# I am With You ; Nature

In this cyber world, I am 'One',  
who felt like alone.  
Coz, no one is there to share  
and give me care.

But 'you'; the nature, the goddess;-  
made my ~~lonely~~ loneliness  
thrown into the air and you  
whispered me " # I'm with you".

Oh! nature, thine adorable beauty makes  
my mind fresh and bakes  
a cake of poetry in my heart,  
which is a humble piece of my art.

Everyone ask me "How can you survive  
without gadgets"? I just say " I have  
a beautiful lover who is better  
than the gadgets ; the nature.

She give new shape to the mind  
of young men like us, to find  
the beauty of the nature  
and explore it in the future.

Even the smell of the dust,  
make me a man of lust  
who wants to be with you like a guard  
who keep all your assets in my yard.

Thy fresh wind kisses my lips,  
 Soothing rain wipe my tears  
 and your soil takes all my sweat.  
 Totally you took my heart.

Dear lovely princess, take my blood  
 and add it to your colours.  
 Make me a part of you,  
 because 'I love you'.

But I'm in no mirth now; coz these cunning-  
 people are destroying your assets  
 Even though, I swear you back,  
 "I'm with you, till my end".
