## ആശംസ

2023-24 അധ്യയന വർഷത്തിന്റെ സമാപന ദിവസങ്ങളിലെക്ക് പാദശ്രീ നിൽക്കുന്ന ഈ സാഹചര്യത്തിൽ മേരിലാൻഡ് ഹൈസ്കൂളിലെ ലിറ്റിൽ കൈറ്റ്സിന്റെ എല്ലാ പ്രവർത്തനങ്ങളെയും ഏറെ സന്തോഷത്തോടെ അഭിനന്ദിക്കുന്നു. ശാസ്ത്ര സാങ്കേതിക രംഗത്ത് ഒട്ടേറെ കുതിച്ചു ചാട്ടങ്ങൾ നടത്തി കൊണ്ടിരിക്കുന്ന ആധുനിക സമൂഹത്തിൽ കുട്ടികളെ ഐടി മേഖലയിൽ വികസിപ്പിച്ചു കൊടുക്കാനും പൊതു വിദ്യാഭ്യാസ വകുപ്പ് നൽകുന്ന കാൽവെപ്പുകൾ ശ്ലാഘനീയമാണ്. ലിറ്റിൽ കൈറ്റ്സിന്റെ ഡിജിറ്റൽ മാഗസിൻ തയ്യാറാക്കുക എന്ന ലക്ഷ്യത്തോടെ മടമ്പം മേരിലാൻഡ് ഹൈസ്കൂളിലെ ലിറ്റിൽ കൈറ്റ്സ് മാസ്റ്റേഴ്സ് ആയ ശ്രീ സ്മിത തോമസ് സാറിന്റെയും സിസ്റ്റർ ഷീന പി ലൂക്കോസിന്റെയും നേതൃത്വത്തിൽ 9-ാം ക്ലാസിലെ കുട്ടികൾ ചെയ്തു കൊണ്ടിരിക്കുന്ന എല്ലാ പ്രവർത്തനങ്ങൾക്കും എല്ലാവിധ വിജയങ്ങളും ആശംസകളും നേരുന്നു.

# PATH OF LIFE

Truly, I have lived  
Only in the few hours  
When we were together.  
Hours and minutes in between,  
Between all evil,  
The suffering and destruction.

But my silent tears  
Were not enough for you,  
Because you only saw yours.

And so the ways have parted,  
You choose a different road.

And the path of life  
It closed for me.

# wonder science

Looking at the age when a man led a life like a savage, we notice how far we have come. Similarly, the evolution of mankind is truly commendable. One of the major driving forces behind this is science. It makes you think about the wonder of science and how it has proven to be such a boon in our lives. Most importantly, science has helped develop a great civilization. All the advancements that man has been able to make are with the help of science only. However, it won't be wrong to say that science is a two-edged sword.

It comes with its own set of advantages and disadvantages.

To say that science has a lot of benefits would be an understatement. The benefits of science do not just limit to one sphere, but it has proven useful in various spheres of the world. When we talk about innovations in science and engineering, electricity is the first thing that comes to mind. It has helped power the world through its development.

It has helped cure deadly diseases and also perform surgeries which were hard to perform before. Therefore, science has changed the world in unimaginable ways.

# IMPOSSIBLE IS NOTHING

Life is full of success and failures, all of us have many dreams and aims in our life it makes us active too. Every successful man has failed in his life not only once but several times. Failures are just as about our mental weakness, lack of preparation, attitude etc.

The best way to defeat failures and achieve success in every situation of life is to train yourself and never give up. Just look at the babies, when they walk they fall several times but they never give up, they keep trying and gradually succeeds in their attempt. Failures are just as about our weakness.

The way of success is a narrow path, that is not often taken by many. One must take challenges head on, to achieve the desired result. A man who has not tasted failures does not know the value of success. When we encounter our defeats we can know, WHO WE ARE!. Don't bury your failures, let them inspire you, these are the stepping stones to success, without stepping these stones you can't achieve heights.

