

Topic : Educational system and Social Commitment

Education with Moral values Creates the future
Exam Education Destroys it

Students who are the future citizens have a pivotal role in the progress of the society as well as the nation. Students who have a creative mind and a good intention will be always on advantage for every country. Tomorrow the society and the country will be known by the present students. So students are the future of a society.

✓ In India Educational system was organized well during the reign of DelHousi Lord. In 1835 he introduced English Education with the intention of creating a class of people who were Indians but English in Taste. Afterwards its growth became very pace when National Educational Institutes were established by Freedom fighters with the intention of saving the generation ~~of~~ from British culture. When DS Kothari submitted his report in 1964 Indian Educational system adopted the 10+2+3 system.

From the period of Freedom fighting itself Educational Institutions were established in connection with the society. Kerala, being named by Swami Vivekananthan as Lunatic Asylum was a nest house of many social evils. But through good education Kerala had put off the description of asylum in her name. The ninety nine percentage of Literacy rate had played a pivotal role in the progress of Kerala society by overthrowing the social evils such as Untouchability, caste discriminations etc.

Nowadays India's social progress is stunted due to the evil practises in society like caste discrimination. As Kerala had ^{been} rescued from this, still many states continue this bad practises. Lack of Education is the main reason for this. By establishing schools in such places we can overcome this issues and wisely secure from such dirty cultures. As from the schools imparted many moral values to the students, they will protest against such unwise practises and save

become the saviours of the society.

Educational systems in foreign countries like Denmark, America and Switzerland etc have a close knit relation with the society than Indian system. There teachers take the students to the nearby hospitals, colonies etc and show them what happen around them. Afterwards their opinions are asked about how they can progress the society. But most of the in Indian Educational system is spent for merely learning such things only for Examinations. This should be avoided and ~~they~~ should we shall change of our system which will intensively help for social progress.

Education is one of the main factors which determine Civic Consciousness in an Individual. Nowadays Lack of Civic consciousness is present in all walks of life. Destroying of public property, irritating others and creating public issues are some of them. Through moral Education Civic consciousness can be imparted

in each student and thereby saving the future of our nation

The contributions of Education is not packed inside a specific sector. Its aftermaths has a wide effect on the nook and corners of the society. India had developed Missiles of her own. The hard work of APJ Abdul Kalam and Raja Ramanna is the key factor behind this. The life of doctor APJ Abdul Kalam is really a model for all. He continued his education on the field which he liked and made India to the first developing country to make and launch Missiles and Aircrafts.

The basis of Education is to develop the individual by the learning of different subjects for the betterment of the society. When freedom struggle was started it was concentrated to the elite of the society. Rabindranath Tagore through his patriotic poems and Mahatma Gandhi through his teaching changed the face of freedom struggle. Then the city centric freedom struggle spread to the nook

and corner of the society.

Illiterate mass cannot fight for their rights. This is the main reason for the denial of education to the backward people in India. Sree Narayana Guru as a social reformer, tried to impart the knowledge to the backward class in Kerala and make them aware about their rights. Through his educational activities, Scheduled castes and Tribes had ^{risen} reached the main level of the society. His words "National Institutions should replace Temples as worshipping centres" reveals the significance of Education in Social welfare.

Benefits of including materials which help in the progress of society in Indian Educational

- Students will be aware about the importance of nature and protection of cultural activities more than how to mould their career.
- Creates Nationalism among the students and imparts the significance of Democratic.

- Students become aware about the they face and the loss when foreign spread beyond a limit
 - ~~These~~ Terroristic activities ^{can} ~~should~~ controlled accordingly
 - Helps to impart good mannerisms and create a society with moral val
- All these things will influence the fut a nation in a positive way.

Countries like Afghanistan and P. failed to retain their Educational s for terrorists. As a result stud. learned the policy of Aggressive and adopted the way of Terrorism of working for the progress of the countries. The bitter fact is more 50 fifty thousand peoples are joining state which is the union to take birth conquer the world through Terrorism. incidents reveal the necessity of ~~imp~~ imparting knowledge which is useful fo society.

The pioneer among the social reformers in India, Raja Ram Mohun Roy had proved that society can be overturned through education. Through his educational institutions a class of people who can understand the Indian society is not with discrimination. When his idea began to work. He decided to increase his work by publishing news papers. Sambath Ka Bengali and Mirath-al-Akbar in Persian news papers. Through his works he proved that newspapers can be used to develop a nation among people more than that of revealing. By adopting his way many reformers started to publish news papers.

Education is the key factor which changed the world. During Renaissance education was a weapon used by the reformers. Through Renaissance the world understood the importance of humanity. Till then humanity was burdened with green sods and people were filled with false belief. The Renaissance

the significance of the words of Nelson which was "Education is the most powerful weapon we can use when we try to change the world".

Indian Education system should be improved giving dominance to social connection facts along with career building fact otherwise the future generation will be and they will give due importance to their interests by avoiding public interest. A man is a social being he cannot live isolated this kind of things happen there will be no security in the society. And ~~the~~ it cause subjugation of the society physically and culturally.

Our Father of Nation Mahatma Gandhi, a common man with a great desire to build a nation and build his future with bricks. If he worked with this intention his great presence which is invaluable the freedom movement will ^{only have been a} ~~be not see~~

But through his reading habit he read many books which caused a deflect his thought and made him a great. So Education doesn't mean the inner de of an individual. It mean the total of the society through the work o Individual.

The famous Scientist Alfred N invented Dynamo. It can be used to mai useful things. But people take it for Atom Bombs which destroyed the world. If such people where taught wisely they will retreat from such activitie. But through the lack of Education w. social commitment this will be ~~acced~~ ^{reach} to the future generations and an insti cruellness will carve their mind. So, such ~~has~~ harmful activities, Education is only weapon.

2) People acquires knowledge mainly through Teachers have a pivotal role in determining the level of Civic Consciousness and commitment of society. Teachers should work with of creating a mass which help in the of the society rather than with a motive of making money. The influence teacher will be reflected through the student. So our Education system should consider teachers who have a great desire to be part of the betterment of society. It'd mean that they shouldn't be paid for it

Logical thinking is the basis of present world. From the world which closed in the rooms of spider webs, Religion, caste, Terrorism etc. Logical thinking helped the world to break the ties and create a world of peace and human. Logical thinking is a good factor which the people ~~rather than~~ to select virtues from vices. Logical thinking imparts the message of fraternity in human mind. Only creative educational methods logical thinking

fostered in human minds.

The present world was the gift of many factors. If it is not preserved well it will again fall to the dirty pits from the Mountain of values. Today's students are Tomorrow's citizens. Only through them the country as well as the world can be made as a cultivating field of virtues. Education with social commitment is the only way for it. A war shouldn't be happened any more to control such vices it is necessary to create a group of peoples with the mind to work for the society. As the middle "The habit in the childhood will be followed till death" suggests that character doesn't change. It is very essential to create a society which will work for the good progress of society. To create such a society Education should be imparted with social commitment and it should be imbibed with commitment to the society.
