of this stories. They are my stories, my treasure i don't want to give them a way." "Don't be silly my boy, stories are meant to be told listen and tell. That's the law of the story kingdom," his grandmother said.

A CLEAR MIDNIGHT

THIS IS THE HOUR SOUL,
THE FREE LIGHT INTO THE ROOM
AWAY FROM BOOKS,
AWAY FROM ARTS,
THE DAY ERASED,
THE LESSON DONE,
ONLY THREE STARS IN THE SKY
SILENT NIGHT
THE THEMES YOU
LOVE BEST
SWEET DREAMS

There is perhaps no other material arts that are so widespread as the sports and games. It really enriches both the mind and the body irrespective of sex and age. even a newcomer sportsman of the good such as the longest, the highest and the fastest the the uses of games are varied. The physical exercises help to strengthen the muscular system and to purify blood. The waste in the body goes out and the player perspire well. Beyond all the games and sports gives us great pressure. A sorrowful fact is there to be noted we have our own games like hockey, cricket, football, etc.....

OUR RESPONSIBILITY

Our responsibility is for to help our parents. Not only our parents but also our teachers. But in these days no one is not capable to help each other. They always look for tomorrow. So our parents is the only ones who promote our life. So understand them by making many changes in life. In these days childrens are not interest in helping their parents. They always think for themselves. So our responsibility is to understand our parents' minds. They always think of our life.

CHILD LABOUR

Good morning to all,

Today I am going to say a few words about child labour. Child labour is the service paid by the children in their childhood in any field of work. This is done by the child own due to thlack of resources for the survival, irresponsibility of the parents or forcefully by the owner for increasing their return on investment at low investment. It does not matter the cause of child labour as all the causes force children to live their life without child hood. Childhood is the great and happiest period of the lives of everyone during which one learns about the basic strategy of the life from parents, loved ones and nature. Child labour interferes with the proper growth and development of the children in all aspects like mentally, physically, socially and intellectually. It is the crime to humanity which has become a curse to the society and a big issue preventing the country's growth and development. The presence of a large number of child labours is regarded as a serious issue in term of economic welfare. Children who work fail to get necessary education. They do not get the opportunity to develop physically, intellectually, emotionally and psychologically. So, we should ignore and avoid child labour. Children are bright future of our count ry.

Thank you.....
