English Section

In our Indian situation, English is learned in a conscious or artificial manner unlike the English speaking countries where it is learnt naturally. And yet the level attained surprises all. This English section proves beyond doubt that our students love the language. They can be creative and their imagination is beautifully conveyed through their efforts. I am optimistic that some of these budding talents will turn out to be Ruskin Bonds or Vikram Seth's of tomorrow

RAIN

Run in the rain drops

Run through the tree

Rain little races

With each little breeze

Run up the lane

Run through the meadow

Then run back again

Run and be merry

All through the day

Run to the country

AWAY,AWAY

*Remember,
life is not just about surviving the storm...
It's about learning to dance in the rain
even when t
hings are pouring down around you!"*

FOR MY MOTHER

Oh ! My Mother
you are my care
And you are my Teacher.
I can't live without your presence
you always give happiness
And also the precious love for Me.
All respect All respect mothers
And all bow their head,
In front of Mother's love.

Mother's love shining as a 'Pearl'
This shine can't be destroy
Only we must be remember,
Mother's love is greater than others.

MOTHER'THE MIGHTY'

One who gives us birth
One who teaches us truth
One who gives us life
One who is important than wife
One who loves us more than our father
The whole world calls that lady 'Mother'

Mother feeds us very lovingly
And takes care of us very strictly
She protects us like the 'Indian wall'
And drives away every danger like a full toss ball

Mother makes our life right so, that
We can makes our future bright .
She makes our life painfree so, that
We can plant our tree nicely.

But now in todays world,
The meaning of mother does change,
After becoming a succesfull person
Everybody thinks that mother is strange

Today everyone thinks, mother is the same
As India is losing every cricket game abroad,
We all know that God is present on earth.
In the form of mother.
So we should give her proper worth.

WE have to change our mentality,
If we want to touch the stairs of success,
We love to give our mother main priority.
If we want a life full of happiness.

OH MY GOD

Looking at the sky I can see you my lord
He is everywhere as well as in my heart
In all my sides at everywhere. Oh God!
Oh God! Oh my God.

I praise you everyday
He makes me happy and makes me sad
I love you God! I love you God !
He gave me everything
He gave me a loving family
My God!my God!my God!my love!

He shows me the way of success.
He shows me the light and truth.
Oh my God! Oh my God!
Oh my love!

WONDERS OF SPRING

When I opened my window,
my eyes fallen into my garden.
The little butterflies,
flying here and there.
The charming flowers,
looking at the sky and smiling.
Oh what a wonder!
what a beauty!
fragrance of flowers,
going to distant places even
in the lakes and the pond.
Trees are full of blossoms
The sky is clear.
Birds are flying, smiling and
singing their sweet songs.
Oh! wow now I understand,
the beautiful spring season arrives.
Wow! What a wonder !
What a beauty!

THE TRAVELLER.....

The road was lone and lonely
And the journey rough
with ditches and dirt
fall to reach that truth
Coloured in mysticism
Mingled with my egoism
and carried by my pragmatism.
Oft had I floated with the wind
Selling away and
round in a world wind
around that secret source
that made others saints.
Still I said I must search on
until I reach that eluding truth
many come laughing by
promising to walk by
but finding the road long and long
preferred to stand and watch.
Then it seemed the road would never
and that the truth would never be found
nowhere else to turn
I turn to myself
deep with my own eluding
undisciplined self
and found what others couldn't.

A PIPER

A piper in the streets today
Set up and tuned and started to play.
And away ,away,away on the tide
Of his music we started; on every side

Doors and window are opened wide,
And met left down their work and came
Women with petticoats coloured like flame
And little bare feet that were blue with cold

Went dancing back to the age of gold
And all the world went gay
For half an hour in the street today.

CHILD 'S CRY

Papa, papa I want to go to school

Papa said shut up your mouth you little fool,

Now go to work with your lunch and tool,

Before the sun melts the downs cool.

My greatest dream is to learn

And to get a job by it earn,

When I see other school going boys,

My heart burns,

With desire to study , also my heart can only earn!

IMPORTANCE OF READING IN LIFE

"Reading make a full man";says Francis Bacon the father of English essays. A book offers a cultural person his greatest joy. Reading broadens outlook ,drives away prejudices and lights up knowledge. Books are the best friends of man. They never desert us in our hour of need. They lead us through the right path.

Great books are the reflections of master minds. We experience in the works of great written the strength and beauty of their vision. They appear before us and speak to us through their books. Books transport us to a world of wisdom and joy and free us from anxities of day to day life.

Reading is the best joy man choose.