"It's failures that gives you proper perspective on success".

## Slogans on Anti-Drugs

- Invest in yourself and your capabilities. Life has the ability to take you way above than drugs ever can.
- When given a choice, choose life over drugs. Your future self will thank you for saving yourself from the trauma.
- Don't let them trick you. It's a death trap. Don't let drugs take over your life.
- Drugs will drag you down. Be proud of yourself and say no to drugs.

# YOU ARE PERFECT JUST THE WAY YOU ARE !

Perfectionism is not the same thing as striving to be your best. Perfectionism is the belief that if we live perfect, look perfect and act perfect, we can minimize or avoid the pain of blame, judgement and shame . It is a shield . It is a twenty - ton shield that we lug around thinking will protect us when . In Fact, it is the thing that's really preventing us from flight.

To work on yourself is the best thing you can do, Accept that you are not perfect , but you are enough . And then start working on everything that destroys your insecurities , your ego , your dark thoughts , you will see in the end you're going to make peace with yourself . And that's the greatest thing in the world.

"You are perfect exactly as you are. There is no need to change anything except thoughts that you are not good enough ."

The quality of stone isn't perfect , but when I wore it , it always reminded me of how life can surprise you . Sometimes , the thing that at first appears flawed can end up being the most perfect thing in the world for you !

# ENVIRONMENT

The environment means the things that surround us. It is everything that makes up our surroundings and affects our ability to live on the earth. The air, water, land, plants, animals, solid wastes and other things that are surrounding us constitute our environment. Man and environment are closely intertwined and interact with each other. Man cannot exist without environment and environment cannot exist without man

Ancient humans lived closer to the natural environment and therefore they lived healthier and longer. But today we are surrounded by the artificial environment that we have created for ourselves – buildings, air conditioned rooms, streets, shopping complexes, vehicles emitting poisonous gases, dust etc.

It would hardly require a second thought to conclude that this self made artificial environment of ours is a harmful creation. Not only we are breathing pollution but also doing considerable damage to nature, in our expedition to grow materialistically, further aggravating the situation. The more we move away from our natural environment, the more we move away from health and longevity. In the following essays we will discuss in details, the meaning and significance of environment and how it could be protected.

Now, in the era of advance living standard of the human being, our environment is getting affected to a great extent by the means of air pollution, noise pollution, deforestation, water pollution, soil pollution, acid rain and other dangerous disasters created by the human beings through technological advancement. We all must take an oath together to protect our natural environment to keep it safe as usual forever.

## AIR POLLUTION

### WHAT IS AIR POLLUTION?

AIR POLLUTION OCCURS WHEN GASES, DUST PARTICLES, FUMES OR ODOUR ARE INTRODUCED INTO THE ATMOSPHERE IN A WAY THAT MAKES IT HARMFUL TO HUMANS, ANIMALS AND PLANTS.

### CAUSES

FROM BOTH HUMAN AND NATURAL ACTIONS.  
1. EMISSION FROM MANUFACTURING ACTIVITIES.  
2. BURNING FOSSIL FUEL  
3. HOUSEHOLD AND FARMING CHEMICALS

### EFFECTS

ACIDIFICATION, EUTROPHICATION, GROUND-LEVEL OZONE, PARTICULATE MATTER.

### SOLUTION

GOVERNMENT (OR COMMUNITY LEVEL PREVENTION, INDIVIDUAL LEVEL PREVENTION, DRIVE LESS, CARPOOL, MINIMIZE THE BURNING OF FOSSIL FUEL.

### TWO TYPES

PRIMARY POLLUTANTS: GASS PARTICLES THAT ARE PUMPED INTO THE AIR  
SECONDARY POLLUTANTS: WHEN POLLUTANTS IN THE AIR MIX UP IN CHEMICAL REACTIONS FORM A MORE DANGEROUS CHEMICAL.
