Environmental Problems

Earth is blessed with air, water and resources for our life. The beauty of our planet lies in its fascinating and wonderful elements like the wind, rain, season etc... but they are being exploited in a careless and selfish manner. Now a days people doing such type of activities. people polluting the water by dumbing plastic and e-waste to the river. Other one is deforestation by cutting the plants and buildings. Air pollution by the excessive use of vehicles and chemicals from factories.

This made many health problems to humans like bacteria, fungus etc... It's our duty to protect the nature. It is useful to the next generation for it stop activities like cutting the trees and polluting the nature and plant. Trees make clean the rivers for a beautiful earth.

Earth is our mother. So its our duty to love and care the nature.

Strive for Progress not Perfection

When you focus too much on perfection and you start worrying at every step. Making mistakes is better than taking perfection.. Making mistakes do not mean that you are a failure, It only means that you are trying learning in life. Focus on progress, not on perfection, perfection can be a slippery slope. Waiting until some' perfect could very well have you missing out on what's occurring right now and set you up to feel like failure over and over. So word hard and don't think of the product.

Long Use Of Computer Is Harmful For Our Health

Muscle Problems

There are different ways on how we use computers. But most commonly, people sit on a chair and face the desktop monitor placed on a desk. According to research, regular computer users complain about muscle soreness and muscle fatigue. They also experience numbness in back, chest, arms, shoulders, and feet. The major cause of these is poor posture while using the computer

Vision Problems

Too much focus on a computer screen is bad for the eyes. According to American Optometric Association, prolonged exposure to computers, tablets, and smartphones cause computer vision syndrome. An average American worker spends about seven hours a day on the computer. To avoid this condition, one should follow the 20-20-20 rule

Headache

Computer use also caused headaches and migraines. According to Very Well, there are various factors that trigger headaches. This includes illumination, patterns, and images in the computer. Also, poor posture contributes to the onset of headaches.

Stress

Prolonged computer use also increased the risk of people to stress. The hazards of computer use, plus poor health, job environment, and work pressure provide stress. It can also lead to poor concentration, weariness, and constant headaches. If the person cannot tolerate stress, it will lead to depression and serious mental health disorders.

Obesity

The leading indicator of a sedentary lifestyle is the use of the computer for several hours. Approximately, 2.1 billion people or 30% of the world population are obese or overweight. The use of computer makes these people, especially children to be inactive, which will increase their risk to obesity and later diabetes and heart disorders.

Repetitive Stress Injury

When you continue to stress your musculoskeletal parts, it may indicate repetitive stress injury. The most common parts affected of this are the neck, shoulder, and your fingers. Thus, it is important that computers users follow proper posture and the proper positioning of the computer, desk, and chair

Radiation

Part of computers is radiation. Most computers have Cathode Ray Tube (CRT) on the monitor which emits X-ray radiation that is extremely bad for health. Being exposed to radiation can increase one's risk to cancer, migraines, insomnia, and tumours. It can also lead to miscarriage and birth defects. Most recently, scientists have found out that placing laptops in the lap affects male fertility like decrease in sperm count

Nature

Nature is beautiful in every way.

Even the tiniest of things in nature is beautiful

Trees, flowers, birds, butterflies so wonderful

Nature is a divine gift from god to humans.

Humans are selfish

Humans are destroyers

Humans don't realise themselves

Once when nature reacts

Humans will be no more

Beware..beware..beware...

Love your nature..it will love you

അമ്മ

അമ്മ എന്ന രണ്ടക്ഷരം എത്ര മനോഹരം. ആദ്യം തുടങ്ങുന്നത് അമ്മയിൽ നിന്ന്. കാൽ വളരുന്ന കൈ വളരുന്നോ എന്ന് നോക്കി വളർത്തിയ അമ്മയെയും അച്ഛനെയും അതേ അതേ കൈയ്യാലും, കാലാലും പുറം തള്ളുന്ന യുഗത്തിലാണ് നാം ജീവിക്കുന്നത്. ഇതേ പ്രവർത്തി തൻ നമ്മുടെ ജീവിതത്തിലും ആവർത്തിച്ചു ഈടുമ്പോൾ.. അന്ന് നമ്മൾ തള്ളിപ്പറഞ്ഞ മാതാപിതാക്കളുടെ വിഷമം നിങ്ങൾ മനസ്സിലാക്കും.

പ്രകൃതി

അല്ലയോ പ്രകൃതി നിനക്കായിരും വന്ദനങ്ങൾ
നീ എൻറെ സ്വപ്നത്തിലെ സ്വർഗ്ഗമാണ്
പച്ച പാടങ്ങൾ കൊണ്ടും പച്ചപ്പുല്ല് കൊണ്ട്
നീ മനോഹരമാണ്
പച്ചവിരിച്ച പട്ടു പോലെ
നീ വ്യാപിച്ചുകിടക്കുന്നു.

പ്രകൃതി അമ്മയാണ് പ്രകൃതിയെ ഇല്ലെങ്കിൽ നാമില്ല
പ്രകൃതി നീ എത്ര മനോഹരം.

मेरी माँ

जन्म देने वाली माँ
जिँदगी की पहली गुरु माँ,
जिँदगी की पहली दोस्त माँ,
जिन्दगी को स्वर्ग बनाने वाली माँ,
मेरी माँ मेरी दुनिया है
माँ तुम ईश्वर हो
माँ है तो सबकुछ है
माँ नहीं तो कुछ भी नहीं ।

महात्मा गांधी के अनमोल विचार

कमजोर कभी माफ़ी नहीं मांगते । क्षमा करना तो ताकतवर व्यक्ति की विशेषता है :

The weak can never forgive. Forgiveness is the attribute of the strong.

कुछ ऐसा जीवन जियो जैसे की तुम कल मरने वाले हो, कुछ ऐसा सीखो जिससे कि तुम हमेशा के जीने वाले हो:

Live as if you were to die tomorrow. Learn as if you were to live forever.

आँख के बदले में आँख पूरे विश्व को अँधा बना देगी :

An eye for an eye only ends up making the whole world blind.

जहाँ प्रेम है वहीं जीवन है:

Where there is love there is life.

एक देश की संस्कृति दिलों में और अपने लोगों की आत्मा में रहता है:

A nation's culture resides in the hearts and in the soul of its people.

शक्ति शारीरिक क्षमता से नहीं आती है । एक अदम्य इच्छा शक्ति से आता है :

Strength does not come from physical capacity. It comes from an indomitable will.

मेरा धर्म सत्य और अहिंसा पर आधारित है, सत्य मेरा भगवान है और अहिंसा उसे पाने का साधन:

My religion is based on truth and non-violence. Truth is my God. Non-violence is the means of realising Him.

संतोष प्रयास में निहित है, ना ही प्राप्ति में, पूरा प्रयास ही पूर्ण विजय है :

Satisfaction lies in the effort, not in the attainment, full effort is full victory.

पाप से घृणा करो, पापी से प्रेम करो :

Hate the sin, love the sinner.