When we have spare time the best way to make it useful is to read a book. But while selecting books one has to be careful. Books could be good or bad in a world flooded with books only selective reading will offer the true pleasure that reading yields.

CHILD LABOUR

Child Slavery refers to the slavery of children below the age of majority. In the past, many children have been sold into slavery in order for their family to repay debts or crimes or earn some money if the family were short of cash. A scholar retold a story about a mother where, “here predicament shattered the privilege of thinking of her children” In purely, personal and sentimental terms and caused her to consider whether outsiders might find value in them. “Harriet Beecher stone wrote about a woman who was brought by a slave owner to breed children from him to sell. The expectations of children who were either bought or born into slavery varied scholars noted “ age and physical capacity , as well as the degree of dependence set the terms of children's integration into house holds”.

The duties that child slaves were responsible for performing are disputed amongst scholars . A few representations of the lives that slave children led portrayed them as. 'Virtually divorced from the plantation economy until they were old enough to be employed as field hands , thereby emphasizing the carefree nature of childhood for a part of the slave population that was temporarily spread forced labour . This view also stated that if children were asked to perform any duties at all it was to perform light household chores , such as being “ organized into 'trash gangs' and made to collect refuse about the sate . Opposing scholars argued that slave children had their youth stolen from them.

NUMERALS

The numerals, now in everyday use, are called Arabic numerals, because it was from the Arabs that these numerals spread to Europe. Actually they are Indian in origin and should rightly be called Indian numerals.

The concept of zero and the digital system (including decimals) are India's contribution to the science numerals. The Arabs adopted the Indian system. The European got it from the Arabs (see landmarks of science)

Among the authors, who were instrumental in transmitting Indian mathematical knowledge from Arab sources to Europe, the most famous was Leonardo of Pisa (AD 1202). Other important authors were John Seville (1135), Adelard of Bath (1142), Robert of Chester (1142), Villedien (1240) and Sacrabosa (1242).

PHOTOGRAPHY; AN ART

Photography literally means art or process of taking photos . It is an art which is entirely different from other forms of art .Anyone can take a photograph, but it takes the right person to take the right photo at the right moment and when incredible pictures are born,then we say its photography. For me, photography is a miraculous opportunity to capture and remember some glorious moments of life which cannot be recaptured later. Sensational photographs are tangible ones.

Creativity is the mother of photography; good photographs are born from Creativity .There are millions and millions of photographs around us that give us pleasure,short-lived or perrenial.It's always blissful to watch ourselves being portrayed in vivid expressions .Camera is the third eye of the photographer .It's totally different from natural eyes .It is packed with some unique and magical which never lost and enables the photographer to produce that final piece of art, the PHOTO

To a photographer four things are of the utmost importance.

First-TIMING which is an in fact very much necessary for a photo because the perfect timing produces the perfect pho-

tography .Second -AMBIENCE, the real beauty of lies in its ambience because it decides how a photo should be.

Third-LUCK, it may sound weird but it is a fact that even professional photographers agree that luck plays a major role .To capture that special moment, that rare scene,luck is needed.

Fourth -PATIENCE, it is the most needed triat of a good photographer .To be the best patience is the key

Photography can be considered in different ways, as job,as a social crusade, as a hobby-it all depends on the person.

The real is that photography is a field that is not popular because it is not lucrative .Only those people who are interested are in the field, because of their passion for this art. Another fact is that the field has never experienced a stampede from job seekers to date and that's one of the reasons why no one really knows the real beauty behind photography.

COURAGE

To live with courage is to live with fear.

No man can attain true courage without overcoming true fear.

For unless one knows how paralyzing fear can be , one cannot know the courage it takes to conquer such fear.

Walking a path in life in which one is not afraid does nothing to strengthen the soul.

It is only when you are scared to death that courage produces confidence, faith and trust.

Every man should know fear without shame

Never consider fear as a sign of cowardice

Only lack of action in the face of fear is cowardice

Courage is facing fear daily and becoming its master

The Light Of Asia

It was a spring season. The prince was standing in the garden enjoying the beauty of the nature over there, the snow capped Himalayas stands tall. The prince stood there all engrossed in the splendour of the nature. He then noticed a flock of wild swans flying. WOW! What a beauty! Suddenly, one among the swans fell down in front of the prince. The love and care of the prince soothed the s

The cousin of the prince approached him. He shouted, 'Return to me the swan that I shot' For this the prince answered, 'Killing this innocent creature is a sin. All living beings on earth have a right to live freely in the world. No one is nobody's owner'. When the argument worsened, the dispute was taken to royal court. On hearing the pleas raised by both sides, the King said, 'The saviour owns more right than the slayer. So, the prince is its owner'. The prince later let the swan free.
